If you want responsibility fast, talk with Eastex.

On campus

WEDNESDAY, NOVEMBER 19, 1969

Take a look at the top 5 U.S. industries and you will find papermaking. Take a look at the fastest-growing companies in the industry and you will find Eastex. Our rapid growth makes it necessary for us to give you firm responsibilities quickly.

At Eastex you will become part of a relatively small but highly trained and technically oriented management group. You will have an opportunity to sharpen your talents against the ability and experience of our top people.

You will also work with some of the newest developments in the business. For instance, we have just installed and are operating America's first complete paper machine and stock preparation system specifically designed for direct digital control.

Make an appointment at your placement office now to see the Eastex representative on campus. Or send for our brochures. Write:

AN EQUAL OPPORTUNITY EMPLOYER

Court 'OK's Arrests of Demonstrators

By Barry Schweid, Associated Press Writer

WASHINGTON (AP)—The Supreme Court has given tacit approval for campus police to arrest student demonstrators who raise a clamor on university property to protest the Vietnam war.

But because the court did not set forth its views with the ruling Monday, the effect is likely to be limited.

The court decided, by a 7-1 vote, in a case from Wisconsin where a student claimed the state's disorderly conduct law was being used to suppress his freedom of speech.

The student, Robert K. Zwickler, had held over his head, outside a University of Wisconsin placement office, a picture of a Vietnamese child seared with napalm. The university had turned the office over to the Dow Chemical Co., a napalm manufacturer, to conduct placement interviews.

The high court, in dismissing his appeal, did not state any particular reason. The only thing else the court said was that: "Mr. Justice William O. Douglas is of the opinion that probable jurisdiction should be noted."

This meant that of the current eight justices, only Douglas felt Zwickler had made enough of an impression to warrant at least a hearing if not eventual reversal of his conviction and invalidation of the state law.

The abruptness with which the court acted may indicate there is little sympathy among most of the justices for the kind of "free speech" claims raised by Zwickler.

However, these deductions are shaky, at best, because the high court has the pesky habit of laying back and waiting for a similar case that presents the same issues in a sharper fashion.

Campus Briefs

Rubella Vaccine Now Available

Rubella Vaccine, the vaccine to prevent German Measles, is now available through the Bryan-Brazos County Health Dept., according to Dr. Clyde M. Caperton, director.

Caperton said that due to limited supply of the vaccine, only children ages five through 10 will be able to use it.

"The danger of rubella is in the defects it may cause in an unborn child if the mother catches the disease during early pregnancy," Caperton noted.

Dr. Nelson Appointed To White House Panel

Governor Preston Smith has appointed Dr. Bardin Nelson to serve as a state representative to the White House Conference on Children and Youth next December in Washington, D. C.

Nelson, a member of the Agricultural Economics and Sociology Department, will attend a series of preparatory meetings to develop guidelines for the 1970 conference.

The first preparatory session, titled the "Heartland White House Conference," is set for Nov. 11-13 in Tulsa, Okla. "Today's Youth and Moral Values" will be emphasized.

Middle School PTA To Have Open House

A&M Consolidated Middle School Parent-Teacher Association will have an Open House for parents from 7 to 8:30 p.m. Thursday.

Object of the session, according to J. Comstock, is to give parents an opportunity to meet their children's teachers and visit classrooms.

Ex-Juvenile Officers Joins Police School

A long-time law enforcement

officer with extensive experience in juvenile problems has joined A&M's Police Training Division, announced Chief Instructor Ira E. Scott.

Charles Kenner, 44, has been assigned as an instructor for the Texas Engineering Extension School police division and will serve as coordinator of juvenile and juvenile probation special instruction.

Kenner, who has 17 years experience in law enforcement, comes from the Northeast Harris County School District. He was resource officer for the district, dealing with security and safety education for elementary and junior high students.

His work in the Galena Park area was the only job of its kind in the United States, Scott pointed out. Kenner worked as liaison between students, faculty and parents.

Procedures Outlined For Phone Repair

Repair service of Centrex phones is available from General Telephone Company of the Southwest, announced Ed Morris, assistant manager of the housing office.

Morris said that students should call 9-4402 to report disruption of service and then call his office at 5-4741 to confirm his complaint.

Student complaints are supposed to be reported to the housing office by the telephone company, Morris said, but students must take the responsibility for having the complaint recorded by the housing office.

Repairs should be completed within 48 hours after the call, Morris said, but if not, students should recontact his office.

Whether or not a student will be reimbursed for the loss of phone service will be a matter between the student and the phone company, said Don Staff-

ford, assistant dean of student affairs.

Oceanography Head Named to Panel

Dr. Richard A. Geyer, head of the Oceanography Department, has been appointed a member of the Marine Council's Task Force for Efficient Utilization of Oceanographic Vessels.

Geyer said the task force will continue through April of next year.

The Marine Council is headed by Vice President Spiro Agnew.

Geyer's department currently operates a 180-foot oceanographic research vessel, the R/V Albatross, and will soon place a second ship in service. The A&M's Oceanography Department also is scheduled to receive two new research vessels in mid 1970s under a building program proposed by the Navy.

Former Students Elect President

James L. (Jim) Sewell of Dallas was elected president of 50,000-member Association of Former Students of Texas here Saturday.

Sewell, president of the Standard Lumber Co., will represent Ford D. Albritton Jr. of Houston Jan. 1.

Leslie L. (Les) Appelt, president of the Appelt, Robeau, Inc., a Houston industrial estate firm, was elected president-elect for 1970.

Approximately 200 members of the Association Council helped elect the new slate of officers during the annual fall meeting.

Six program vice presidents and six regional vice presidents were also elected.

Sewell, a 1927 mechanical engineering graduate of Texas and Butte A&M, is active in the oil, gas and lumber industries. He is a former president of community organizations for the association, a member of the Century Club, chairman of the Range Planning Committee and was a member of the association's Executive Board prior to 1968.

Appelt is a 1941 engineering graduate of A&M. He has served as vice president of public relations, is a member of the Century Club and is a donor to President's Endowed Scholarship fund at A&M.

ATTENTION ALL CLUBS

Athletic Hometown Professional and All Campus Organizations.
