AP's Grimsley Picks Michigan Over Ohio State

By Will Grimsley
 AP Special Correspondent
 NEW YORK (AP) — Michigan to bust the Ohio State bubble. Don't roll out the psychiatrist's couch.

The Ohio State Buckeyes are perhaps the greatest college football team ever assembled—deep in material, resourceful, quick, well-coached. They are 15½ point favorites.

Cotton Tickets May Be Bought

Cotton Bowl Athletic Association officials have issued a reminder that public sales of the association's quota of tickets to the New Year's Day classic has ended and that tickets must now be ordered through the two participating schools.

Notre Dame Monday ended a 44-year bowl ban and accepted the guest spot against either Texas or Arkansas, the schools that will meet in Fayetteville on December 6 to determine the Southwest Conference champion and host role for the Cotton Bowl game.

Tickets may be ordered from Don Bouffard, Ticket Manager, University of Notre Dame, Notre Dame, Ind. 46556. Tickets are \$7 each and each order should include a 60-cent handling charge.

The host school will announce its ticket sale opening at a later date.

Notre Dame will bring an impressive record into its clash with Arkansas or Texas, both ranked among the top four teams in the country. With a 7-1-1 record, the Irish boast the sixth most productive offense in the nation. Notre Dame has gained 452.8 yards per game and limited opposition to 217.6. Texas ranks fourth in the country in total offense with a 489-yard average and has allowed 224.6. Arkansas is second to Texas in Southwest Conference totals with 409.5 offensive and 267.1 defensive marks. Notre Dame is fourth nationally in total defense and Texas is seventh.

But it's still a game played by impressionable young men—flaming desire, home field advantage and complacency on the part of

the Buckeyes should produce one of the upsets of the decade. Last week's score: 42-14, .755. Season: 477-115, .765.

The week's predictions: Michigan 27, Ohio State 20: The Wolverines slow up Rex Kern and Jim Otis with a swarming de-

fense and control the ball the vicious stabs of Doughty and Billy Taylor.

Texas' Backfield Power Extends To Third Team

We all know that the Texas backfield of Street, Koy, Worster and Bertelsen is leading the nation in rushing yardage and that SMU's Chuck Hixson is the top passer in the country, but how many followers of the Southwest Conference can name the 63rd-leading rushing backfield in the country and the 27th-leading point producing backfield.

Hint: It wears orange and white, too.

Actually, it's something of a trick question because the backfield is really two backfields—Texas' second and third units.

According to statistics researched and released by National Collegiate Sports Services, Texas reserves have rushed for 1,273 of the Longhorns' 3,056 yards this year—more yards than have been gained by 55 of the nation's 118 major colleges.

Texas reserves have also scored 19 of the Steers' 43 rushing touchdowns, more than 91 of the country's 118 major teams have

totaled. That's how Texas' second and third teamers stack up against the rest of the country, but how do they stack up against the Texas first team backfield?

The reserves have authored 43 per cent of Texas' offensive plays this season and they've accounted for 41.6 per cent of the rushing total and 44.2 per cent of the scoring—putting themselves on an almost exact production par with the starters.

NCSS assistant director Jim Van Valkenburg says the Texas reserves' total is well ahead of any amassed by any other major college reserves in the country.

Six of the eight reserve backs who have carried the ball this season are averaging better than five yards a try and four average between six and 11 yards.

Leading ball carriers are sophomore quarterback Eddie Phillips of Mesquite and junior halfback Bobby Callison of Abilene with 235 yards each. Phillips is aver-

aging 6.4 yards on 37 carries and Callison 5.5 on 43.

Speaking of Callison after Texas' victory over Baylor two weeks ago Texas coach Darrell Royal said, "He's the best football player we've ever had to not be a starter."

Reminded that his 1961 team included All-America runner James Saxton, Jerry Cook and Tommy Ford at the same position, Royal stuck by his statement.

Things have progressed to such a point at Austin that a really ambitious offensive back may soon be setting his sights on making the second or third team—that's where half the action is.

Well, 43 per cent of it anyway.

UCLA 25, Southern Cal 19: Dennis Dummit is getting a slight edge over Clarence with other factors about.

Notre Dame 33, Air Force 19: The Irish, headed for the bowl in 45 years, should beppy and loose.

Dartmouth 21, Princeton 17: The Big Green puts the first touches on the Ivy League.

Oklahoma 27, Nebraska 10: Another 100-yard-plus day for Heisman Trophy candidate Steve Owens.

Duke 23, North Carolina 17: Leo Hart's passing will be mild upset in another teeth-rattler.

Stanford 28, California 17: Big Game brings a fitting climax to a fine season for the dians.

Southern Methodist 30, Texas Tech 13: Chuck Hixson and Garymond form a winning battle.

Yale 21, Harvard 18: This is that the Harvard Crimson duplicate last year's 29-29 tie.

Ole Miss Lineman Receives AP Vote

OXFORD, Miss. (AP) — "I just gave it all I had on every play," linebacker Freddie Brister of Mississippi said. "I had my mind on beating Tennessee and not how many tackles I got. We had to win."

Brister's concentration on his job — a key factor in Ole Miss' 38-0 victory over the third-ranked Vols — earned him National Lineman of the Week honors from The Associated Press.

"There were so many who gave

it everything they had and played so well against Tennessee, I wish the honor could have gone to the entire defensive team," he said after learning of his selection.

The 6-foot-2, 208-pound junior linebacker from Mecomb, Miss., was credited with nine tackles, six unassisted, a key fumble recovery and stopping Volunteer back Bobby Scott when Tennessee had a first down on the Ole Miss eight.

TIP-TOE THROUGH THE TACKLERS
 Aggie Strong Tackle Andy Philley leads quarterback Ed Self through the line in the first period of Saturday's test for a four yard gain. Philley and defensive player Van Odom were chosen to one poll's sophomore All-American List. (Photo by Mike Wright)

Venture: Purify water with the fiber that made men whistle.

Nylon. Reverse osmosis. A fiber that started making girls' legs more beautiful some 30 years ago. And a process that's been around a lot longer. But when Du Pont scientists and engineers look at them in a new way, they combine into an idea that can change the world.

Reverse osmosis is a purification process that requires no phase change. It's potentially the cheapest way to desalinate water.

Du Pont's innovation? Hollow, semipermeable nylon fibers much finer than human hair. Symmetrical, with an outer diameter of .002 inch and a wall thickness of .0005 inch, with an accuracy of manufacture maintained at close to 100%. Twenty-five to 30 million of them encased in a precisely engineered unit 14 inches in diameter by 7 feet long.

The result: a semipermeable surface area of about 85,000 square feet—the size of a 2-acre lot—and up to 10,000 gallons of desalted water per day.

So far "Permasep"® permeators have been used experimentally to purify brackish and polluted water, and in various industrial separations. But the potential to desalt seawater, too, is there.

So Du Pont scientists and engineers are even now working toward improved fibers, units and plant designs that should make it possible to get fresh water from salt at a price that any town or nation can afford.

Innovation—applying the known to discover the unknown, inventing new materials and putting them to work, using research and engineering to create the ideas and products of the future—this is the venture Du Pont people are now engaged in.

LORD JEFF

HAND WASHABLE

SWEATER SHIRT

Whether you call it a shirt or a sweater depends on the occasion. This full fashion collar shirt (sweater?) takes classification from the wearer. Either way it keeps you warm without weight. Pearly buttons and handsome heather tones are definitely Lord Jeff. And the knit is soft enough to wear next to your chest. Why don't you? **\$17.50**
