Ags Invade Ft. Worth For Frog Fight

By Richard Campbell Battalion Sports Editor

It took everything, including handcuffs, to finally derail the Texas Christian express Tuesday and the Texas Aggies invade Fort Worth Saturday night hoping to continue the jinx.

The Horned Frogs are currently tied for the Southwest Conference lead with the Rice Owls after Tuesday's run-in with the Texas Tech Red Raiders, which they lost, 75-60, amid much fisticuffs in Lubbock.

The Raiders were the first team to beat the Frogs since their first conference game when SMU did the trick. TCU had sandwiched six straight wins in between the losses and now have a 6-2 league showing.

A&M comes off one of its best shooting performances of the year Tuesday night as they gunned down a revamped Texas Longhorn squad, 79-71, in G. Rolie White. The victory also kept the Aggies on the edge of the SWC race, two games behind with six to play and a 4-4 league mark.

TCU defeated the Aggies last Saturday in College Station convincingly, 84-72, behind the inspired second half play of 6-8 pivotman Doug Boyd, who is currently leading the conference in rebounding and is TCU's top scorer. He got able assistance from 6-5 Norm Wintremeyer, who pumped in 21 points against the Aggies.

The Aggies will counter with the same starting five for the 7:30 p.m. tip-off. Pat Kavanagh will open at the point with Bill Cooksey and Mike Heitmann at the wings and Steve Niles and Chuck Smith at the post positions.

Fish, Wogs Tangle In Saturday Tilt

By Mike Wright Assistant Sports Editor

The Texas Aggie Fish, sporting a 6-1 record, travel to Fort Worth Saturday for a 5:30 rematch with the Texas Christian University Polywogs in Daniel-Meyer Coliseum. The Fish routed the Wogs here last Saturday 78-68.

Jeff Overhouse currently is the leading scorer and rebounder for the Fish with 119 points and 72 rebounds. Last Saturday, Overhouse hit 23 points and pulled in 11 rebounds.

Bob Gobin tallied 19 points in last week's victory over the Wogs and pulled in 12 rebounds. Wayne Howard poured in 10 points and grabbed 12 rebounds in the win. Guard Bill O'Brien poured in 14 points in the first Wog game and added a very good floor game in the contest.

On the season, Gobin has scored 83 points and hauled in 54 rebounds and has contributed numerous assists. O'Brien has canned 73 points. Howard has scored 67 points in the Freshman's seven games.

The Fish are averaging 64.6 points a contest and are holding the opposition to 44.7 tallies a game.

Coach Jim Culpepper will start Gobin and O'Brien at the guards, Overhouse at center, with Howard and Bryan Mezger at the forwards.

Norman Bacon was the leading scorer for the Wogs here last week with 17 points. John Hurdle added 12 points for the baby Frogs while Mark Stone contributed 10 points.

"TCU has a tough team and they really get after you," said Guard Gobin. The Wogs never led the Fish in the first game and were able to tie the contest only once at 13-13 for the entire evening.

Swimmers Up Season Record

Texas A&M's swimmers upped their season record to 7-3 Tuesday with a 66-27 dual meet victory over Rice. Coach Pat Patterson's squad won nine of 11 events.

If you don't like the way people talk to each other, we'll pay you to change it.

We're in the communications business. And during the next 30 years we're going to upgrade all the equipment we now have in order to provide even better service to our 6 million existing customers. As if that weren't enough we're also going to have to come up with enough new equipment to provide telephone service to about 26 million more people. As well as equipment for a much more extensive data communications program. We need enough people (electrical, civil, mechanical and industrial engineers, designers, accountants and economists) to plan, design, build and operate a company that will be four times bigger than we are today. We also need engineers, researchers and scientists to develop electronic switching equipment, laser and other communications systems we'll be using 10, 25 and 50 years from now. But this is only one part of our communications business. Our Sylvania people, for example, are involved in other types of communications. Like color television sets, satellite tracking stations and educational television systems. Automatic Electric, Lenkurt, Ultronic Systems and some of our other companies, subsidiaries and divisions are working on advanced types of integrated circuitry, electro-opticals and communications systems between people and computers and between computers and computers. So if you think you have something to say about the way people talk to each other... we're ready to listen.

MINISKIRT: Garden of Edenwise

Eve's wardrobe costs a little more these days—a factor that bears directly on every young husband's financial security. True, you may not be a young husband. Yet, statistically, however, the odds are heavily against the permanency of that condition. And it's smart to plan now—before the wife and family make the scene.

Here's one way. Invest in a life insurance program that can provide the foundation for a solid financial structure. Remember, the earlier you start, the less coverage costs, and the more security you'll have a chance to build.

So phone our office today. Or stop by and let's talk about it. In the meantime give a thought to the figleaf—and how comfortable it feels to be covered.
