with January graduates averaging \$1,187 a month with MS de-Aerospace engineering majors, who expected a tight market due to defense and space cutbacks, are receiving good offers from companies interested in mechani-

economy, Reese agreed, but there

are jobs available. Companies are

more selective than in the past

and students are interviewing

scheduled to recruit through the

Placement Office during the

spring semester, about the same

Placement Office recruiters are

mainly interested in science, en-

gineering, business and liberal

arts graduates, Reese said. The

number as last year.

Texas A&M has 270 companies

reported. Cutbacks in research released Ph.D.'s for university teaching, he observed, making the recentlyacquired degree holders search

cal engineers in the past, Reese

hard for teaching positions. Reese pointed out new engineers are finding it easier to find employment than experienced engineers released from high salary positions. The new engineer, Reese said, can be hired at less cost and not force a company to change its internal promotion

"We are finding too, that com-

a decision in two weeks to a month," Reese stated.

In past years, students would sometimes wait several months after an offer was made to accept or reject the offer.

Salary offers compiled by the Placement Office in early January are a good indication of present salary trends. The major, number of offers and average starting monthly salary are as

Accounting, 14BBA, \$804; finance, 1BBA, \$700; management, 2BBA, \$750; marketing, 10 BBA, \$725; math, 2 BA, \$817; statistics, 2 MS, \$1,187; physics, 2 BS, \$848; geophysics, 1 MS, \$975; industrial technology, 15 BS, \$716; aerospace engineering, 1 BS, \$845; chemical engineering, 6 BS, \$893.

Also, civil engineering, 7 BS, \$850; electrical engineering, 1 MS and 3 BS, \$925 and \$910; industrial engineering, 1 BS, \$922; mechanical engineering, 43 BS, \$875, and petroleum engineering, 2 BS, \$910.

Assistant Dean of Architecture James Foster advised building has declined in the Southwest, and Houston offices are releasing architects.

Most architecture student must hit the pavement and sell themselves to a firm, Foster explained. At the present time there is little on-campus recruiting, however, plans are being developed to bring recruiters to the students.

The College of Education has "quite a selection" of teaching positions, according to Mrs. Melverne Ozment, recruiting coordi-

Education graduates and undergraduates are still evaluating the selections and have not committed themselves, she said. A majority of the jobs are outside large cities, she noted.

"They may not get a job where they want to go, but the jobs are

requesting the student to make expects the 60 undergraduates hit, experiencing a drop of 24 and 40 graduates to be hired by May or June. An additional 32 graduate students have already

made commitments. Dr. Richard C. Potts, associate dean of agriculture, observed, "We have as much demand as in the past three years."

Dr. Potts said agriculture majors, at the present time, have few problems finding jobs in their

The job market is tighter nationally.

Compared to a year ago, the College Placement Council's salary survey reveals a drop in volume of 16 per cent at the bachelor's level, 26 per cent at at the Ph.D. level.

panies are making offers and open," Mrs. Ozment said. She cal candidates are the hardest per cent over last March.

This substantial decrease is due in large part to reductions in activity in the aerospace industry, historically the employer group making the most offers. A year ago, the College Placement Council explained, there were 2,284 aerospace offers. This year the number is down to 962.

Other major employer groups showing a decline in technical volume are chemicals, electrical machinery and electronics.

In terms of dollar values, averaging starting salaries at the bachelor's level continue to rise in the face of reduced employer activity. Offers to technical canthe master's level and 14 per cent didates have gone up 5.1 per cent since June-from \$819 to \$861. A&M is one of the 141 partici- Offers to non-techincal students pating institutions in the survey. have risen 7.6 per cent for the At the bachelor's level, technicomparable period, from \$711 to

The decline in recruiting activity is even more apparent at the master's level. In three years the volume has decreased 40 per cent since March, 1967, and volume for the nine technical programs covered in the salary survey has declined 60 per cent in the same period.

In terms of dollar value of beginning salary offers, MBAs had been at the top in percentage increased the last several years, with gains of better than nine per cent a year. This year, however, the increase is only four per cent since June.

Recruiting activity at the Ph.D. level, which appeared relatively strong in the fall, has also dropped to the lowest point since March. 1967.

A final report from College Placement Council will be releas-

Math Prof to Present **Grad Lecture Monday** 

Dr. Bernard Madison, Louisi ana State University mathematics professor, will present a graduate lecture here Monday.

The presentation, entitled "Intrinsic Boundaries for Topological Spaces," will be held at 4 p.m. in Room 205 Academic.

Madison earned his undergraduate degree at Western Kentucky University and master's and Ph.D. at the University of Kentucky.

Church to Hear Singing Cadets

A&M Singing Cadets will present "Sermon In Song" at 6:30 p.m. Sunday at the First Baptist Church of College Station. John Roby, publicity manager

of the cadets, said that the program will include contemporary as well as traditional sacred "Hallelujah Chorus", "Amen",

and "O Happy Day" are some of the hymns that will be sung by the group, Roby said. Singing Cadets are directed by

Richard Boone.

McCrory to be Panelist At PR Conference

Dorsey McCrory, university development director, will be a panelist for a "New Ideas in Big Donor Clubs" program at the Southwest district meeting March 23-25 of the American College Public Relations Association in Hot Springs, Ark.

McCrory will describe A&M's new President's Endowed Scholarship Program.

Also attending the conference will be Lane Stephenson, associate director of university information.

Rehabilitation Center Treating 822

A total of 822 crippled persons received more than 10,000 treatments at the Brazos Valley Rehabilitation Center during 1969. according to Travis Engelbrecht, president of the Brazos County Easter Seal Society.

The center is the local Easter Seal treatment center.

In 1969, more than \$7,500 was raised in Brazos County. During the year \$7,738 was spent in the county by the state and local societies for braces, crutches, free orthopedic evaluation, transportation and treatment.

Engelbrecht said that the annual report of the Texas Easter Seal Society for Crippled Children and Adults, of which the Brazos County Easter Seal Society is an affiliate, shows that last year Easter Seal services were provided statewide for more than 20,000 handicapped Texans.

He said that programs in operation across Texas include treatment and rehabilitation centers, sheltered workshops, and recreation and education programs.

He added that through these programs, persons with a wide variety of handicaps receive the help they need to lead normal lives.

"I want to thank the people of Brazos County for their support during 1969," Engelbrecht said, "and encourage them to again contribute to the programs of the Easter Seal Society.'

#### Chemical Engineering Lecture Set Friday

A chemical engineering lecture will be given Friday by Dr. Robert Byron Bird, world acclaimed chemical engineer and educator who will be visiting his former home for the first time since early

The University of Wisconsin Chemical Engineering Department chairman is the son of Col. Byron Bird.

#### **Debators Take Honors** In Mississippi Contest

Two A&M debators took honors at the Magnolia Forensics Festival in Columbus, Miss., last

The A&M team composed of Robert Peavey and Scott Scherer took third place in the tournament. The team also won awards for excellence in speaking and

Peavey won excellence awards in extemporaneous speaking and oratory.

He is captain of the team and president of the Texas A&M University Forensics Association. Scherer is treasurer for the as-

Team coach and sponsor is Robert Leitz, instructor in the English department.

The team will be participating in the Southwest Conference Tournament April 4 and 5 at SMU and in the New York State Tourney April 8, 9, and 10.
