

Ags Split But Horns Win SWC

By Clifford Broyles
Battalion Sports Writer

AUSTIN—The Texas Aggies solved James Street Thursday but they could not figure out Texas' All-American Burt Hooten as they split a Southwest Conference doubleheader with the Long-

horns that gave Texas the 1970 title.

The Aggies knocked out Street in the sixth inning of the opener for a 7-5 win but Hooten tossed the Horns to an 8-0 win in the second game.

Today's single game scheduled

for 2 p.m. will mean nothing but prestige and pride to the Aggies, who needed to sweep the series.

The opener matched the Aggies' Doug Rau against Street, two pitchers who sported the most gaudy records in the conference. Both had problems as their control faltered for one of the few times this year.

Rau, who won his ninth game of the year against a single loss, walked five men in the five innings that he worked. Before the game, he had issued only 15 walks in 68 innings.

Street walked four in five and one-third innings after only 15 walks in 52 innings.

Butch Ghutzman was the Aggies' offensive star in the opener as he batted four times and reached base on two singles, a walk and a fielder's choice. He scored each time.

OH HAPPY DAY—FOR AWHILE—Center fielder Dave Elmendorf is met after the first game by teammates David Van Houten (left), Larry Smith (number 18), and Chris San in the back. The Aggies dropped the second game 8-0 to Burt Hooten on a nifty four hitter. (Photo by Mike Wright)

His leadoff single helped get A&M on the scoreboard first. R. J. Englert sacrificed him to second and Billy Hodge's single drove in the run.

Texas took the lead in the second inning as Tommy Harmon singled to right and Rau walked David Hall and Jack Miller to lead the bases with none out.

John Langerhans and Pat Amos knocked in runs with successive singles as Texas moved in front, 2-1.

A&M came back in the top of the third as Rau and Ghutzman walked and Englert sacrificed for the second time. Dave Elmendorf's double to left scored both runners as A&M regained the lead, 3-2.

Another leadoff walk to Rau led to A&M's fourth run. Ghutzman singled, moving him to sec-

ond, and Elmendorf was safe on an error to load the bases and Boyd Hadaway was walked forcing in the run.

Rau got into another jam in the bottom of the inning by walking Lou Bagwell and David Chalk before Harmon hit a line drive home run to right to give Texas the lead, 5-4.

Singles by Danny Ragland and Jim Sampson ignited the winning spurt in the sixth for A&M. Larry Hardy relieved Street after Sampson's hit with one out.

Ronnie LaGrone, pinch-running for Sampson, beat Amos' throw to second when he hesitated whether to throw to second or first. Ragland, who was on second, kept running and scored on the play.

Elmendorf's single scored LaGrone, who would have been out had he not knocked the ball loose from Harmon in a collision at home. Hardy then issued consecutive walks to Hodge and Hadaway to force in another run.

Charles Kelly relieved Rau in the sixth and shut out the Longhorns the last two innings to gain his fourth save of the year.

But the second game was too much Texas muscle and Burt Hooten as the Longhorns won, 8-0, banging out 11 hits off four Aggie pitchers.

Texas scored twice in the first as Bagwell doubled in Mike Markl, who had singled. Harmon's single knocked in the second run.

Langerhans' eighth home run of the year gave the Longhorns two more runs in the fourth and then they wrapped it up with four runs in the fifth.

Harmon's triple with the bases loaded was the big blow in that inning and Miller's single scored Harmon with the final run.

Harmon, a junior catcher from Fort Worth, slammed five hits to pace the Longhorns. He knocked in seven runs with a homer and a triple being the big blows.

Hooten allowed only two hits and one walk until Englert doubled and Elmendorf singled in the ninth. He struck out eight and 15 of the other 19 outs were ground balls hit to the infield.

Pat Jamison reliever loser Dave Benesh in the fifth and Paul Czerwinski and Rocky Self stopped Texas for the final three innings.

MONDAY EVENING SPECIAL

BEEF STEW WITH GARDEN FRESH VEGETABLES in Casserole
Choice of Green Vegetable
Rolls - Butter
Tea or Coffee
and
Choice of Mom's Pie or Cake
\$0.99

TUESDAY EVENING SPECIAL

BAKED MEAT LOAF WITH TOMATO SAUCE
Rolls - Butter
Tea or Coffee
and
Choice of any two vegetables
\$0.99

WEDNESDAY EVENING SPECIAL

CHICKEN FRIED STEAK WITH CREAM GRAVY
Rolls - Butter
Tea or Coffee
and
Choice of any two vegetables
\$0.99

THURSDAY EVENING SPECIAL

ITALIAN CANDLELIGHT DINNER
ITALIAN SPAGHETTI Served with Spiced Meat Balls & Sauce
Parmesan Cheese
Tossed Green Salad
Choice of Salad Dressing
Hot Garlic Bread
Tea or Coffee
\$0.99

FRIDAY EVENING SPECIAL

AN IMPORTANT SEMINAR ON

MIND CONTROL

AND "ALPHA DYNAMICS"

FOR EVERYONE INTERESTED IN DEVELOPING MENTAL POWER...

Mark Luther
Lecturer

On April 2nd, NBC Television carried a Science News Special—"The Unexplained," narrated by Rod Serling—in which one of the most fantastic breakthroughs in modern psychology was discussed. This new science deals with the conscious control of brain waves—the electrochemical activity of the brain. This new science is called Alphagenics and concerns itself with the Alpha Rhythms of the brain. Dr. Joseph Kamiya, researcher at the University of California, demonstrated on national TV how students can learn to control their brain waves and discussed some of the phenomenal capabilities of man with self-control of his brain waves.

There are four principal brainwave rhythms: the Beta-wave, associated with the outer conscious levels, tension, anxiety, physical activity, etc; the Alpha-wave, associated with inner-levels of mental activity, tranquility, inspiration, creativity, E.S.P., healing processes, memory, learning, day-dreaming, and other phenomena; Theta-waves, which is related to deeper inner meditation, mental control of pain, and finally the Delta-waves, which are found in deep sleep or total unconsciousness.

Exploration of this almost unknown continent—the human brain—has been pioneered by a soft-spoken parapsychologist, Jose Silva, of the Institute of Psychorientology, of Laredo, Texas. This sincere, dedicated scientist has been training people to control their brain waves for many years.

Twenty-five years ago Silva and his associates began their research in Mind Control, to see if it was possible to increase a persons I.Q. factor. Amazingly, Silva discovered that not only could I.Q. be increased but a person trained in this technique could even control certain areas of the Autonomic Systems, heart beat, respiration, body temperature, etc. The implications of this breakthrough with regards to health and disease was staggering. With Mind Control, it was found that a person could banish pain, accelerate healing, eliminate insomnia, migraine headaches, as well as untold psychosomatic problems.

As research continued, an amazing discovery was made. Volunteer students were found to be surprisingly sensitive to the feelings and emotional attitudes of others. In other words they became more intuitive. In-depth studies revealed that anyone with a normal brain and sufficient training could develop so-called E.S.P. and clairvoyance. Alpha Brain Wave Control actually enables anyone to become a superior human being.

ALPHA BRAIN WAVE CONTROL—Three years ago, the directors of the Institute of Psychorientology, decided they were ready to release their findings to the general public, and offer the M. C. Training Program to everyone interested in developing a better mind.

10,000 GRADUATES—COAST TO COAST—Now there is no longer any doubt as to the great value of this astounding method of self-improvement. Techniques had been improved and refined to the point that only a few hours of classroom instruction were all that was required to train a truly effective person.

LEARN SPECIFIC TECHNIQUES—Once you have mastered Alpha Wave Control you can totally relax anytime you desire; banish insomnia, anxiety, tension, have greater artistic ability, eliminate pain; enhance your learning capacity; have more vitality and energy; be more successful in your business and personal life; eliminate bad habits, create good habits; control your weight, smoking, etc.; improve your self-confidence and assurance, and become truly happy; learn techniques to help your loved ones in a dramatic and effective way regardless of their problems; be a better student, parent, employee, or boss; become a truly effective problem solver; and much, much more.

SILVA METHOD OF MIND CONTROL—Alpha brain wave control literally opens the door to the "Promise Land"—the kingdom within. Through simple, easily learned techniques you can have your heart's desires, be the person you want to be.

RESULTS GUARANTEED
It sounds almost too good to be true, yet the facts are that with Silva Mind Control "Almost Nothing is Too Good To Be True." Learn how to use the key that unlocks the door to your inner-conscious mind and release the abundant wealth, power, and possibilities within.

DATE: MONDAY, MAY 11
TIME: 7:30 p.m.

PLACE: MEMORIAL STUDENT CENTER
TUITION: \$3.00, STUDENTS \$1.00

PSYCHOLOGIST—"When we have learned to live and practice the principals of Mind Control, continuously in our homes, schools, churches, businesses and our politico-social structures, what limit can one put on what we can do for our world?"

SALESMAN—"The first month after mind control my sales increased by 75%. I attribute my continued business and personal success to this course."

BUSINESSMAN—"I quit smoking after my first 12 hours of Mind Control instruction—it's amazing."—G.P.K., Montgomery, Alabama.

HIGH SCHOOL COACH—"Mind Control has been most effective in my work with young people, especially in the areas of motivation and problem solving."—Mrs. F. Atlanta, Ga.

FARMER—"After thirty years of insomnia—it's gone. Through Mind Control I did what no pill or prescription had ever done."—J.R., Chicago, Ill.

MINISTER—"Learning to use 10 minutes at Alpha, to take the place of 4 1/2 hours normal sleep, has been invaluable to me."—R.S., Wichita, Kansas.

HOUSEWIFE—"Had I learned Mind Control when I was 14 years old, I would have never suffered 50 years of torture with migraine headaches. I now have time for my family, teaching, painting. My gratitude knows no bounds."—Mrs. F., Atlanta, Ga.

COLLEGE STUDENT—"Mind Control has enabled me to concentrate better, solve problems and have more retentive memory."—L.M., Wichita, Kansas.

HOUSEWIFE—"I lost 32 pounds by using the Silva Mind Control Method."—R.S., Oklahoma City, Okla.

RADIO ANNOUNCER—"Mind Control changed our family life completely, from a negative outlook we are now radiating the positive. The subjective training is most rewarding, only everyone knew about Mind Control would be tremendous."—J.B., Dallas, Texas.
