

# Chamber thinks census low, urges uncounted to call

The 1970 preliminary census count was a major topic of discussion at the regular weekly meeting of the Bryan-College Station Chamber of Commerce Executive Committee. It was unanimously agreed that a major effort should be made to see that all persons in Bryan-College Station were counted in the census.

Meeting with the Executive Committee was Mayor Jerome Zubik, Mayor D. A. Anderson, City Manager Ran Boswell, and City Manager Fred Sandlin.

Anyone who thinks they were not counted in the census is urged to leave their name and address with the Bryan-College Station Chamber of Commerce office (Phone: 822-3721), so that a follow-up can be made to be sure

everyone was counted. Do not send your census form but keep it; all we need is your name and address at the current time.

If you have previously left your name and address with the Chamber or with the news media, it will not be necessary to call again. According to the preliminary count, Bryan-College Station has a combined population of 49,772. The preliminary count for College Station is 17,283 and for Bryan, 32,489. This total is 228 people short of the 50,000 count which is one of the necessary criterion for receiving a metropolitan area designation. It is important to all segments of our community that we have this metropolitan area designation and all citizens are urged to cooperate in this community effort.
