

# A&M scientists to attend meet

A meeting of the National Academy of Sciences' Panel on Biological and Medical Sciences will be conducted on campus today through Friday, involving top officials of the Academy and National Science Foundation.

It will be the first meeting of the Committee on Polar Research panel outside of Washington, D. C.

The precedent-breaking move is in recognition of Texas A&M's activities in Antarctic investigations.

Thirty guests for the Biological and Medical Sciences Panel meeting will include Dr. Thomas O. Jones, deputy assistant director of National Science Foundation national and international programs; Dr. Louis O. Quam, acting head of the NSF Office of Polar Programs, and Antarctic investigators of several U. S. universities and institutions, including A&M.

Academic Vice President Dr. Horace R. Byers, National Academy of Sciences member, and Dr. John C. Calhoun, geosciences dean, head A&M scientists who will participate.

Arrangements are being made by the Oceanography Department, headed by Dr. Richard A. Geyer, and Dr. Sayed Z. El-Sayed, A&M oceanographer who has been active in Antarctic primary productivity research.

"The purpose of the meeting is to probe for new ideas and new directions in polar marine research," explained El-Sayed, who will chair one of the panel sessions.

The panel of which he is a member is chaired by Dr. W. S. Benninghoff of the University of Michigan. Its secretary is Dr. Herbert G. Shepler, National Academy/National Research Council.

"Emphasis of the meeting will not be so much on what we already know about the polar regions, as to 'where do we go from here?'" El-Sayed explained.

Based on recommendations of invited speakers, the panel will prepare a report to NSF clearly defining future U. S. research involvement in the polar regions. The report also will be distributed to other government agencies.

The committee will meet in executive session Wednesday afternoon, with Benninghoff as chairman. Among other items, El-Sayed will report on plans for the Ross Ice Shelf Drilling Project.

All other sessions will be open to students, faculty and the public, El-Sayed said.

He will chair the Thursday morning session, at which Dr. Byers will welcome participants. Dr. Calhoun will describe A&M's activities in the polar regions. Presentations also will be made by Geyer, El-Sayed, Drs. Guy A. Franceschini, Luis Capurro, William Sackett, Tai Soo Park, Nestor Bottino and Lela Jeffrey of the A&M department.

A&M activities in polar research during the last nine years has included 21 projects totaling almost \$1 million in NSF support. Research has been in physical and chemical oceanography, primary productivity, marine geochemistry, zooplankton, air-sea interactions and biochemistry of marine organisms.

# Funeral Services

## Mrs. Heaton

Funeral services for Mrs. Bessie Blanton Heaton, wife of admissions and records Dean H. Lloyd Heaton, will be held at 3 p.m. today in Bryan.

Mrs. Heaton, 63, died Monday night in her home from an apparent heart attack.

The Rev. H. Bailey Stone will officiate at the Bryan First Baptist Church services. Burial will follow in the College Station City Cemetery, under the direction of Callaway-Jones Funeral Home.

Mrs. Heaton was born May 4, 1907, in Beckville. She had lived in College Station since 1933.

Survivors include the husband; one son, Dr. Charles L. Heaton of Philadelphia, Pa.; daughter, Miss Kathleen Heaton of Bryan, and two sisters, Mrs. Lonnie B. Harmon and Miss Grace Sharp, both of Beckville.

## Mrs. Shepardson

Funeral services for Mrs. Charles N. Shepardson, wife of the former agriculture dean, will be held today in Washington, D. C., and Thursday in Fort Collins, Colo.

The 2 p.m. Washington services will be at Joseph Gawlers and Son Mortuary.

Services also will be at 2 p.m. Thursday in Goodrich Mortuary Chapel in Fort Collins, with burial to follow in Grandview Cemetery in that city. She died Monday in Washington.

Mrs. Shepardson, 86, had been in ill health several years. They had no children.

# Class to rebuild fire trucks

Fire truck pumpers from Taylor, Granite Shoals and Pear Ridge will be rebuilt to meet the state acceptance test during the 41st annual Texas Firemen's Training School July 19-24 on campus.

Henry D. Smith, firemen training chief, noted the three pumpers will be rebuilt by an 80-man pump maintenance class. Instructors for the course, one of 14 offered during the one-week municipal school, will be fire department master mechanics and technical representatives from manufacturing firms.

Taylor and Granite Shoals are located near Austin and Pear Ridge is a suburb of Port Arthur.

"All repair parts and ma-

terials are purchased by the cities," Smith explained, "with labor furnished by the class."

Smith said the student firemen also will work with about \$10,000 worth of new pumps donated by manufacturers.

Purpose of the class is to give community firemen the training to do maintenance work themselves, saving the local department labor costs, Smith pointed out.

"Cities in Texas spend millions of dollars each year for new equipment and repair of old equipment. We'll show the men how to do their own maintenance and more importantly, proper preventive maintenance," Smith added. "It's a vital part of any fire department."

Approximately 2,600 firemen are expected to attend one of three one-week courses offered July 19 through Aug. 7. The municipal school is followed by an industrial school. The final session is for Spanish-speaking countries only.

Smith expects representation from 600 cities, 40 states and 20 foreign countries.

# The Church.. For a Fuller Life.. For You..

## yours is the hand that lights your child's face

We've heard so much about the effects of insecurity on the life of a child! It seems urgent to find a picture of security... that elusive ideal that parents want to provide but can never be sure they have.

Notice the importance of the light in our picture. It doesn't really come from that fatherly hand. Someone else has provided the light which links father and son. The father merely stood in that light... and held his son's hand!

Sunday — Father's Day — in hundreds of thousands of churches, earnest fathers will stand in the Light. With their sons they'll worship God... experience again the spiritual understanding of life. See the brightness of that true security reflected in youthful eyes.

Cooking COOL! An All New Era in Meal Preparation TODAY!

Amana Radarange MICROWAVE OVEN

- \* Portable
- \* 115 volt operation
- \* no expensive installation

Cook a 5 lb. Roast in 37 Minutes...Hamburger (on the Bun) in 1! No Stifling Heat, No Pots or Pans to Clean... Portable! And Completely Automatic!

SAVES TIME by cooking foods inside and out at the same time — FOODS TASTE BETTER because there's less drying and less loss of natural juices than you get with conventional dry heat methods of cooking. COOKS COOL with micro (radio-like) waves that create heat in the food — doesn't waste heat on space in or out of the range or on utensils. EASY TO CLEAN because splatters and spills can't bake on — oven surface never gets "baking" hot. EASY TO USE set the dial, touch the START switch and cooking begins immediately.

An Amana EXCLUSIVE

Radarange TOTAL APPLIANCE WARRANTY

Amana warrants for 2 years from date of original purchase for home use only in U. S. free replacement or repair, including related labor, of parts found defective as to workmanship or material under normal use, and returned through Amana's dealer-distributor organization. Owner is responsible for local cartage, replacement of gas, rubber or plastic parts, light bulbs, and accessories. Any product subjected to accident, misuse (operation while oven is empty, operated with metal utensils in the oven), negligence, abuse, detachment of serial plate or alteration shall void the warranty. If the Service Seal is broken by other than an authorized Amana service the warranty is void.

In Canada, the warranty applies as above except that it does not cover taxes, duties, assessments levied at time of part export.
