

Grove Theater to end activities

Grove Theater presentations of the Memorial Student Center end summer activities this week with several top films, chairman Richard McHenry announced.

Features will be shown beginning at 8:15 p.m. each day through Wednesday. Examinations covering students' second summer session work begin Thursday.

"Days of Thrills and Laughter" starring Douglas Fairbanks is scheduled for the Grove screen Saturday.

Council moves office here

The Mid America Governors' Transportation Council has moved its executive offices from Oklahoma City to College Station, announced Gen. John P. Doyle, council chairman.

Gen. Doyle, who holds the MacDonald Chair of Transportation at Texas, said the move was prompted by the appointment of Hoy A. Richards as the council's acting director.

Richards, research economist at Texas Transportation Institute, succeeds John Bennett who returned to his former position

with the Oklahoma Industrial Development Department.

The five-year-old organization represents Arkansas, Colorado, Iowa, Kansas, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota and Texas.

General Doyle said the council was formed to improve the workings of transportation in the economic development of the 11-state region.

Special attention, he noted, is given to transportation rate relationships between mid America and other parts of the coun-

try. Other areas of concern include a shortage of rail and transportation in some sections of the region.

General Doyle is a chairman of the council. He is named the Texas representative by former Gov. John Connally and reappointed last year by Gov. Preston Smith. Richards is the council's at-large representative.

The first message transmitted by telegraph between Baltimore and Washington on May 24, 1844, was: "What hath God wrought."

Department receives grant

A scholarship grant by the Farmers Mutual Protective Association of Texas to the Modern Languages Department has been announced by Dr. Jack A. Dabbs, head.

The Temple-headquartered association will provide \$100 a year for the next four years, Farmers Mutual President Jerry E. Valchar said.

Dabbs indicated the award will be used in support of students

studying the Czech language or culture.

A&M has attracted wide support of Czech organizations for scholarships in the language, which was designated a critical tongue by the U. S. Office of Education. The department head said seven organizations have organized scholarship support.

Czech is the third most common language used in Texas, following Spanish. The state's pop-

ulation includes a half million Czechs, most of whom have retained their native language.

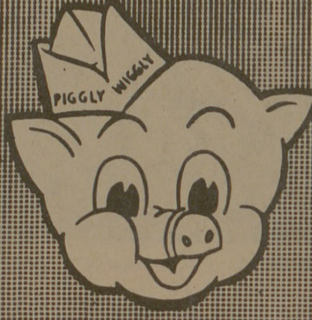

The Modern Languages Department instructs more students in Czech than any other institution in the U. S. and has made outstanding efforts to preserve the state's Czech linguistic and cultural heritage.

The modern game of tennis was developed in England in 1874.
