

\$80 million in construction begun

A massive \$80 million building program on the campus is changing the skyline of the state's oldest public university.

A&M currently has \$55 million worth of construction under contract and will spend an estimated \$25 million on projects now in design stages, according to J. O. Adams, director of facility planning and construction.

Contracts have been awarded on the first campus high-rise

buildings — a 15-story oceanography-meteorology building, 11-floor continuing education tower and eight-story classroom-office building.

Also under construction are the engineering center, 1,000-student dormitory, auditorium with the continuing education tower, educational television station, Chemistry Building addition, central utilities expansion, water-sewer additions and a number of con-

tracts for agricultural additions and building renovations.

Dr. Charles Pinnell, director of planning and analytical studies, is developing an eight-year master plan for the university. He estimates a need for "considerable construction" in addition to the current program.

Dr. Pinnell projected A&M enrollment at 21,600 by the fall of 1978. The master plan will be

reviewed by the Board of Directors in April, he said.

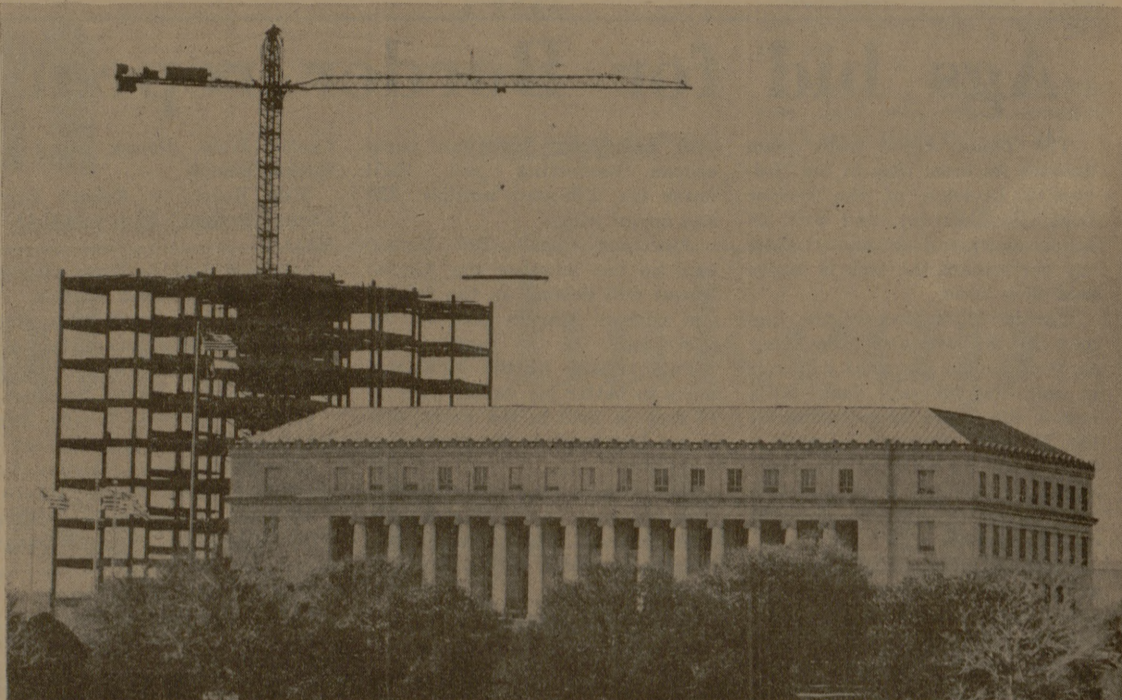

In addition to the on-campus building program, \$2 million is currently being spent for development of the Mitchell Campus in Galveston. A dormitory-dining hall is in design for the Texas Maritime Academy at the Mitchell Campus.

Adams said on-campus projects in the design phase include a health center, athletic dormitory, classroom building, Memorial Student Center expansion, utilities expansion, Easterwood Airport resurfacing, Sbis Dining Hall renovation and a forestry field laboratory.

Adams pointed out the construction is "several times as large as any program we have had in the past." He said most of the buildings will be completed within five years.

Campus construction valued at \$2.5 million was completed during 1970.

"We're building at an extremely high rate at the moment compared to other state schools, with the exception of the University of Texas," Adams said.

THE FIRST HIGH-RISE climbs above the campus skyline as workmen work on the 10th floor of the 15-story oceanography-meteorology building. Two other multi-story buildings are currently under contract with construction to begin soon.

Playboy manager to address conference

Playboy Magazine's public affairs manager, Anson Mount, will speak to 200 students and faculty advisors attending a journalism conference March 19 here, program chairman William C. Harrison announced.

Mount is a spokesman on Playboy's philosophy and new morality, religion and sexual revolution.

Other speakers for the 41st annual Southwestern Journalism Congress and Student Press Club meeting are Apollo 13 Astronaut Fred W. Haise Jr., Associated Press Science Editor Alton L. Blakeslee, Houston attorney Percy Foreman, NASA public affairs

officer Brian Duff and Jim Thompson of Taylor Publishing Co.

Student journalists and advisors from 15 colleges in Texas, Oklahoma, Arkansas and Louisiana will attend the one-day meeting.

Asst. Prof. Harrison said the convention purpose is to study campus press problems.

Mount handles the Playboy dialogue with clergy and works with the Editorial Department in soliciting and editing the magazine's frequent articles on religion and theology.

The Playboy "veteran" has developed the Playboy College Bureau and edited the Playboy Forum. He is acknowledged as a leading expert on college football.

As the author of Playboy's annual "Pigskin Preview," his 1966, 1967 and 1968 pre-season predictions proved the most accurate of any featured in a national magazine.

Mount resides in suburban Mt. Prospect, Ill., with his wife and three children. He is currently writing books for Harper & Row on the subjects of religion and sexual morality.

The Church.. For a Fuller Life.. For You..

THE HOPELESS FOUR

They were the best act at the annual amateur night of the Church Youth Group. The audience loved them—not only their parents and their friends' parents, but all the other folks, too.

More important is what it did for the boys themselves. Learning to work together, enjoying every minute of rehearsal, perfecting talents they hardly knew they had . . . and doing it all as part of the youth program of their church.

But don't miss the "dig" they gave the rest of us when they named their group. Too many youngsters today have the impression that we consider theirs a hopeless generation.

The truth of the matter is that most of American youth belongs to the finest generation our country has yet raised. While you and I are reading and hearing about the "wild" minority, our churches are working quietly and effectively to mold the faith and character of tomorrow's citizens.

BRYAN BUILDING & LOAN ASSOCIATION

Building closes 2 more lots, over 150 slots

Two campus parking lots will be closed beginning Monday for construction purposes, University Police Chief Ed Powell said Thursday.

Powell explained lot 11, next to the Academic Building, and lot 51, the dirt lot on the east side of Bagley Hall, will be closed to allow construction of a new

building. One-hundred fifty to 200 parking spaces will be lost, the chief said.

Those affected by the closing may park in lot 50, east of the new engineering center, or at random areas on streets, Powell said.

He also said 63 parking spaces will be taken from lot 8, day student parking around the Cyclo-

tron Building, and placed in adjoining lot 7, staff parking.

Those losing a parking space may park in lot 50 or 49, adjoining Kyle Field, or park in any other day student parking Powell said.

He said lot 11 will not be reopened because a building will occupy the space.
