SPEED READING

The American Speed Reading Academy's famous speed reading course will be taught in Bryan this summer.

This widely acclaimed course guarantees its graduates will read at least three times faster with a definite increase in comprehension.

The average student can:
Read 7 to 12 times faster with better comprehension
Read at 1,000 to 3,000 words a minute instead of 300
Read the average novel in 45 minutes and understand it
Really enjoy reading more than he ever thought possible
Increase his comprehension and learn to concentrate
Learn how to study better and how to prepare for tests
Reduce eye strain, fatigue in reading, and boredom.
Prepare for the ever-increasing reading load in school.

If you would like to learn more about this course, or want to enroll, then come to one of the FREE orientation lectures that we have scheduled. A person may attend one of these free orientations without any obligation to enroll in the course. At these meetings the course will be explained in detail including the class schedules, and the special introductory tuition that will be offered, THIS TIME ONLY, to the residents of this area.

This course WILL NOT interfere with summer activities. All meetings are open to the public, and will be conducted as follows:

Lone Star Gas Co.
201 East 27th

Date: Tuesday, July 20
Time: 6:30 and 8:00 P.M.

Remedial writing clinic signup ends Monday

Registrations will be taken until Monday for the 10th Remedial Writing Clinic conducted through the Continuing Education Office. The clinic improves correctness and effectiveness of participants' writing through use of special self-improvement methods.

Clinic sessions will meet Mondays and Wednesdays for 2 1/2 hours July 19 to Aug. 4.

Registration at the Continuing Education Office in the Memorial Student Center is limited to individuals 16 years of age or older whose first-learned language was English. Participants can but need not be attending school, college or university.

Meeting set for fall freshmen here

Students attending Texas A&M University's second summer session classes who will be freshmen here this fall will meet in a special conference July 27-30.

The conference will be in lieu of regular summer conferences attended by students from off-campus who will be freshmen this fall.

Second session freshmen should register for the July conference at the Counseling and Testing Center before July 26, announced S. Austin Kerley, center director.

The conferences enable new students to complete fall semester registration and other matters related to fall classes.

Bryan Kiwanis officers elected

H. Ray Smith was chosen Friday to head the Bryan Kiwanis Club for 1971-72 year.

Other new officers elected include: Dr. Gerald Bratton, first vice president; Dr. James H. Johnson, second vice president; Eddie McSwain, secretary, and John Bishop, treasurer.

Three new board members, Robert H. Place, Henry A. Roberts, and Sol Klein will join existing board members Dr. Attilio Girola, Rollie Burr, Alton Risinger, and immediate past president Keith Langford to complete the club's official family for the new year. The new officers will be installed in September.

UT-Dallas dean A&M graduate

The first dean of faculties at the newly created University of Texas at Dallas is a Texas A&M graduate.

Dr. Lee H. Smith, who was selected for the UT-D position over the weekend, holds two degrees from Texas A&M. He earned a B.S. in mathematics here in 1957 and Ph.D. in statistics in 1961.

Smith currently heads the Department of Quantitative Management at the University of Houston.

'34 A&M grad dies in Houston

Archie W. Baucum, 1934 A&M graduate who was executive vice president of Texaco Inc., died recently in Houston.

Baucum died of a heart attack a week following announcement of his resignation from Texaco due to ill health. The resignation was to be effective Aug. 1.

A petroleum production engineering major and cadet officer in Company C Engineers at Texas A&M, Baucum joined Texaco as a roustabout after graduation and worked his way up to production and managerial positions in Texas, Oklahoma and New York.

Yale historian to lecture Sunday

Yale University historian Dr. Archibald Hanna Jr. will give a public lecture Sunday at the university library.

Hanna will speak on "The Building of a Research Collection: Adventures with Collectors and

Booksellers." The public-free lecture will be at 3 p.m. in the library conference suite, announced John B. Smith, director of Texas A&M Libraries.

Curator of the Western Americana Collection in the Beinecke Rare Book and Manuscript Library, Dr. Hanna has spent his entire professional career at Yale.

He holds degrees in English, library science and history from Clark, Columbia and Yale Universities, respectively. His studies were interrupted for World War II service as a Marine Corps officer.

Polygraph school gets guest teachers

Nine Texas A&M faculty members and Brazos County District Attorney D. Brooks Cofer Jr. are serving as guest instructors for a six-week polygraph examiners school conducted by the Engineering Extension Service's Police Training Division.

Chief Instructor Ira E. Scott said the 18 students will receive extensive training in medical physiology, anatomy, psychology and use of polygraph instrument.

Sophomore gets architecture funds

Darryl C. Baker of Port Arthur, sophomore architecture student at Texas A&M, has been named recipient of an Arthur W. Licht scholarship for the 1971-72 academic year.

The \$400 scholarship, established through Texas A&M's College of Architecture and Environmental Design, honors the memory of an El Paso architecture student killed in a 1970 automobile accident.

Baker, a graduate of Port Arthur High School, is the son of Mr. and Mrs. Kermit W. Baker of 333 West 9th Street.

The Licht scholarship is supported by income from a \$25,000 permanent endowment established by memorial contributions from Licht's family and friends and his estate.

Texaco promotes former student

Texaco Inc. has announced the appointment of Merrill Smith as assistant general manager (Development) of the newly formed Producing Department — Southeast, located in New Orleans.

Mr. Smith graduated from Texas A&M in 1940 with a bachelor of science degree in electrical engineering. He joined Texaco Development Corporation in 1941 and came to Texaco's Producing Department in 1946.

He served in various geological positions in Texas, Oklahoma, and Louisiana until 1965, when he was appointed Division Geophysicist at New Orleans. He was appointed Assistant to the Division Manager there in 1968 and in 1970 was named Assistant Division Manager. Later in 1970 he was appointed Assistant Regional Manager.

St. Mary's prof here for summer

Dr. Donald L. Parker, assistant professor and head of the Department of Physics at St. Mary's University in San Antonio, is at Texas A&M University this summer to participate in research with the Department of Electrical Engineering, reports Dr. W. B. Jones, department head.

Parker will spend alternate weeks gathering data here and doing X-ray topographical examinations at St. Mary's of damage done to silicon wafer samples using a method commonly called the Lang technique.

Parker will work with Dr. W. A. Porter, assistant professor and principal investigator of a study on the techniques for controlling dislocations which occur at random during the fabrication of large scale integrated circuits.

Local firm receives construction grant

The U.S. Department of Agriculture has awarded a \$151,275 contract to Century Construction Co. of Bryan to build additional research facilities for the National Cotton Pathology Laboratory here.

The laboratory is west of the Texas A&M main campus and south of the F&B Road.

Dr. A. A. Bell, laboratory director, said construction will start this month on a head house and two greenhouses.

He said the structures will be used in cotton disease research.

Ag Experiment gets \$200,000

The Texas A&M Research Foundation and the Texas Agricultural Experiment Station have received two U.S. Department of

Agriculture grants totaling more than \$200,000, Rep. Olin Teague of College Station has announced.

The Research Foundation award is for \$180,049 and covers a three and a half-year period. Its purpose is to find an economic use for cottonseed whey, a by-product of cottonseed protein food products. Whey is a waste product and a possible pollutant.

The other grant is \$37,213 to be applied toward construction of a Forestry Field Laboratory, now in the planning stage. Matching funds are available from state sources.

Professor's book translated in Japan

A two-volume translation of a book by Dr. M. L. Greenhut, distinguished professor of economics, is being published by the Taimeido Publishing House of Tokyo.

Professor Hisao Nishioka of the Aoyama Gakuin University Economics Department in Tokyo translated the book.

It contains Greenhut's original book in location economics, "Plant Location in Theory and in Practice," first published in 1956, and related academic papers.

The Japanese edition is expected to be distributed later this summer.

Firemen Training staffer on committees

John R. Rauch, staff instructor for the Firemen Training School, has been appointed to committees on two international fire service organizations.

Matthew Jimenez, president of the International Association of Fire Chiefs, announced Friday Rauch's appointment to the association's Arson Committee.

Rauch also has been re-appointed to the Technical Advisory

and Training Committee of International Association of Fire Investigator.

Remote Sensing enlarges staff

Expanded research by the Remote Sensing Center has led to two new additions to the teaching and research faculty.

Dr. William T. Mayo Jr., optics specialist, and Dr. Wesley James, remote sensing and environmental engineering specialist, will join the university Sept. and work with the Remote Sensing Center approximately one-third of their time, center director Dr. John W. Rouse Jr. has announced.

Mayo will be assistant professor of civil engineering and James assistant professor of electrical engineering.

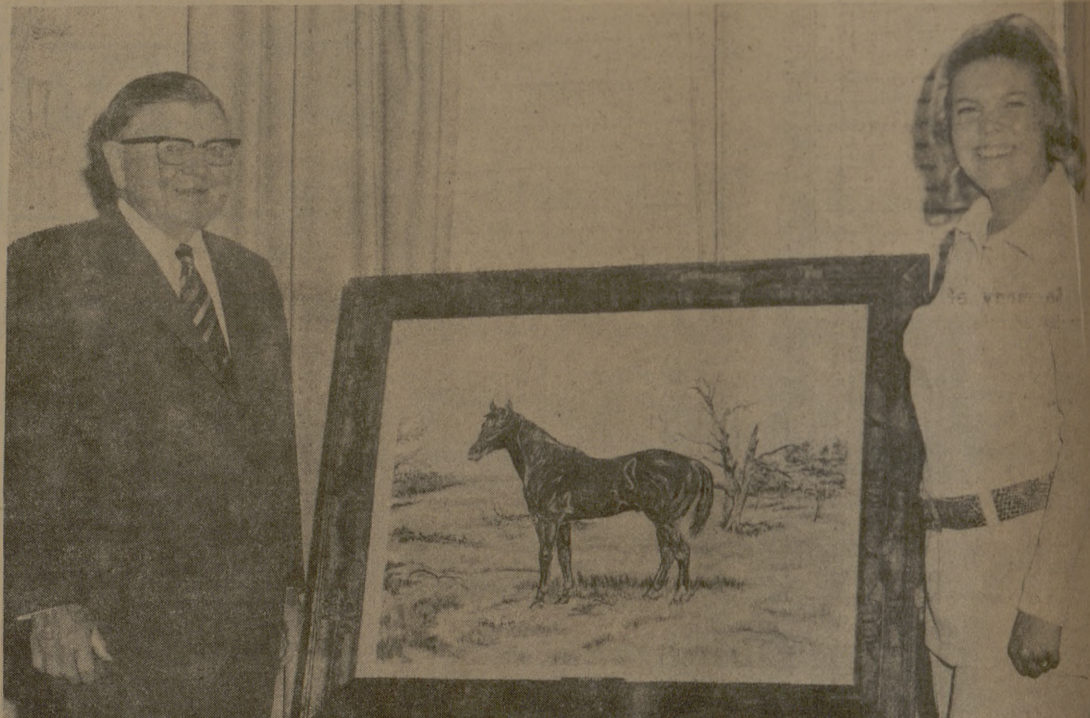

Both are recent Ph.D. graduates with experiences in industry and government organizations.

A&M to conduct nuclear power meeting

An institute entitled "Nuclear Power Reactors and their Environmental Effects" will be conducted July 13-August 20 at Texas A&M University's Department of Nuclear Engineering with funding from the Atomic Energy Commission, Dr. R. G. Cochran, institute director, has announced.

Cochran said the objective of the six-week program is to provide qualified science and engineering college teachers with adequate background in fundamentals of nuclear power to enable them to play a role in its development.

He indicated that since many has been said both for and against nuclear power the planned program will present facts clearly so that each teacher can reach his own conclusions.

MRS. WILLIAM R. COX presents oil painting of Jedgar Ruler, Thoroughbred race horse, to Wofford Cain of Dallas, former Texas A&M board member whose wife joined with two other women to donate the valuable horse to the university in 1968. Mrs. Cain jointly owned the horse with Mrs. Clint W. Murchison Sr. of Dallas and Mrs. B. G. Byars of Tyler. Mrs. Cox is the wife of a Texas A&M veterinary medicine student.
