

# Brazilian '72 NSF professor at A&M

Dr. Jose Candido de Milo Carvalho of Brazil will visit Texas A&M during 1972 through the National Science Foundation's Senior Foreign Scientist Fellowships program, A&M President Dr. Jack K. Williams announced Thursday.

An authority in entomology, Carvalho will be at the university for five months next year in a visiting professor status.

He is one of 59 senior foreign scientists receiving NSF awards for teaching and conducting research at U. S. universities.

Through the program, the dis-

tinguished scholars from other countries will lend their talents to improvement of scientific research and science education in the United States. The fellows were selected by NSF from nominations by U. S. science dectorate-granting institutions.

Carvalho is one of the foremost authorities on the insect order hemiptera and has had extensive experience in tropical biological problems according to Dr. Perry L. Adkisson, Entomology Department head. The chinch bug is typical of hemiptera.

The visiting professor is a

member of the Brazilian Academy of Sciences, served as director of the National Museum of Rio de Janeiro and on the Advisory Council for Research on National Resources for UNESCO. He has more than 226 publications over the last 32 years.

Carvalho will conduct seminars and lectures in the Entomology Department and other related areas.

The Brazilian will cooperate with Dr. Joseph C. Schnaffer, associate professor of the A&M entomology faculty.

# Multiple highway land use approved

The Texas Highway Commission has approved an expanded program for multiple use of highway right of way.

The policy provides for the construction of parking areas, recreational areas and public parks beneath overhead structures or certain other areas of right of way.

Recreational facilities may include hike and bike trails, nature trails, bridge paths; basketball, handball or tennis courts, children's playgrounds or mini-parks and boat launching facilities.

Generally, the Highway Depart-

ment will be responsible for construction of the site, but local governmental units will provide playground equipment or other recreational facilities.

Cooperative agreements will be concluded with city, county, state and federal authorities on request.

State and federal agencies will participate in use of right of way for purposes relating to law enforcement, vehicular weights and measures control, safety inspection of trucks, immigration control, special gas tax inspection and other official functions.

The policy is subject to the condition that should the Department conclude that the facility has become a hazard to traffic safety or to be not in the public interest, the cooperative agreement may be modified or terminated.

## Study

(continued from page 1)

Science; Larry W. Christian and David G. Woodcock (co-coordinator), Architecture and Environmental Design; Willis H. Clark, Programs; J. W. Handin, Geosciences; Lannes Hope, Education; J. W. Huff, Veterinary Medicine; W. B. Mansfield, Engineering; G. M. Watkins and John Holcomb (co-coordinator), Agriculture; and Arthur V. Wolfe, Business Administration.

Named college editors were: T. W. Adair III, Science; T. E. Daniel, Business Administration; John Holcomb, Agriculture; Lannes Hope, Education; Lyndon W. Kurtz, Veterinary Medicine; Clifford J. Leabo, Liberal Arts; Leatha Miloy, Programs; Willis E. Pequegnat, Geosciences; J. F. Thorlin, Engineering Experiment Station, and Richard E. Vrooman, Architecture and Environmental Design.

"It (the self-study) is an examination of the university's plans, propositions, weaknesses and strong points—both present and future," Barzak said. "It will be a thorough inside-out study of Texas A&M."

"It is conducted on a pyramid basis. The students and faculty, along with the department heads, make up the grassroots. Then, the deans and the associate deans take all the data they gather from every department here on campus and compile it to book form," Barzak explained.

"For example, we have a chance to review all the different colleges that have been created since the last self-study was made in 1963. The effective date for the next study is 1973."

After the self-study and the committee visit are completed, Barzak said, a report will be requested each year on the implementation of self-study and visiting committee recommendations until it is determined by the commission that additional such reports are not needed.

Five years after reaffirmation of accreditation (1978) an interim report must be submitted in the form of a brief essay describing recent developments, new programs, and plans for the future. A seventh-year (1980) report will provide information about current-fund expenditures, faculty, and the library.

"The ten-year survey is only one of the self-study sort of things we do. For example, TAMU has its own program 'Century Study,' that is being carried out to map the progress A&M has made and will make up to its centennial — 1976," said Barzak.

# ENTER SKAGGS SCHOLARSHIP SWEEPSTAKES

NO PURCHASE NECESSARY

- 14 - 1st PRIZES: \$1000 SCHOLARSHIP OR CASH
- 20 - 2nd PRIZES: \$150 CASH
- 30 - 3rd PRIZES: \$75 CASH
- 50 - 4th PRIZES: \$25 CASH
- 200 - 5th PRIZES: ONE YEAR'S SUPPLY DR. GUTKE MULTIPLE VITAMINS

Education is a great thing, but an expensive thing... so we'd like to help out a little. Stop in at your local Skaggs Drug Center and save money on all sorts of back-to-school merchandise. And while you're there, we may be able to help out a little more... perhaps \$1,000 more. Just ask for a Scholarship Sweepstake entry blank. No purchase required. Just fill out and drop it in the box before September 15th.

The boxes from all the Skaggs stores will be delivered to our central offices in Salt Lake City where they will be placed in a big drum. And on September 21, the president of Skaggs will reach in and pull out 14 first place, \$1,000 winners. Plus hundreds of second, third, fourth, and fifth place winners. All winners will be notified by mail and will be publicized in their local paper.

THIS CONTEST VOID WHERE PROHIBITED BY LAW.

\$20,500 IN CASH PRIZES

CONTEST ENDS SEPT. 15th

\* NO PURCHASE NECESSARY
