

Cincinnati squeezes out 17-0 victory over helpless Aggie

By JOHN CURYLO
Battalion Sports Editor
The old football adage that the best offense is a good defense

was disproved Saturday night in Kyle Field when the Aggies lost to Cincinnati, 17-0.
The A&M defense held the powerful Bearcat ground game to eight first downs and 177 yards and no touchdowns, as opposed to the 247 they ran for each game a year ago. Passing, they completed three for 27 yards.
Yet, the Aggie offense could muster but a little more, in addition to numerous mistakes that gave the visitors good field position.
The bad bounces and dreaded breaks were prevalent throughout, starting in the first quarter

when Mitch Robertson was back to punt. The pass from center bounced to him, and he was tackled at the A&M 13. The defense held, though, and a penalty left Cincy with fourth and 35 from the 38 after six plays.

Grady Hoermann broke through to partially block the punt, but the ball still rolled to the Aggie 11. Three plays later, Mark Green fumbled, and the Bearcats were at the 17. The defense held, forcing the 22 yard field goal by Mike Schmitt.

Early in the second quarter, Cincinnati was forced to punt, and Hugh McElroy took it on the 22. He ran to the right sideline behind the blocking wall, cut back while breaking tackles, and went into the endzone. A clipping penalty moved the ball back to the Aggie 28.

Cincy settled for a 36 yard Schmitt field goal nine plays after a Robertson punt died on the A&M 48, and it was 6-0 with 7:56 to play in the half. At this point, Coach Gene Stallings chose to use Tim Trimmier at quarterback, but he was no more successful than his classmate. On his second series of downs, he threw an interception on first down, but no apparent damage was done, since the defense rose to the occasion.

However, Trimmier started to move the team with a 13 yard run by Marc Black, a 16 yard aerial to McElroy and a nine yard run by Black again. They were faced with fourth and 12 on their own

THE AGGIE DEFENSE closes in on Cincinnati quarterback Albert Johnson (11), the leading running quarterback in the nation last year. Grady Hoermann (31), Van

Odom (66), and Bill Wiebold (61) were part of the Aggie crew that stifled the Bearcat offense in the 17-0 game at Kyle Field Saturday night. (Photo by Mike Rice)

Royal praises OU, bemoans injuries

By JACK KEEVER
Associated Press Writer

AUSTIN, Tex. (AP)—Coach Darrell Royal, dejected over the loss of Texas' top pass receiver and one of its best runners, said Monday upcoming Oklahoma is as good as any college team in the nation.

"It's the best Oklahoma team since I've been coaching here at Texas," said Royal, who started coaching the Longhorns in 1957. "I sincerely believe they are the equal of anybody in the nation."

Royal told his regular weekly news conference he was sure quarterback Eddie Phillips, who has not played much since the opener against UCLA, and swift

receiver Jim Moore will miss the Sooner game.

Phillips, ailing with a pulled leg muscle for over a month, hurt it again in Texas' 35-7 victory over Oregon last Saturday, and Moore injured his knee. Royal said Phillips' leg was "more sore and more painful" than at any time this season.

He said he would be "tickled to death" if Phillips or Moore are in good enough shape to play against Arkansas Oct. 16. He said he did not know if Phillips' pulled muscle would keep him out a week or six weeks.

Senior Donnie Wigginton will replace Phillips again at quarterback, and Pat Kelly, a sopho-

more, will fill in for Moore, the fastest player on the squad with 4.4-second speed for 40 yards.

On defense, safety Tommy Landry has a sore shoulder and linebacker Glenn Gaspard has a stiff wrist, Royal said.

Defensive ends Stan Mauldin and David Arledge will not play against Oklahoma either because of injuries.

Royal mentioned the 516 yards Oklahoma gained rushing against tough Southern California last Saturday and said, "I hope we can keep them under 500."

Texas and Oklahoma have 3-0 records.

"They have an excellent operator in quarterback Jack Mildren and unbelievable speed in their two halfbacks" — Joe Wylie and Greg Pruitt, Royal said.

Where are they getting their yardage, Royal was asked. "Wide," he replied. "They turn 5 into 25 yards just like that," and he snapped his fingers.

Royal described Oklahoma's defense as "quick, aggressive, strong." Defensive end Raymond Hamilton, 6 feet 1 inch and 237 pounds, "is phenomenal," Royal said.

"There is not a phase of the

game Oklahoma has not played well," Royal said. "They've got talent, they are confident, they've got it going for them... like high water over level ground... or maybe downhill ground."

Open handball tournament scheduled as fall intramurals are half over

A university handball champion will be determined this year, the intramural department announced Monday.

The intramural department will hold an open handball tournament starting November 1. The tournament will be open to faculty, staff, and students.

Winners of the tournament will be able to compete with A&M's handball club. The overall university champion will represent Texas A&M at the National Intercollegiate Tournament to be held in the spring.

Entry blank forms will be on the bulletin board in DeWare Fieldhouse from October 15 through October 28.

Fall intramurals at A&M are nearing the halfway mark in most sports and several leagues

have leaders at this time. In leagues play four-game schedules.

In class A football, several teams lead their leagues with records: A-1, Squadron 2, Squadron 10, C-2, Squadron 8, L-1, and I-2. In Class C football, Keathley is leading league A with a 3-0 record and McInnis, Wain and Moses lead their leagues with 2-0 records.

Class D football shows P. Delts leading with a 2-0 record and Travis House, Dorm 10 and the Outliers lead Class X with 2-0 records.

Continuing play are the women's basketball and volleyball leagues. And an open racketball tournament which begins October 15 is in the immediate planning of the intramural office.

Have you seen the COLLEGE PROTECTOR?

(The Insured - Savings Plan designed for the College Man)

It might be worth your time to take a look at it

COMPANY FACTS

- ... 64 years in business
- ... Legal Reserve Company
- ... Highest National Rating in the insurance industry according to Best's Life Insurance Reports
- ... Admitted Assets as of Dec. 31, 1970 \$178,065,000
- ... Capital Surplus Funds as of Dec. 31, 1970 \$36,865,000

Lets you make the grade

Pick up a copy of Wiley's *Student Study Guide With Programmed Problems* for Halliday & Resnick.

Suppose thermodynamics is your weak spot. In that chapter you'll find all the *essential ideas* from the text, including heat conduction, First and Second Law, reversible processes, and entropy... *detailed examples* to illustrate each idea... and *programmed solutions* of problems on thermodynamics.

And the same three aids—the essential ideas, detailed examples and programmed solutions of problems—are in every chapter. (There's a chapter in the study guide for every chapter in the text.)

Look for the *Student Study Guide With Programmed Problems* at your campus bookstore.

It can make the difference.
