

Chile government prepares hero's welcome for Fidel Castro

SANTIAGO, Chile (AP)—"Welcome Fidel" signs blossomed on walls and buildings Tuesday as Chile's leftist government prepared a hero's welcome for Prime Minister Fidel Castro on his first trip to South America in more than a decade.

On the eve of the Cuban leader's arrival, Chile's Marxist president announced that the Chilean government has decided to renegotiate its foreign debt, includ-

ing \$1 billion owed to the United States.

This means Chile is unable to keep up its present schedule of repaying what it owes.

President Salvador Allende went on national radio to make his announcement. He blamed previous Chilean governments for the predicament.

Castro comes here today at the invitation of Allende, a close friend. The visit is to last 10 days

and Castro will go from the northern desert to the southern fjords and trout-filled lakes of this long and narrow South American nation.

It will be the first trip to a Latin-American country for the 45-year-old Castro since 1959 and his first trip anywhere outside Cuba since 1964, when he went to Moscow.

Chile's Popular Unity coalition government, which includes

Communists and Socialists, and the Castro regime have been basking in the warmth of Marxist friendship since the 63-year-old Allende was inaugurated Nov. 3, 1970.

Allende, a frequent visitor to Cuba before he became the first democratically elected Marxist president in the Western Hemisphere, established diplomatic relations with Cuba on Nov. 12, 1970.

Since then, both countries have instituted cultural and sports exchanges and signed trade pacts totaling \$12 million a year, mostly in barter agreements.

Many of Allende's left-wing supporters look to the Castro regime as a model for Chile's government. A number of his administration officials have worked in Cuba to learn how the Castro government operates.

Communist and Socialist youth

work parties, in paint-stained jumpsuits and plastic hardhats, were busy Tuesday morning putting the final touches to brightly colored wall murals and welcome signs under sunny springtime skies.

Other youth groups painted "Welcome Fidel" signs along the brick walls linking the highway linking the capital with Pudahuel International Airport in rolling farmland near the foothills of

the nearby Andes.

The government newspaper La Nacion said, in a reference to single stars on the Chilean and Cuban flags: "Now the two stars are not alone."

But not all Chileans seemed anxious for Castro to visit Chile. The conservative newspaper La Tribuna which refers to him as a "tyrant" or "the jackal of the Caribbean," said "True Chileans repudiate the visit."

Drill Team will march at Fish game

The Fish Drill Team will march at halftime Thursday at the A&M Fish-Texas Tech Picador football game on Kyle Field.

The seven-minute performance will be the team's second for public view and an important step toward defense of the National Intercollegiate ROTC Drill Championship won in Washington last April by the 1970-71 team.

Commander Mark Roberts of Fort Hood led the 27-cadet team in its first exhibition Saturday during the march-in to the A&M-SMU game.

"The team will do pretty much the sequence to be used at the Houston competition Dec. 4," commented Louis Ullrich, senior advisor of San Antonio.
