research of basic significance in Smith elected the physical sciences, mathematics and engineering.

Research Corp., a foundation created by Frederick Gardner Cottrell in 1912, grants over \$3 million a year to support research in the physical and biomedical sciences and for public health nutrition programs.

Diaz, Jennings receive scholarships

Two A&M seniors, one from Eagle Pass and the other from Wichita Falls, received \$500 scholarships for undergraduate study in industrial distribution at the College of Engineering. Rene Diaz of Eagle Pass receiv-

ed his award from Temple Industries, a producer of wood products in Diboll. He lives here at 401 Stasney. Russell Jennings, 1052 W. We-

nonah, Wichita Falls, was given the award from the Southern Industrial Distributors Association (SIDA) in Atlanta, Georgia. Jennings lives in an A&M dormitory. Both men were presented the awards at the recent Engineering Technology Society meeting.

McGanity to be AMA speaker

"Malnutrition in America—Fact or Fantasy?" will be the topic for an American Medical Association Council on Foods and Nutrition lecture Thursday at A&M. Guest speaker will be Dr. William J. McGanity of the Univer-

sity of Texas Medical Branch at Galveston. Dr. Howard L. Gravett, who heads Texas A&M's pre-medical and pre-dental program, said the lecture will be held at 7:30 p.m. in room 113 of the Biological Sci-

ences Building-East.

association chairman

John B. Smith, director of libraries at A&M, has been elected vice chairman and chairman-elect of Texas Library Association District 3. Mrs. Hazel A. Richardson, Bry-

an Public Library director, was elected secretary-treasurer. Approximately 180 persons from 29 Central Texas counties attended the annual meeting Saturday at Baylor. The group voted to hold its ment, has been elected chairman 1972 meeting on the A&M cam-

pus. **Firm** donates

electrocardiograph A Houston firm, Hewlett-Packard Co., has presented an electrocardiograph to A&M's Health and Physical Education Department. Dr. Carl Landiss, department head, said the \$850 Sanborn 500 Viso-Cardiette Electrocardiograph will be used for instructional and research purposes. He said it also will be used in the faculty physical fitness program.

The equipment was formally presented by Euell G. Byers, 1944 Texas A&M graduate and district manager of Hewlett-Packard's Sanborn Division.

An identical machine was presented last month to the university's Veterinary Physiology and Pharmacology Department.

Ellison awarded

Betrand Scholarship Warren Dale Ellison, a Jim Wells County 4-H Club member and a junior forestry major at A&M, has been awarded the James Thomas Bertrand Scholarship.

The scholarship was presented to Ellison by Jay Bertrand, Hous- Institute of Technology Chemistry

ecutive, at a recent meeting of the A&M Forestry Club. Bertrand, a 1929 A&M graduate, has provided a grant to the Texas 4-H Youth Development Foundation for the scholarship which honors his father, an early East Texas timberman.

Hierth chairman of association

Dr. Harrison E. Hierth, acting head of A&M's English Departof the South Central Association of Departments of English. He was chosen at a recent meeting of the South Central Modern Language Association in New Or-

leans. The South Central Association includes departments of English in Texas, Oklahoma, Arkansas, Louisiana, Mississippi and Tennessee.

DeVany to contribute economic paper

Dr. A. S. DeVany, visiting as-sociate professor of economics at A&M, has been invited to contribute to paper on "Time and the Market" by England's Institute of Economic Affairs.

The professor said the paper will appear as one in the series of "Hobart Papers" currently being circulated among policy-makers in the United Kingdom, with the intention of influencing their decisions.

DeVany said the paper will be reviewed in major British newspapers, including the London Times.

AUSTIN, Tex. (P) — The fall fail to put enough gun pressure deer hunting season in Texas counts about 510,000 hunters who spend about \$88 million in two

months of the season. Yet biologists of the Texas Parks and Wildlife Department say only about a half to a third of the deer are "harvested," as biologists say, that should be to | provide maximum health for the rest of the herds. The "Business" as others call

it, utilizes 37 million acres of leased land and the processed product is worth more than \$6 million.

A total of 290,706 deer was legally taken during the 1970 season. That's a lot of deer, but the total represents only about nine per cent of the herds.

Biologists say under most conditions annual harvest of 15 per cent to 25 per cent of the herd is appropriate. Studies have shown that a higher harvest rate results in a healthier deer herd from year to year. The acreage of lease land in-

on their deer herds, resulting in

The state's overall deer population is remaining fairly stable at around 3.2 million animals, but civilization's constant inroads on deer habitat are likely to reduce that number in the next few

Biologists say the annual deer kill in Texas accounts for approximately 7.5 million pounds of boneless meat. Figuring at the current price of ground chuck beef in the stores, at about 85 cents per pound, the value of the venison expected to be taken by hunters in Texas this year is

Deer hunting big business stunted deer and over-grazed land.
