

Fire truck pumpers to be rebuilt at firemen training school

Fire truck pumpers from Missouri City, Edinburg, Gary, Baytown and Caldwell will be re-

built to meet the state acceptance test at the 43rd annual Texas Firemen's Training School July 16-21 at A&M.

Henry D. Smith, chief instructor for the Engineering Extension Service program, said three pumpers will be completely rebuilt and two will get minor repairs from an 80-man pump maintenance class.

The course is one of 17 offered during the one-week municipal school.

Heading the maintenance class will be Asst. Chief L. B. Bailey of Baytown and Master Mechanic R. H. Brewer of the Lubbock Fire Department. They will be assisted by 10 master mechanics from large departments throughout the state and nine manufacturing representatives, Chief Smith noted.

Missouri City will have a 500-gallon per minute pumper rebuilt. Edinburg will send a 1,000-gallon truck and Gary a 750

Seagraves pumper, both for a complete overhaul.

'Spoon River' to be staged

Sixteen teenagers of Bryan and College Station have been named to the Premiere Players cast for the July production, "Spoon River Anthology."

They will portray more than 80 characters who lived in Spoon River, Ill. A musical, the Edgar Lee Masters play includes more than 20 songs, all in verse.

Robert W. Wenck is directing the production, sponsored by the A&M Theater Arts Section and College Station Recreation Council.

It will be staged at the College Hills Elementary School cafeteria July 6, 7 and 8. Curtain each night will be at 8. All admissions will be 50 cents each.

The "Spoon River" cast consists of Ann Chenoweth, Lou Anne Clark, Beverly Crawford, Krishna Das, Leslie Denton, Danny Foster, Ryn Hawkins, Bill Hooper, Carol Kittrick, Gregg Leinweber, Cindy Mahoney, Joan Perry, Mark Turpin, Martha Van Bavel, Wanda Lewis and Terry Wooten.

C. K. Esten chairs the TAMU theater arts section.

John Antoine given grant

John W. Antoine, research scientist at A&M's Oceanography Department, has been awarded a \$165,000 U. S. Geological Survey grant for a study of the Louisiana outer continental shelf.

He will collect, process, analyze and interpret approximately 7,000 line miles of high resolution marine geophysical data over selected blocks of the shelf.

The award was announced Thursday by Cong. Olin E. Teague in Washington.
