MIDWEST VIDEO

WISHBONE-AGGIE-STYLE. A&M quarterback Lex James (10) demonstrates the Aggie's favorite option to the Wishbone offense, the

stumble, fumble and fall. The Aggies have called this play 21 times this season, turning the ball over to the opposition 12 of these.

In this sequence, James shows how the play looks in the playbook and not often enough on the field. On this particular play James circles

right end for a good gainer before being pulled down by the Aggie Army defense.
