

Anti-Busing Bill Killed By Filibuster

WASHINGTON (AP) — A bill designed to put an end to almost all busing for school desegregation died in the Senate Thursday strangled by a filibuster by Northern liberals.

The Senate voted 59 to 26 to shelve the bill after a futile, third attempt to muster a two-thirds majority to choke off debate.

The bill passed the House on Aug. 18 by a 282-102 vote, with its toughest provisions written on the floor in a late-night session.

President Nixon had called for Senate action before Congress adjourns.

Backers of the antibusing bill predicted the issue would be back before Congress next year, with chances improved for passage of legislation or a constitutional amendment to halt what they called excessive, court-ordered busing.

The bill's opponents, led by Sen. Jacob K. Javits, R-N.Y., and Philip A. Hart, D-Mich., said its passage would turn back the clock on the school desegregation achieved since the Supreme Court's 1954 ruling striking down the doctrine of separate-but-equal schools.

Majority Leader Mike Mansfield, D-Mont., moved to put the bill aside and take up other legislation after the Senate defeated, for the third day in a row, an effort to close out the debate.

The vote was 49 for invoking the Senate's anti-filibuster rule and 38 against, or nine short of the required two-thirds majority.

With the defeat of the bill in the Senate, talk sprang up among House members of trying to re-

Dr. Cotton Awarded Grant For Chemistry Research

Dr. F. Albert Cotton has been awarded a second year \$91,700 National Science Foundation grant for inorganic and organometallic chemistry research at Texas A&M University.

The Robert A. Welch Professor of Chemistry at TAMU, Dr. Cotton is conducting investigations in the chemistry of substances with strong metal-to-metal bonds.

Special emphasis is placed on study of metal-to-carbon bonds, which have implications for catalytic action of metals in organic chemistry. A large component of the research involves determining molecular structure by X-ray diffraction.

The study directed by Dr. Cotton also is concerned with dynamical behavior of molecules and molecular rearrangement.

Widely known for work in inorganic chemistry, the Welch professor is a National Academy of Sciences member and formerly taught and conducted research at the Massachusetts Institute of Technology 17 years.

Prairie View Student Files Suit

HOUSTON (AP) — A Prairie View A&M College student, who says he has been refused voter registration in Waller County, filed a federal court suit Thursday in an effort to be allowed to vote Nov. 7.

Charles Ballas, 20, asked U.S. District Court Judge James Noel to order Waller County Tax Assessor Leroy E. Symm to register Ballas and others turned down.

He also asked for \$1,000 in attorney fees.

Noel had acted in a similar Prairie View case last March, upholding Symm's interpretation of a Texas law which requires would-be voters to establish they are bona fide residents. Students in that suit protested Symm's use of questionnaires to decide whether or not they were residents.

New Service Organization Now Recognized On Campus

The Iota Chapter of Phi Sigma Beta was formally recognized as a service fraternity last week by Texas A&M. PSB was incorporated as a service organization last year.

Since its beginning, it has worked with a mental hospital in Bryan by making financial contributions and assisting in many other ways, said Pete Winters, president and founder of the chapter.

The chapter wants to work with any interested groups in a service capacity. Previously, Phi Sigma Beta has experienced some difficulty in finding projects due to a lack of requests for help from other organizations, Winters said.

Not only community and campus service projects are planned, but also intramural athletics and weekend trips to Lake Somerville.

"We want to give students the opportunity to be what they want to be and do what they want to do," Winters said.

Phi Sigma Beta is one of few national fraternities which is expanding, according to Winters.

"The reason is because we have a liberal policy. The chapter can be changed to what its members want it to be to fit the situation, school and members involved," said Winters.

The officers are president, Winters; vice president, David Teitelbaum; treasurer, James Epp; corresponding secretary, Dean Neidholt; recording secretary, Stick Miller and social chairman, Brant Dennis.

The fraternity anticipates pledge classes will begin within the next three or four weeks. Times and places will be announced at a later date Winters said.

COLLEGE OF SCIENCE ENGLISH PROFICIENCY EXAMINATION

Seniors in curricula of the College of Science must take the English Proficiency Exam on Wednesday, October 25, 1972 at 8:00 p.m.

BIOLOGY Department Curricula—Room 113 BSBE.
CHEMISTRY Department Curricula—Room 251 CHEM.
MATH Department Curricula—Room 208 ACAD.
PHYSICS Department Curricula—Room 233 PHYS.

For information and guidelines on the nature of the examination, check with the departmental secretary. Completion of the examination, a requirement of the College of Science, is a prerequisite for registration for the Spring Semester, 1973. 162516

To be eligible to purchase the Texas A&M ring, an undergraduate student must have at least one academic year in residence and credit for ninety-five (95) semester hours. The hours passed at the preliminary grade report period on October 5, 1972 may be used in satisfying this ninety-five hour requirement. Students qualifying under this regulation may now have their names with the ring clerk, Room Seven, Richard Coke Building, She. In turn, will check all records to determine ring eligibility. Orders for these rings will be taken by the ring clerk starting October 30, 1972 and continuing through December 12, 1972. The rings will be returned to the Registrar's Office to be delivered on or about January 22, 1973. The ring clerk is on duty from 8:00 a.m. to 12:00 noon, Monday through Friday of each week. 162838

Congressman Olin E. Teague

1. Represented the 6th district of Texas continuously since 1946
2. Authored over 200 bills which have become laws
3. Chairman of the Veterans Affairs Committee since 1954; responsible for such bills as the Korean "G.I. Bill", the War Orphans' Educational Assistance Act and the Veterans' Administration Hospital program
4. First ranking member on the Space and Astronautics Committee, and chairman of the Manned Space Flight Subcommittee
5. Member of the House Committee on Standards of Official Conduct
6. Chairman of the Democratic Caucus
7. Chosen liaison from the House Democrats to the National Democratic Committee

"Only the solid support of the people of the 6th district has enabled me to acquire the experience necessary to have a decisive voice in major legislation which I feel affects both Texas and the nation. I want to thank my constituents for their confidence and their backing."
