Republican List what in your opinion are the five most important features of a good constitution for Texas

There is no way that any person truly knowledgable about Texas constitutional requirements can confine an answer to five parts. Would you support or oppose

the following:

1. Reducing the crime of possession of marijuana to a misdemeanor. I oppose reducing marijuana possession to a misdemeanor, but favor a proposal to erase all records of a first conviction after three to five years of successful probation.

2. State income tax. I unequi-

Nixon-McGovern Actions Slated For Debate

The League of Women Voters demeanor. Though I recognize the either for corporations or individuals.

> 3. Further implementation of the Texas Water Plan. Texas must have an overall water plan, but I am not satisfied that we yet have an answer. Any final plan will most likely contain variations from several plans. But water is the number one problem facing Texas.

If elected, what do you hope to achieve in this office? I intend to do the following: (1) Reform of education spending so that we get more for our educational dollar and a more equitable distribution of state funds: (2) Reform of state welfare programs; (3) Adoption of no-fault auto insurance for Texas: (4) Reform of bail bond procedures so that repeat offenders are not out to commit more crimes.

Debby Leonard, Socialist Workers List what in your opinion are the five most important features

of a good constitution for Texas.

The constitution should guarantee: (1) Freedom of speech and press; (2) Freedom of assembly: (3) Full equality for women; (4) Right of Blacks, Chicanos and other minorities to full equality and control of their own communities: (5) Unrestricted access to ballot for all political parties.

Would you support or oppose the following:

1. Reducing the crime of possession of marijuana to a misdemeanor. Support total legalization of marijuana.

2. State income tax. One hundred per cent tax on profits of polluting industries; one hundred per cent tax on war profits; no sales tax or state income tax.

3. Further implementation of the Texas Water Plan. Water plans must be ecologically sound -present plans are insufficient in this respect.

End To Vietnam Fighting Gets Jolt By Hanoi Announcement

WASHINGTON (A)-Prospects for a quick agreement on ending the Vietnam fighting may have taken a stiff jolt with Hanoi's announcement today and its public demand that the United States sign a purported agreement at the end of this month.

The White House initially was maintaining its silence about the secret peace negotiations on grounds that both sides had agreed not to talk about what went on in the private sessions. However, North Vietnam's detailed report saying that presidential adviser Henry A. Kissinger had agreed to a war-ending deal, and then had backed off, put intense pressure on President Nixon's administration to set forth the U.S. version publicly.

On past occasions the publication by the opposing sides of their stands taken in secret negotiations has indicated a breakdown in the negotiations.

From the administration's standpoint, the North Vietnam-(See Vietnam, page 2)

Blues King Coming As A&M Special Attraction

B. B. King, blues singer and guitarist, will be the featured performer for Town Hall's Special Attraction series Friday, Nov. 3, at G. Rollie White Coliseum.

forcement.

King is credited with making the blues resonant with contemporary experience. His approach to the blues is living music rather than folk art.

King built his reputation on the "chitlin' circuit." Other blues singers who came out of similar backgrounds are Ray Charles, Joe Williams and Lou Rawls.

"I want people to know me for what I am-B.B., the blues singer and guitarist," he explained.

His way of expressing blues is pure, but complex. He doesn't use devices to alter his guitar sound and produce reverberation, tremolo or other effects.

King doesn't dance or move around much. He doesn't play the guitar from a multitude of showy positions, either.

"There was a time, when I first started out, that my way of playing was like the old musicians used to play," he says. "After a while you get to believe that you are you."

As a professional, King has always played the electric guitar. Only recently has he used arrangements to compliment his guitar and vocal work.

without depending on gimmicks complete freedom to develop his and has remained faithful to his own format.

"Live And Well," his latest album, is probably his most important blues recording in years. For the first time, King was allowed

said he will "speak about Nixon's promises which he didn't keep and what McGovern really proposes."

Edgecomb's political past includes a 1962 stint of door-to-door canvassing for the Dallas County Republican Party to chairman of the 1970 registration drive in Brazos County to being a delegate for the Republican State Convention to his present chairmanship of the "Re-elect the President Committee" in Brazos County.

Dunkelberg began his work in politics in 1968 as a worker for the Humphrey-Muskie ticket in Fort Worth. In 1970, he worked for Ralph Yarborough in his unsuccessful bid for renomination to the U.S. Senate.

He coordinated the campaign activities for Frances Farenthold at Tarrant County Junior College in both the primary and run-off elections. He was delegate to the Democratic State Convention. After the convention, he agreed to take charge of the local Mc-Govern effort in Brazos County.

Ralph Yarborough, U.S. senator at that time, said after the proposal was defeated that voters "have slapped down hard a greedy grab for power..."

If it is approved, the governor and other major elective officials who now serve for two years will get four-year terms. This would apply to the lieutenant governor, attorney general, state land commissioner, agriculture commissioner, comptroller and treasurer and also to the secretary of state, who is appointed by the governor. Officials elected in 1974 or aft-

erwards would be affected. Texas' chief office holders had

following the Civil War, but two- spend more time on state policy

year terms were established in the and less on campaigning, would Constitution of 1876 because of free candidates from special inthat unpopular Reconstruction period and the desire to weaken expenses would be reduced and state government.

Connally once told county judges the longer terms resulted in "increased efficiency, effectiveness and stability . .

But a 1962 poll (Belden) indicated 56 per cent of Texans favored limiting the state chief executive to two terms, or four years, in office and only 35 per cent opposed such a limitation. In a 1967 poll (Louis) of Democratic party primary voters, 65 per cent favored two terms, or four years.

Thirty-nine states elect governors for four years, but this figure has not changed since Texas turned down the proposal in 1965.

Supporters claim four-year four-year terms for a few years terms would enable governors to

terest groups because campaign would generate interest in state politics by setting the election for governor in off-presidential election years.

Opponents argue that longer terms would give a governor too much power because after two terms, or eight years, he could dominate every appointive state board or commission by placing his own friends on them. Also, opponents say, the guarantee of a longer term would make a governor less responsive to public opinion.

But the central fear of fouryear terms appears to be the hesitancy of the people to stake the leadership of the state for four years on a single election. What, they might ask, if we got a dud? They would be stuck with him for four years, not just two.
