

CADET SLOUCH by Jim Earle

"If this doesn't work, I'm going to fake back trouble!"

Senate to Consider Bike Fee

(Continued from page 1)

"This is the only significant part of the yell leader policy left to be decided," said Campbell.

The Day Care Center Board will be presented for Senate approval. Virginia Leahey, junior elementary education major with a certification in kindergarten, was approved for Board chairman at the Nov. 2 Senate meeting.

Board members up for Senate approval are Gary Drake, graduate working on masters in agricultural economics; Randy Ross, junior business management major; Dr. Ben M. Crouch, Sociology Dept.; Dr. Sara Dawn Smith, Education Psychology Dept.; Dr. Walter F. Stenning, Curriculum and Instruction and Educational Psychology Depts.; Hubert Beck, campus minister for the Lutheran Student Center; and Joe Sawyer, president of the University National Bank.

One more community member will be presented at the meeting.

A book exchange program will be presented by Fred Campbell, chairman of rules and regulations committee and Ron Bento, chair-

man of student services. This program would help students sell books at a better price.

In essence, a temporary office would be opened in the student center so students may call in and leave word they have a book for sale. At the same time students may call in looking for a book and be referred to a person selling the book.

The Senate will also discuss supplementary student government funds which is an additional request for money from the reserve fund of student service fees.

"For the past two years, the student government has received an annual \$5,000 grant which they did not receive this year," said Kruse. "Therefore the student government budget has been cut and the Exchange Store Advisory Committee has suggested we ask for money from the reserve fund."

The amount being asked for is \$2,500.

One under-graduate off-campus senator position will be filled and the vacancies of graduate business and graduate engineering positions are to be announced.

Batt News Summary

By The Associated Press

The threat of another shutdown of worldwide air service was raised Wednesday by pilots unhappy with governmental anti-hijack efforts. Meanwhile, officials in Washington and Havana indicated the possibility of new talks aimed at easing the air piracy problem.

Four days after a hijacked Southern Airways jetliner was forced to Cuba with 31 persons aboard, the president of the Air Line Pilots Association, said he believes a complete shutdown of world air traffic the only route left open to pilots seeking tougher measures to prevent hijacks.

KENNETT SQUARE, Pa.—Two policemen were shot and killed early Wednesday behind police headquarters in what was called an ambush by "a cool assassin."

Dist. Atty. William H. Lamb of Chester County said: "This was a brutal assassination-type killing . . . no casual type of killing . . . a planned, deliberate attack . . . the work of a cool assassin."

DA NANG, Vietnam—A rank-

Air Pollution Course Offered

The Department of Meteorology will offer a new course on the meteorological aspects of air pollution during the spring semester, 1973.

Met. 463 will meet three times each week, will have a credit value of three semester hours, and will be taught without a laboratory.

Course content will emphasize the problems of air pollution in the global atmosphere and will consider environmental cycles, waste products in the biosphere, atmospheric pollution, natural concentrations of atmospheric constituents, pollution sources, atmospheric transport, pollution sinks, effects of pollution, monitoring and surveillance and management of air quality.

While the majority of the course will be devoted to atmospheric transport and diffusion, the course will stress an environmental aspect of pollution with emphasis on sources, motions, and sinks of pollutants.

"Meteorology and Atomic Energy" by D. H. Slade will be the basic text with additional articles selected from journals.

No prerequisite in meteorology is required, but it will be desirable to have had a mathematics course through introductory differential equations.

For additional information contact Robert C. Runnels, 845-5921, or the office of the Department of Meteorology at 845-6011.

official in the American pacification program has resigned his job "in sheer disgust with the leadership and the philosophy being applied" to what he calls a much-maligned cause.

Willard E. Chambers said in his final report to the pacification agency: "I am no longer willing to remain patient with the parade of overranked nonentities whose actions reflect their own ignorance of Vietnam, of the peculiarities of a people's war and of the requirements of counterinsurgency."

WASHINGTON—Democratic leaders say the party should look more to its governors for direction in the aftermath of the election landslide which buried George McGovern.

An Associated Press survey of state Democratic chairmen, National Committee members, state legislators, governors and members of Congress showed strong sentiment for diverting some of the party's focus from Washington to the grassroots.

KANSAS CITY—Sen. Thomas F. Eagleton said Wednesday that he felt some members of the George McGovern staff made him a target of "scapegoatism" toward the end of McGovern's unsuccessful presidential campaign.

Eagleton stepped aside as the party's vice presidential candidate after disclosure about his medical history.

WASHINGTON—A sharp rise in the nation's balance-of-payments deficit brought bad economic news for the Nixon administration Wednesday but a plus was registered by another solid increase in the rate of industrial production.

WASHINGTON—Rep. Les Aspin said Wednesday govern-

ment and congressional inspectors found insanitary operating conditions in plants of 39 food firms including one of the Pepsi Cola Co. and one of Thomas J. Lipton Tea Co.

The Wisconsin Democrat quoted the General Accounting Office as saying 22 of the plants, including one of Coca Cola and one of Lilly Ice Cream, were "operating under serious insanitary conditions having potential for causing or already having caused product contamination."

UNITED NATIONS, N. Y.—U. S. Ambassador George Bush pledged Wednesday night that the United States will continue generous voluntary financial support for U.N. activities. He insisted, however, that the U.S. contribution for the regular budget be reduced to 25 per cent.

Bush issued a statement on the eve of opening discussion in the General Assembly's financial committee of the U.S. request for the cut in its assessment. The United States pays 31½ per cent of the budget, by far the largest assessment. The Soviet Union is second with 14.18 per cent.

Role Of Women Topic Of Dean's Speech Friday

Dean of Women Toby Schreiber will speak Friday noon in the Memorial Student Center Ballroom as a part of Great Issues.

The topic of Schreiber's short talk will be "The Future Role of Women at Texas A&M University." Following her talk will be a question and answer period. At this time pom-pom girls, sororities and other controversial issues handled by her office will be brought up for discussion.
