## Senate Proposes Defense Cut

ate Appropriations Committee proposed \$1-billion cut in funds proposed Tuesday that \$1.55 billion be cut from defense spending and \$771 million be added for domestic social programs in a reordered budget \$1.6 billion below President Nixon's recommenda-

The budget outline, presented by Chairman John L. McClellan, D-Ark., in a Senate speech, was the first detailed effort to define where cuts and increases should come under the spending ceiling certain to be enacted this year.

The proposed changes meet the goal of congressional Democratic leaders of cutting defense spending to finance increases for domestic social programs while staying within the spending limit proposed by Nixon.

Checks with several of the appropriations subcommittees indicated that many of the figures in the proposal were estimates, based on percentage reductions or target figures.

WASHINGTON (AP)-The Sen- mittee aide said, noting that a billion to be spent. for housing, space, science and veterans represented a 5 per cent reduction in its programs. The aide said more than half was intended to come from cutting out the space shuttle, the rest from other programs.

> The figures presented by the appropriations chairman were divided by subcommittee areas without any specific breakdowns

The are the major proposed cutbacks:

-Defense, \$3 billion in appropriations of which \$1.55 billion would be spent in fiscal 1974.

-Foreign operations including aid, \$1.3 billion in appropriations, \$161 million to be spent.

-Housing and Urban Development, space, science and veterans,

Total funds to be appropriated in fiscal 1974, some to be spent only in later years would be \$285.6 billion, compared with \$288 billion in the Nixon budget.

## Lower Insurance Rates Foreseen

By BILL BOYKIN

**Texas Press Association** AUSTIN - Car and home owners had encouraging promises of lower insurance rates from high-

level sources last week. \* Gov. Dolph Briscoe threw his weight behind a modified form of competitive auto insurance rating, subject of an unsuccessful special

legislative session last year. \* The State Board of Insurance issued new rules and regulations which it pledged would bring lower rates for fire, homeowners and extended coverage policies.

Basically, what both plans would do is permit companies to deviate from the standard rates issued annually by the Board.

A bill introduced in the House and Senate undertook to permit the auto deviations - either below or above the standard rate on showing that companies could make the change without endangering their solvency.

Companies would apply to the Board for deviated rates, and reductions (or increases) would be permitted if they meet tests of fairness to customers and financial stability for the companies.

While Briscoe expressed confidence the bill, if enacted, would mean substantial rate cuts, some remained skeptical that the socalled high-risk driver wouldn't pay more under it.

Rate deviations on property insurance are permissible under state law and can be implemented by the Board's regulations.

Meanwhile, the House concurred in Senate amendments and sent to Briscoe HB 143 which would authorize \$2,500 medical payment and loss-of-income coverage for auto passengers. The coverage would be included in all liability policies unless specifically rejected. Whether the new law would help lower or raise rates was a subject of debate.
