Fife To Become Acting Biology Department Head

Dr. William P. Fife will be-
come acting head of the Biology
Department Sept. 1, announced
Dr. J. M. Prescott, dean of
science.

Fife succeeds Dr. Johannes van
Overbeek, who is retiring from
administrative duties but will
continue to teach.

Dean Prescott noted Dr. Fife
will be serving as acting head of
the department for the second
time, having held the position
prior to Dr. van Overbeek's ar-
rival in 1967.

"We are indebted to Dr. Fife
for agreeing to take on these
additional administrative respon-
sibilities, especially in light of
his extensive research commit-
ments," the dean noted. "We also
are grateful to Dr. van Overbeek
for his dedicated efforts during
the past seven years."

Dr. Fife came to A&M in 1966
as professor of biology. Prior to
joining the faculty, he served as
a colonel in the Air Force and
was assistant chief of the Aero-
space Medical Research Division,
USAF School of Aerospace
Medicine.

Fife's 28 years military service
included two years as assist-
ant air attaché to Russia. He
holds more than 15 decorations
and medals, including the Legion
of Merit, for outstanding service.

The Plymouth, Ind. native
earned his doctorate in physiologi-
cal chemistry at Ohio State University. He
has received degrees from George
Washington University, Oregon
University and the University of
Washington.

Dr. Fife is actively engaged in
a research program dealing with
cardiovascular physiology. He
recently studied the effects of
prolonged submersion on two
teams of divers as well as on
himself during a 10-day stay be-
neath the ocean's surface.
