

FBI Report Supplied

WASHINGTON (AP) — Atty. Gen. Elliot L. Richardson Tuesday agreed to supply an FBI wiretap report to senior senators in a move that could smooth the confirmation of Henry A. Kissinger as secretary of State.

Sens. Clifford P. Case, R-N.J., and John Sparkman, D-Ala., of the Foreign Relations Committee were set to meet at the Capitol with Richardson and his acting deputy, William D. Ruckelshaus.

"As the temper seems now I don't think there will be an impasse," Case said.

Meanwhile, committee chairman J. W. Fulbright, D-Ark., said the committee would vote Tuesday on Kissinger's nomination to succeed William P. Rogers.

Case last week proposed that no action be taken until the FBI submitted summaries of the wiretapes reportedly made between 1969 and 1971 with Kissinger's acquiescence. Thirteen Nixon administration officials, including members of the National Security Council staff, and four newsmen were the targets of the wiretapes.

Kissinger defended the "bugging" as a painful but necessary step to plug leaking to the press of sensitive material. He declined to furnish details.

In his third day as a witness,

Kissinger assured the committee that he did not participate in a plot by White House "plumbers" to connect the late President John F. Kennedy to the 1963 assassination of South Vietnam President Ngo Dinh Diem.

"It is a very dangerous business for one administration to begin investigating its predecessor," he said.

Fulbright announced after the 3½-hour session that the hearings will resume Friday with testimony from public witnesses. The chairman said Kissinger would be quizzed again Monday in secret.

Record Corn Crop Foreseen

WASHINGTON (AP) — The nation's corn crop, a key to consumer food supplies in 1974, will be a record 5.768 billion bushels this year, up 4 per cent from last year and 2 per cent more than forecast in August, the Agriculture Department said Tuesday.

Other major grain and oilseed crops, sorely needed to replenish dwindling reserves and stimulate livestock production, also are setting harvest records.

But foreign buyers, also wanting grain and other commodities, continue to bid up prices and keep supplies tight for American consumers.

Wheat production this year, for example, will be a record 1.727 billion bushels, up 12 per cent from last year, the department's

Crop Reporting Board said. That was up 1 per cent from indications in August.

Exporters, meanwhile, say they have shipped or booked for delivery more than 1.3 billion bushels of wheat to foreign buyers through mid-1974, about the time next year's harvest is ready.

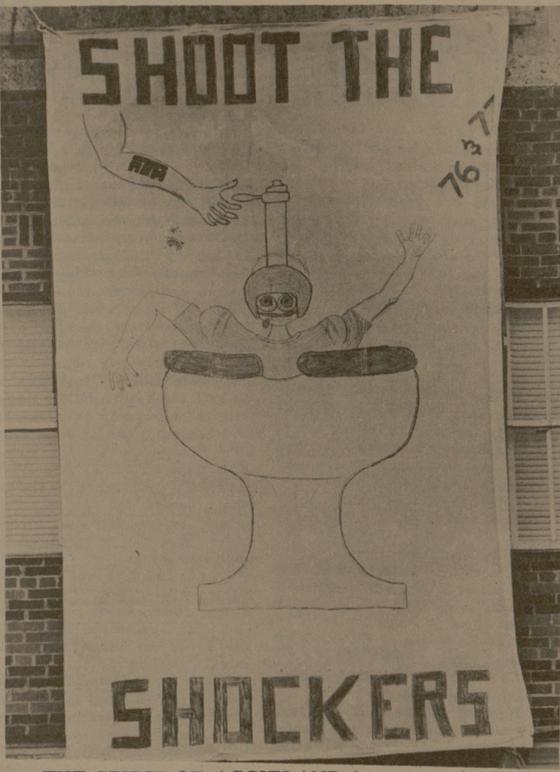

Thus, with wheat exports taking more than three-fourths of this year's crop, prices for the bread grain are likely to remain relatively high through at least the first half of 1974.

Similar demands are being put on corn, other feed grains and soybeans.

Coupled with domestic needs of about 4.6 billion bushels, the listed exports point to a total require-

ment of around 5.8 billion bushels during the corn marketing year which begins Oct. 1.

In effect, the report of new crop records means little by itself. Most important will be how actual exports shape up and how much of the vital commodities will remain to feed U.S. cattle, hogs and chickens next winter and through much of 1974.

Coastal States Gas Corp. Board Ordered Rearranged by Judge

FORT WORTH (AP) — A federal judge ordered rearrangement of the board of the Coastal States Gas Corp. Tuesday after the Securities and Exchange Commission accused the company of fraud which led to gas shortages in 410 Texas cities.

Coastal States did not contest the complaint filed by the SEC.

U.S. District Court Judge Carl Sue of Houston ordered the company to "stack" its board of directors with a majority of members satisfactory to the court and the SEC.

Also named in the complaint were two Coastal States subsidiaries, the Coastal States Gas Producing Co. and the Lo-Vaca Gath-

ering Co., and board chairman Oscar S. Wyatt Jr.

SEC regional administrator Robert Watson of Fort Worth said the complaint was based on an investigation begun June 1 concerning gas and oil dealings and energy shortages.

The probe of Coastal States and other firms will continue, Watson said. He said the once stable but lately troubled firm "happens to be high on the list because of the severity of its problems."

San Antonio and Austin were among Coastal States customers that experienced power shortages last year.

Dates Mums Are Available
Mum corsages for upcoming football games have gone on sale across the campus by the Floriculture Club.

Corsage orders will be sold at the Floriculture Greenhouse on Wednesday, Thursday and Friday from 8 a.m. to 5 p.m. At the same times, orders will be taken on the main floor of the Memorial Student Center. A booth will be set up in front of Sbis Dining Hall on Wednesday, Thursday and Friday from 4 to 6 p.m.

Single mum corsages complete with maroon and white streamers and small decorations sell for \$2.25. An identical corsage with an additional mum costs \$3.25. For \$4.50, students can buy corsages with maroon and white mums.

Mums may be picked up at the Greenhouse in front of Krueger-Dunn all day Friday and from 10 a.m. to noon Saturday.

IT'S TIME TO GET WRAPPED UP..
IN OUR COAT COLLECTION!

the new look...
the part-coat that is
perfect with skirts
and all casual
wear, too!

a. — Split cowhide
in burnt orange
and chocolate
with topstitched
detail on our 31" double
breasted part-coat...
perfect for fall foot-
ball games! 7-13 \$80.

b. — the new shirred
effect waistband
with self tie belt
creates a sporty look
in gold or dark chocolate
split cowhide! 7-15 \$95.

c. — 100% imported camel hair is designed to
slenderize in this 32" single breasted part
coat, with patch pockets & buckle trim!
6-18 \$95. (camel color)

d. — genuine leather
with french fake
tissavel raccoon,
in a 33" length part
coat... rich in our
new fall brown!
7-15 — \$125.
