LUMINOUS PROCURESS

DIRECTED BY STEVEN ARNOLD

A PARAMOUR PICTURES PRODUCTION FROM NEW LINE CINEMA

JULIET OF THE SPIRITS

With Giulietta Masina, Mario Pisu, Sandra Milo,
Valentina Cortese, Lou Gilbert.

Best Foreign Film—New York Film Critics Award

Fellini's first color feature has been called "the female 8 1/2," and anticipated the Women's Lib movement. The film explores the doubts, fantasies and childhood fears of a housewife who, approaching middle age, begins to suspect that her husband is cheating on her. Confirming the guilt of the man around whom she has built her entire life, Juliet goes through a shattering identity crisis.

"... a masterwork, certainly one of the most beautiful and stimulating films ever made... a never-ending swirl of mood and imagery, a blend of brilliant delineations of time and place in exquisite hues with every nuance clarified by Nino Rota's melodic and haunting score."
—Judith Crist, New York Herald Tribune
