

DEAR ANN LANDERS. EVERY TIME THE PHONE RINGS, MY HUSBAND . . . .

Editor's Notes

Last Friday, when the streaker pictures were published, I was told that unless the girl's exposed breast in one picture was concealed and the star covering a student's genitals in another was enlarged that those two photos would not be used. It was a result of this incident that I charged Assistant Director of Student Publications Lane Stephenson (who reads Battalion copy in a "counsel and advisery" capacity) with prior restraint and censorship at Tuesday's Student Publications Board meeting.

After much prodding, the editor's right to control the content of the newspaper was affirmed at that meeting. However, I think it is important for all students to know exactly where their newspaper stands in terms of editorial

The Rules and Regs handbook of this university explicitly states: "The Director of Student Publications shall counsel and advise all student editors, but neither the Director of Student Publications nor the Student Publications Board shall determine the content of publications."

The courts have backed this up. They have answered questions like these:

Does the First Amendment apply to students?

Supreme Court judge Abe Fortas ruled in 1969 that "First Amendment rights, applied in light of the special characteristics of the school environment, are available to teachers and students. It can hardly be argued that either students or teachers shed their constitutional rights to freedom of speech or expression at the schoolhouse gate."

Can't a state university control a newspaper operating within its jurisdiction?

District judge Alfred A. Arraj ruled in 1971 that "the state is not necessarily the unfettered master of all it creates. Having established a particular forum for expression, officials may not then place limitations upon the use of that forum which interferes with protected speech and are not justified by an overriding state interest."

Can the university stop the presses by cutting of funding?

In the case of Antonelli vs. Hammond the district court ruled that a "Massachusetts statute giving the president of a state college power over allocation of student activity fees (at A&M, the Board of Directors has that power) and providing that they should be expended as the president might direct in furtherance of activities . . . and once that determination has been made, expenditure is mandatory."

It is important that the student body consider The Battalion as a student newspaper acting in student interests free of administrative control. It is equally important that administrators see it that way.

## Reader 'shocked' by MSC movies

mitments.

column inches taken up by lengthy ones we are asking that letters be double-spaced type written and that they be held to a maximum of 300 words-Ed.

At this time I wish to register a sharp protest of some films being shown by the MSC. Just a couple of weeks ago, I was shocked to see a movie which emulated, among other things marriage for money, adultery, murder, throat cutting, robbery, cursing God, rape, prostitution, beating with a horse whip, black market profiteering and even more. The movie: Gone With The Wind. I was also shocked and dismayed at another piece of garbage which encouraged prostitution, marijuana use, premarital or just recreational sex, a nude scene with a man and a woman, degradation of the use of a college education, sneered at classical music and even denounced literature as an art form. The movie: The Owl and The

A performer on stage advocated use of alcohol, smiled at the thought of a riot breaking out, degraded the woman's position in the sex act, encouraged recreational sex, travestied a beautiful memorial song into a little ditty, and even worse ridiculed all learning as "a Bore." WHO? Roy Clark. Needless to say, you can't please everyone. BUT the MSC Council has a responsibility to show anything and everything that can be run across as an educational experience. They are not entitled to reject ANY program which some members of the student body may wish to see. Any other organization may show or not show what they please. WHY is the MSC different? Because we must all pay for MSC programming through our Services Fees (of which the MSC gets just less than half) or we face suspension from the university. YOU ARE REQUIRED BY THE LAW OF THE STATE OF TEXAS TO PAY STUDENT SERVICES FEES WHETHER OR NOT YOU AGREE WITH THE USE TO WHICH THEY ARE PUT. No other organization has this ability. Saddle and Sirloin, Economics Club, Lincoln Union Debating,

volved in typing letters and the MSC have no source of funding other than membership dues, gate admissions and donations or grants. So, if you disagree with any of them, you just quit going and it costs you nothing. But if you never went to another MSC program, you would still have to put out about \$8 per semester in your services fee to support them. So they cannot limit what members of the student body may see since they do not limit what members of the student body must pay for them. So, MSC, do one or the other of these: Quit censoring with our stolen monies or make your fees optional (the administration can do this for you) and then you can truly be like any other organization.

I am tired of having my money stolen by a group which uses "responsibility" to deny access to experiences which can stimulate thought, evoke a laugh, bring tears to the eyes, or even a sick feeling to the stomach. OPTION-AL FEES FOR THE MSC!

> \* \* \* Backs Stark

Is an individual only right and open-minded when he agrees with others? And how is it that a few can suggest that their opinions represent the majority of students and even if they don't that these same few are right? I'm talking about those who complain their right to a "free exchange of ideas" are being violated when it seems what they really want is license to do anything, not free-

Well, I believe it's time more students who realize that this is also their university and that they have rights, too, should start standing up for them. Therefore, I want to go on record as fully supporting Mr. Stark and those who voted against "Pink Flamingos" because of its content (as per Batt March 26). By the way,

Because of the man-hours in- all 380 organizations outside the do you have to see someone eat- pusher bids for attention, we ing dog excrement to know that it's dirty and disgusting?

Uniqueness

A&M has long been noted for being unique in its traditions and in the behavior of its student body. Other schools have their riots, demonstrations, and other idiotic forms of dissension; we at A&M have managed to retain the ability to reason and act in an adult manner, in spite of the fact that the entire Southwest Conference seems out to get us. Well, jealousy manifests itself in a variety of forms. We've always been able to hold our heads up high at any competition or sports event, even when we get outscored, because we know, deep down in our hearts, that we are different, and that we're superior, regardless of what those other schools think,

The front of the Academic building, where Sully stands, is where we gather for Silver Taps, to honor Ags that have died. Besides being an insult to the intelligence of the student body, (such acts are a reflection on ALL of us, not just the fools who participate), the "Streakin" Thursday night was a desecration of grounds that should be holy to all of us. As for the mob action that followed, while President Williams does not by any means make the top ten in my personal list of heroes, he IS our president, and, in my opinion, deserves the respect accorded that position.

In spite of the "fun and games" attitude of many students and the milksop indulgence erations know nothing about of some liberal faculty members, I think we must all realize that Thursday's incident was both immature and degrading.

As for our superiority, Aggies, if we allow the continuation of these "College Harry," cookie-

nine-month leases

Having been bowlers for 12 years and members of the Texas A&M bowling team for the past three years, we are naturally concerned with the bowling facilities on the A&M campus.

In the fall of 1953, Texas A&M installed eight machines, these machines with modifications are located in the MSC lanes. These machines, along with the small number of lanes, in no way come close to accommodating today's 18,000 students. These totally inferior machines continually break

Also, the lane conditions are extremely bad. The approaches are always sticky and lane maintenance in general is extremely poor. Members of the Texas Intercollegiate Bowling Conference (TIBC) have told us that the MSC lanes were far below averconference. Professional bowler Bobby Cooper stated that the MSC lanes were far below evarage. Newell Holland, secretary of the Bryan-College Station Bowling Association, vowed never again to bowl in the MSC.

In addition, the Texas A&M bowling team, one of the top teams in the southern U.S., receives little consideration from the MSC. We have no say about our budget, which is considerably too small, and were even refused \$1.80 to wash our bowling shirts.

All these complaints indicate that the people who manage the bowling lanes and oversee its opbowling and, to put it bluntly, they just don't give a damn one way or the other. This is an unfortunate attitude on the part of

> Douglas Ocker Bill Kettler

One would hope that loa "The g

lords would show some comp We the for their student tenant titution, provide the option of a scorovide length lease. After all, the rounding apartment co are largely dependent on students as tenants, and rely on the university shu to make their apartmer attractive to students.

Already, the Fair Housin mission has received man from individuals unhap their renting situations, an ing to change apartment binding nine-month lease h the disgruntled tenants to where they don't wish to live has served only to increa volume of complaints.

Barcelona Apartments, w in the process of converting nine-month lease, was for quite a showcase for its policy. The lease used to a one-month basis, and was matically renewed unless the two parties designated wise. This allowed eith landlord or the tenant to d the renting situation easily. ever, Barcelona Apartm one of the apartment com which may convert to a month lease policy.

It is easy to see why a land would desire a longer least cause it gives him greater ity about occupancy of his s ments. He doesn't need to about finding new tenants. Barcelona Apartments has problem in this area for the ap ments are so well-liked that have always been close to per cent full.

It also should be pointed that for the second semester, university's enrollment usu drops. If all off-campus stud are committed to nine-m leases, two serious problems a Those students who leave at ing ler are either themselves stuck College Station owing rent | y plea ments on an apartment, or leave their roommate holding bag. The university may s as well for there would be flexibility to fill empty rooms which may appear.
