TAMU GEOGRAPHICAL SOCIETY meets at 7:30 p.m. in room 105 of the Geosciences Building.
SAN ANTONIO HOMETOWN CLUB meets at 7:30 p.m. in room 301 of the Rudder Tower. Thanksgiving and Christmas parties will be discussed.
GEOLOGY DEPARTMENT AND COLLEGE OF GEOSCIENCES sponsors a lecture on "Chemical Fractionation During the Condensation of the Solar System" by Prof. Lawrence Grossman of

the University of Chicago at 7:30 p.m. in room 112 of the Oceanography-Meteorology Building.
FRIDAY
OCEANOGRAPHY SEMINAR on radioactive tracing tools features Dr. Richard Ku of the University of Southern California at 3:30 p.m. in room 112 of the Oceanography-Meteorology Building.
CHESS CLUB meets at 7 p.m. in room 504 of the Rudder Tower.
SATURDAY
IRANIAN STUDENTS ASSOCIATION meets at 7 p.m. in room 114 of the Herman Heep Building.
AUXILIARY TO THE STUDENT CHAPTER of the American Veterinary Medical Association will sponsor an old-fashioned bazaar from 9 a.m. to 5:30 p.m. at the Manor East Mall. Proceeds will be used for community service projects.
TAMU FENCING CLUB will host the TAMU Invitational Collegiate Fencing Tournament at 10 a.m. in the DeWare Field House.

Solon knocks environmental rules

State Rep. Ray Hutchison of Dallas, spoke at a Political Forum program and took a swipe at the new Environmental Protection Agency (EPA) rules. He said they would sound a temporary death knell for the construction industry in Texas.
 The solon from District 33Q defended his resistance of so-called "citizen's suit" environmental legislation last session. Hutchison said, the next one or two sessions of the Texas Legislature will be a "period of philosophical challenge."
 Hutchison said the proposed

EPA "indirect source rules" that go into effect Jan. 1 do not have a wide enough scope. The rules require a permit from the EPA before construction of any project by any group (public or private) that would draw as many as 1,000 cars.
 "This is the first time the federal bureaucracy in this country has gone so far as to assume they can tell you how many people can go to a new church, a football game in a new stadium or can drive on a new street," Hutchison said.

The rules will give a death blow to construction in Texas, at least temporarily, he said.
 In defending his opposition to citizen suits, he said it was the same philosophy—that one person could play havoc with a whole economy just to get at one source of pollution.
 The law as it read would allow any one person to sue alleged polluters without regard for the overall economic impact of the area or whether the party were even guilty as a polluter or not, said Hutchison.

Education and constitutional revision will be two other major areas of philosophical challenge in the next session, he said.
 Hutchison, voted one of the top 10 state legislators by the Texas Observer, defended the constitution drawn up by the legislators as a "product" and he commented he would like the legislature to finish the job.
 He called for reason and compromise in establishing a list of protective environmental laws.

Books rejected, publisher claims libel, slander

AUSTIN, Tex. (AP) — The Economy Co., a publisher whose seventh and eighth grade readers were unanimously rejected for use in Texas schools, filed a \$30 million libel and slander suit Tuesday against three women who had attacked the books.
 Named as defendants in the state district court suit were Mrs. Billy C. Hutchison of Fort Worth, Linda Eichblatt of Clar Lake City and Mrs. R. C. Bearden Jr. of San Angelo.
 The company's petition said the women's opposition to the books before the State Board of Education Nov. 8 caused the failure of the volumes to win adoption. This, the firm said, caused not only a loss in sales but also damage to The Economy Co.'s national reputation.
 Mrs. Hutchison, speaking for herself, and Mrs. Bearden, representing the Daughters of the American Revolution, contended mainly that the books contained too much violence and crime. Ms. Eichblatt, speaking for a feminist group, agreed and also said the books were "sexist."

Earlier, the books had been recommended by the State Textbook Committee, a group of 15 educators appointed by the State Board of Education to screen proposed texts.
 The petition says the three women "demonstrated their own racism, bigotry, sexism, prejudice and provincialism by attacking specifically and directly selections written both by and about members of racial minority groups."
 It alleges the defendants "were motivated by malice and deliberately made false statements which were intended to and did arouse public opinion to the extent that the elected members of the State Board of Education succumbed to the pressure" and rejected the books.

Court snubs plea by Sierra Club

AUSTIN (AP) — State District Court Judge Jim Myers rejected a plea by the Sierra Club and others Tuesday to delay construction of the controversial North Expressway in San Antonio.
 The Sierra Club is attempting to preserve Olmos Basin Parklands, a nature trail on the city's north side.
 Myers said he would issue a written statement of facts later.
