## Fight set for tomorrow in Manila

# Ali says no contest; Joe ready

By ED SCHUYLER JR.  
Associated Press

MANILA — Muhammad Ali vs. Joe Frazier, one of boxing's greatest rivalries, is set to close here Wednesday morning, 4½ years after it first began 11,000 miles away.

Frazier, then heavyweight champion, knocked Ali down in the 15th round and won the first fight by

unanimous decision March 8, 1971 at Madison Square Garden in New York.

Ali evened the series with a unanimous 12-round decision Jan. 28, 1974, also in the Garden. Neither man was champion at the time.

And Ali is about a 2-1 favorite to win what is expected to be the finale, a scheduled 15-rounder at the 26,000-seat Philippine Coliseum in suburban Quezon City.

The fight is scheduled for 10:45 a.m. Manila time and will be seen on closed-circuit television in the United States at 10:45 p.m., EDT, Tuesday.

The referee has not been named, but Jay Edson of Phoenix, Ariz., is considered the leading candidate.

Edson refereed George Foreman's controversial one-round knockout of Joe "King" Roman in Tokyo. Films showed that Foreman hit Roman while Roman was down.

Two other possible referees are Zack Clayton of Philadelphia, who handled the African fight in which Ali regained the title by knocking out Foreman, and Harry Gibbs of Britain, who officiated in Frazier's decision win over Joe Bugner.

Ali feels that a referee won't be needed for long.

"The first combination in the first minute or two of the first round and the fight could have an early end," the champion said. "The first round of the fight will be my 42nd this year."

Ali has made much of his activity, and Frazier's inactivity. Ali opened 1975, five months after beating Frazier, by stopping Chuck Wepner in the 15th round March 24 in Cleveland. He then stopped Ron Lyle in the 11th round May 16 at Las Vegas, Nev., and outpointed Joe Bugner over 15 rounds July 1 in Kuala Lumpur, Malaysia.

Frazier has fought just once this year, stopping Jimmy Ellis in the ninth round March 2 at Melbourne, Australia, and has fought only 11 rounds since the second Ali fight.

"He wants this more than he's ever wanted anything," said trainer Eddie Futch. "I like Joe either way — a decision or a knockout," said George Benton, a former top middleweight who has been working with Frazier since before last year's fight with Quarry.

If Frazier does become the third man ever to regain the heavyweight championship — Floyd Patterson and Ali have done it — he said he could see himself retiring as champion. But his attorney, Bruce Wright, pointed out that the economics of big-time fighting made it difficult for a man to retire while he is champion.

Ali, at 33, two years older than Frazier, said he plans one more fight after beating Frazier. He said that he would like to meet the win-

ner of a bout between Foreman and Ken Norton.

Wednesday's loser probably will retire, especially if the loser is Frazier.

The fight will be the 51st in Ali's pro career, which began in 1960 and was interrupted from March 22, 1967, to Oct. 26, 1970, by his later-overturned conviction for refusing the U.S. military draft.

He has won 48 fights, 34 by knockout, against two losses — Frazier and Norton. He also has won all 15 title fights he has been in except for the first Frazier match. His first title bout victory was the upset of Sonny Liston Feb. 25, 1964.

Frazier turned pro in 1965 and has won 32 fights, 27 by knockout, against two losses — Ali and Foreman, to whom he lost the championship in Kingston, Jamaica, Jan. 22, 1973. He won universal championship recognition by stopping Jimmy Ellis in five rounds in New York, Feb. 16, 1970, but didn't really cement his title claim until he

beat Ali.

Both fighters completed the training Monday.

The champion's guarantee is \$1 million but he could collect more since he has an option of being 43 per cent of all income if greater than his guarantee. It means he has earned \$9.5 million in purses in 1975 and \$14.5 million in purses over the last 11 months. The latter figure includes the \$5 million he got for fighting Foreman in Manila last Oct. 30.

Frazier is getting \$2 million against an option of 22 per cent. The only figures mentioned by the challenger after his workout concerned weight. He said he expected to enter the ring at about 212 pounds.

At the official weigh-in Saturday afternoon Frazier weighed 215, but it was strictly ceremonial, coming 3½ days before the fight. He weighed 224½ Saturday, one pound less than he officially scales for the Bugner bout in Malaysia.

## Bryan must forfeit first three games

Associated Press

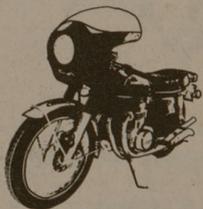

BRYAN, Tex. — Bryan High School, ranked No. 1 in Class 4A of The Associated Press Schoolboy Football Poll, must forfeit its first three games of the season because fullback Richard Harris is ineligible, school officials said Monday.

Bryan Coach Merrill Green said a routine check of all players records revealed that Harris, a starting fullback on offense and noseguard on defense, was 15 days too old.

Under University Interscholastic League rules, a player is ineligible if he becomes 19 years old prior to Sept. 2.

Bryan, which opens Dist. 15-4A play this week against No. 3 ranked Killeen, had registered victories over Beaumont Hebert, 28-13, Conroe, 28-15 and Texas City, 55-17.

Harris had gained 206 yards on 31 carries and caught one pass for 52 yards in Bryan's first three games. Harris was a second team all-state nose guard last year.

The Hewlett-Packard HP-25 Scientific Programmable \$195.00\*

## The calculations you face require no less.

Today, even so-called "non-technical" courses (psych, soc, bus ad, to name 3) require a variety of technical calculations—complicated calculations that become a whole lot easier when you have a powerful pocket calculator.

Not surprisingly, there are quite a few such calculators around, but ours stand apart, and ahead. We started it all when we introduced the world's first scientific pocket calculator back in 1972, and we've shown the way ever since.

The calculators you see here are our newest, the first of our second generation. Both offer you technology you probably won't find in competitive calculators for some time to come, if ever.

Our HP-21 performs all arithmetic, log and trig calculations, including rectangular/polar conversions and common antilog evaluations.

Its display is fully formatted, so you can choose between fixed decimal and scientific notation.

Our HP-25 does all that—and much, much more. It's programmable, which means it can solve automatically the countless repetitive problems every science and engineering student faces.

With an HP-25, you enter the keystrokes necessary to solve the problem only once. Thereafter, you just enter the variables and press the Run/Stop key for an almost instant answer accurate to 10 digits.

Before you invest in a lesser machine, by all means do two things: ask your instructors about the calculations their courses require; and see for yourself how effortlessly our calculators handle them.

Both the HP-21 and HP-25 are almost certainly on display at your bookstore. If not, call us, toll-free, at 800-538-7922 (in Calif. 800-662-9862) for the name of an HP dealer near you.
