The long nights begin when light brary? You remember that starting this Sunday the library stays open Books and notes covered with 24 hours a day until Wednesday

> As you walk through the filled cubbyholes you find an empty space. After setting yourself and your books down, you try to remain alert to fend off anyone who wants to steal your chair. Then, when you have established your territory, you wondering if that girl in the lib open your books and start reading. Slowly your head nods and as you open your eyes to stay awake, the last thing you see before your face hits the book is Pauling's chemical Station (The one in Bryan is bonding theory.
