

# Instructor Evaluations

The purpose of Instructor Evaluations is to assist you in gaining the most from the educational resources available at Texas A&M University by acquainting you with other students' opinions of the teachers they have had. This program was designed strictly for student usage and convenience, and not for the university administration. Information was obtained from the questionnaire reprinted on this page. The evaluation was conducted on a voluntary basis, however some instructors were unable to participate because of the inherent nature of the courses they taught, because of limited course schedules, or because of various other reasons.

The information contained in this issue is based on evaluations performed during the fall semester 1975. The information is divided into the different departments, with courses listed in sequence.

Values have been assigned to the responses for questions 6-15 as follows:

- |                          |              |
|--------------------------|--------------|
| <b>STRONGLY AGREE</b>    | <b>A — 1</b> |
| <b>SLIGHTLY AGREE</b>    | <b>B — 2</b> |
| <b>NEUTRAL</b>           | <b>C — 3</b> |
| <b>SLIGHTLY DISAGREE</b> | <b>D — 4</b> |
| <b>STRONGLY DISAGREE</b> | <b>E — 5</b> |

A mean and standard deviation have been completed for each question. A mean of 2.5 would indicate that the instructor had been rated halfway between slightly agree and neutral. A large standard deviation would indicate a wide variance of opinions among the students.

A further breakdown is provided in the distinction between evaluations performed by students enrolled in that major field and students from other majors.
