offered in course

See films for credit! Thrills, ls, Metaphysics!" read the ght yellow posters appearing on letin boards around the campus. The signs refer to English course A, a three hour course taught by of. Harriette Andreadis.

Andreadis says the course is being advertised, because last semester llment totalled only 20 stunsarelind dents. Next fall will be the third semester the course has been taught at A&M.

centrans
Tm trying to instill an appreciamentmust ton of how films work and how they
affect us," Andreadis says.

She says she believes one reason for the low enrollment in the course because people don't know about

"I also believe that some students other departments, such as enineering students, feel hesitant about taking an English course. I'd rst offene like to have some engineering students in the class. I feel that they tould present a different viewpoint, she added.

Andreadis said the classes will be concrete canoe racing.

Id at night. "We'll see a movie one Four Aggie students and two proheld at night. "We'll see a movie one night and talk about it another. The films for the course cost about a thousand dollars each semester, so I

of doing a project instead of the quiz-zes. Andreadis said that in the past, sponsored by the American Society students have chosen such projects as a study of monster makeup, Hitler's propaganda films, and Cary

Grant's acting.
Some of the films for next seme ter will be: "The Gold Rush", "Birth of a Nation", "The Blue Angel",
"Triumph of the Will", "His Girl
Friday", "M", and "Citizen Kane."
They will be shown in the Architecture Building auditorium.

Andreadis said advertising for the

Disabled-student money not available in summer

By PRESTON JONES

Scholarships for disabled students provided by the Texas Rehabilitation Commission (TRC) will no longer be available for summer sessions starting this year.

Don Gardner, representative for that a Cha TRC at Texas A&M, said Friday that carforate there will be a change in the uip your philosophy of TRC starting July 1. Gardner said, "our commissioner and his representatives feel that we need to cut back somehow in order to save money, so the college prog-ram is one of the programs that is going to be suffering

Gardner said that a lack of funds and try the try ould be try ould be try out to the cut in the try ould be the cut in the

ons about amount of appropriations for the past three years and we are probably serving three times as many people than we did three years ago," Gard-

"It stands to reason that you are ither going to have to run out of going to have to cut funds," he said.

Gardner said the commission felt that cutting the funds only during

the students as much as cutting them during the fall and spring semesters. The maximum amount a qualified student may receive during summer mered at each other with sessions is \$100, while the maximum heavy artillery and rockets. during the spring or fall is \$250 per

the summer sessions would not hurt

In order to receive funds, students have to be permanently disabled and there has to be a reasonable expecta-tion that they will be able to go to work after graduating.

There are presently about 250 students at A&M receiving aid from

the nation in the past two years in the total number of people served and rehabilitated through this type of rulers to a powerless minority. program.

Doyle Wheeler, deputy commis-

evere hardship, funds could be pro-

vided during the summer.

Wheeler also said that all states are having trouble getting funds for rehabilitation scholarships.

Metaphysics, chills Ags are concrete-canoe champs

A band of civil engineering students and faculty returned to Texas A&M Monday from Kansas as un-disputed champions of Midwest

fessors brought back team trophies, a plaque for the best course time of 3:14.0 and the coveted traveling ask the students to donate ten dollars each. The public is also invited and we charge them a dollar," Andreadis region.

Students John Bugge and Phil The course will require two Goode of Brownsville won the finals textbooks and there will be a series of quizzes. The student has the option State University, beating all comers in the avent in the Midest Region.

of Civil Engineers (ASCE). The region includes Texas, Arkansas, North Dakota, Colorado, Kan-

sas, Nebraska, Missouri and Utah. Bugge, Goode, along with San Antonio students Jim Duderstandt and Robert Worley, and professors Howard Furr and Calvin Woods, trekked to Manhattan, Kan., after winning the ASCE Texas championship in April.

Duderstandt and Worley marked course was paid for by the combined efforts of the department, the film class students, and herself.

Course was paid for by the combined the fastest time of the meet and won their semifinal match, but were disqualified after changing lanes. The faculty members finished

Syria attacks U.S. policy

BEIRUT Lebanon - Syria attacked the American peacemaking effort in Lebanon today as Lebanese, Moslem and Christian forces hammered at each other with tanks,

The Damascus newspaper Al-Baath, the organ of Syria's ruling Baath Socialist party, called on all "allied and friendly" forces in Lebanon "to foil the destructive mission" of President Ford's special envoy, L. Dean Brown

Led Zeppelin has trouble with versatility Review

By PAUL MUELLER

Presence, the long-awaited new lbum from Led Zeppelin, finally arived in the stores last month. I am orry to report that it has not been worth the year's wait since their last

Led Zeppelin consists of four

members: Jimmy Page, lead guitar; Robert Plant, lead vocals and har-monica; John Paul Jones, bass and keyboards; and John Bonham, Their first two albums are classic

ollections of heavy metal music and ere released. After this initial blast. band began to experiment with ne new types of music, including acoustic love songs, and en 1950s-style rock 'n' roll. Until cently, Led Zeppelin has had no rouble demonstrating its musical meativity and versatility, but judg-

ing by Presence, the old inspiration is finally gone.

It pains me to write such a putdown of this album, since the Zep's earlier works are among my favorite records. But the fact is that Presence, for the most part, is just not worth the trouble of listening to. Its most obvious fault is that all the songs are too long. There's nothing wrong with a long song, as long as it doesn't get monotonous, but with a couple of exceptions, these songs are boring. ing rarely shows the speed and imagination that made him one of the best rock guitarists in the world a few years ago, and Plant's once-powerful vocal style has degenerated into a sort of high-pitched whine that's pretty hard to take for a whole al-

I mentioned a couple of exceptions. One of these is "Nobody's Fault But Mine," probably the most popular cut on the album. Here Page's guitar finally comes to life, and Plant's singing and harmonica playing begin to show some of the guts they used to have. Another good cut is "Tea For One," a slow blues number on which Page de-monstrates the blues guitar style that he built his reputation.

Whatever it was that caused the decline of Page's and Plant's musical skills, it doesn't seem to have affected Bonham and Jones. Their electric blues, and they sound as good today as they did when they and Robert Plant. Page's guitar playing on Presence is as good as it has been on Led Zeppelin's earlier albums, and maybe even better.
