More fish are lost through negaction to start. ted tackle than by the fishes' acs. Angler error also loses fish. theory. I'm going out to put some of it into practice catching Ol' A boat will slide over most underter stumps if you don't try to Hawgjaws. See you at the lake

Cavalier center injures little toe

Associated Press

BOSTON — Cleveland center game in Chones, nursing a broken toe, vill have to sit out the National Bastetball Association semifinal playoff ener Thursday night as the Cavaliers meet the somewhat batered and bruised Boston Celtics at oston Garden.

Chones broke the little toe of his team spokesman said, and the in-jured foot now is in a cast. On the other side of the court,

Dave Cowens and Jo Jo White mis-de practice Wednesday, but both are expected to be in the starting for the first of the best-of-to the first of the best-of-to the first of the best-of-

White was nursing his left knee, mised in a collision with Jerome Anderson. Cowens is suffering back

Celtics' captain John Havlicek, ho missed two games against Buf-

stigator. He makes things happen for that club when he gets into the

The Cavaliers are stingy on defense. The high-scoring Celtics averaged just 94.4 points a game in five games with Cleveland last season. The Cavaliers averaged 94 points a game, losing the regular season

The Celtics breezed to a 105-90 ight foot during practice Tuesday, a victory in the first meeting between two teams. Cleveland then acquired the veteran Thurmond and the other four games were close, going down

HAPPY COTTAGE

809 E. 29th 3 blocks from City National Bank

AeXtension in cooperation with the UCLA School of Law **Attorney Assistant Training Certificate**

Programs in Litigation

Accredited by the American Bar Association

- Comprehensive 5-month programs begin Fall, 1976 at UCLA
- For highly qualified applicants seeking a career in the paralegal field
- Receive graduate level instruction from practicing attorneys and attorney assistants
- Learn marketable skills in trial procedures relevant to criminal and civil law
- Housing and employment assistance available

Applications available immediately. For full details write or call Attorney Assistant Training Programs, UCLA Extension Suite 214, P.O. Box 24902, Los Angeles, CA 90024 213) 825-0741.

The Technics SA-5550. With im-

But they cost a lot more.

With reserve power to float through complex, high-level musical passages without distortion or clipping. Because of large capacitors, conservative rated transformers, and bridge rectifiers in the power supply.

flat group delay filters in the tuner section. For clean, well-separated highs as well as lower distortion on FM. And about 20% less wiring. To reduce hum.

SPECIFICATIONS	SA-5550
Min. RMS Power per channel into 8 ohms	58 watts
Bandwidth	20Hz-20kHz
Total Harmonic Distortion (Max.)	0.3%
FM Sensitivity (IHF)	1.8μν
Selectivity (IHF)	70dB
FM Stereo Separation at 1 kHz at 10 kHz	40dB 30dB

And with Technics' exclusive linear dial scale.

We hope we didn't mislead you with last week's advertisement. Above are Technics' published specifications. Actual performance tests, however, rate the Technics SA-5550 as capable of delivering up to 70 watts of distortion free power at 8 ohms. At 58 watts RMS into 8 ohm loads, there is no more than 0.09% distortion. And Technics' published capture ratio of 1.6 dB was rated at 1.4 dB in Stereo Review (February, 1976).

The concept is simple. The execution is precise. The performance is outstanding. The name is Technics. And the price? Under \$500.00.
