UT game reset for Thanksgiving

The nationally televised football game between Texas A&M and the University of Texas has been rescheduled from its original playing date. The game was slated for Saturday

Nov. 26, but has been switched to Thursday Nov. 25 (Thanksgiving). The broadcast for the game will begin at 7:30 p.m.

The Nov. 13 contest between the Aggies and the University of Arkan-

sas also will be televised either nationally or regionally. There is a high probability that the game will be played in Little Rock rather than Fayetteville as originally planned. Both games will be carried by the

American Broadcasting Company (ABC).

Texas A&M's Brenda Goldsmith and Susan Smerick will compete today in the Association of Intercollegiate Athletics for Women National Championship golf tournament in East Lansing, Mich.

Goldsmith, who is one of the favorites, recently won the Southern Amateur and the San Antonio Women's City Championship and was the individual winner in the Texas AIAW tournament. She is a junior from San Antonio.

Smerick, a sophomore from Fort Worth, tied for fifth in the state meet.

The national tournament will continue through Saturday.

A quartet of Texas A&M signees were named to the Texas Sportswriters Association 1976 all-state high school track and field team.

Curtis Dickey from Bryan made the team in two categories, the 100-yard and 220-yard dashes. The prep star, who will play football for Emory Bellard's Aggies, had best times of 9.2 and 21.0 in the two events.

Fort Worth Richland's Tim Scott was named to the all-state squad in the discus category. The state's top half miler, Mark Gauger from Spring Woods, was voted in that event. Kent Figgs from Houston Sterling was voted to the team in both hurdles events, the 120-yard highs and the 330-yard intermediates. All of the last three are track signees for head track coach Charlie Thomas.

Texas A&M hurdler Shifton Baker will be travelling to Eugene, Ore. shortly to compete for a spot on the U.S. Olympic team.

Poachers benefit from CBs

Citizen Band radio operators are helping outland hunters by giving them the locations of Texas Parks and Wildlife Department game wardens.

Nearly all poachers have their ears up when hunting illegally. A larger number of deer are being killed this year by poachers working together using CBs.

A favorite tactic used by outland hunters is to have one poacher station himself where he has a good view of approaching cars. He will stay in contact with his "good buddy" who will be actively hunting. If he sees a game warden, he will warn his friend and the outland hunter will have time to hide all evidence before the game warden arrives on the scene.

The use of CBs by poachers reached a climax recently when a group of some 20 men were running after dogs in the timberlands of East Texas.

The poachers were staked out on roads and fire lanes listening for the dogs and watching for game wardens.

The dogs got on the scent and

started baying. The poachers got excited and started talking to each other and maneuvering so they could be in the right place when the dogs chased the deer onto the road.

Game wardens were listening to the poachers. Landowners with base stations got on the air and started

helping the wardens to locate the poachers.

Airwaves were jammed, dogs were running, pickups and patrol cars raced around back roads.

The deer got away.

For lack of evidence, no case could be filed against poachers.

Time to renew license?

Has your fishing license expired? If it has, you may be among more than 100,000 Texans who have possibly forgotten to renew their state fishing licenses this spring.

It became apparent at the Texas Parks and Wildlife Department that something was amiss when the sales of fishing licenses this year continued to run far behind the number sold through this time last year. By the end of April, there was a decrease of 110,012 from April, 1975.

For the department, this has resulted in a revenue decrease of \$437,822.45 from the fishing license fees collected through April last year.

A Texas sport fishing license costs \$4.25 for both resident and non-

resident and is required of all persons except those under 17 years of age or over 65 and other fishing in the county of their residence with trotline, throwline or pole and line. It is valid for one year from date of purchase.

All other Texas hunting and fishing licenses are valid from September 1 through August 31 of the fiscal year in which purchased.

Garrison reminded those Texans who also intend to hunt this fall and winter to consider the state's combination hunting and fishing license at \$8.75, a savings of 75 cents below the cost of purchasing both licenses separately — and an automatic reminder to renew it by Sept. 1 each year.

The 16th annual American Football Coaches All-American game will be played this Saturday night in Lubbock.

Arizona State coach Frank Kush will coach the West All-Stars while his counterpart for the East will be George Welsh, head coach at the Naval Academy.

Texas A&M's Skip Walker is on the roster of the West squad. The future Houston Oilers is expected to see limited action. The Aggies' Ed Simonini and Pat Thomas (headed for professional careers at Baltimore and Los Angeles respectively) both declined to play in the contest.

The game, which will be nationally televised by ABC, will start at 8 p.m.

FREE LESSONS IN TEXAS FISHING

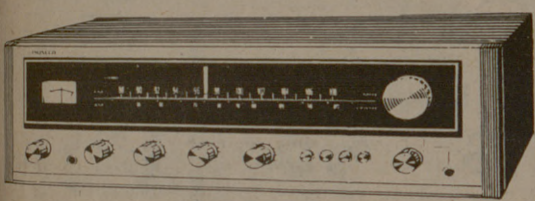

A good fisherman never stops learning. So get your free copy of the special "Electronic Fishing" issue of THE TEXAS FISHERMAN. Gives you the lowdown on oxygen meters, temperature indicators, depth finders, electric fishing motors, CB radios for fishing boats. Plus all the regular features that make this magazine the "fishing bible" of both fresh and salt-water fishermen. For free copy, send your name and address to THE TEXAS FISHERMAN, Drawer E, Houston, Tx. 77018.
