

County agent gets masters degree after 19-year gap

Commencement speakers sometimes elaborate on the meaning of the ceremony's name.
In the case of E. J. "Johnny" Harrison, who receives his master's degree Friday at Texas A&M University, such a discourse would carry extra meaning.
Harrison was awarded his first degree at Texas A&M in 1947.
However, the 19-year gap hardly means the 52-year-old Ward County agent of the Agricultural Extension Service has been letting his learning apparatus gather dust.
Johnny Harrison might be called a bellwether of the idea that learn-

ing doesn't end with a diploma or degree.
At Waco, Madisonville and Monahans, he's helped push agricultural production forward and outward.
He explains matter-of-factly that his second degree has been in progress a number of years. Harrison was warned that time could run out and cause loss of credit. So the West Texan who lives nearly 400 miles from A&M, since last fall has worked in the final 14 hours of his degree program.
While pressing forward for the master of education in agricultural

education, Harrison has kept several unique projects progressing in the arid West Texas county.
The projects involve growing shrimp, crab, Atlantic croaker and redfish in salt water ponds. Harrison also is working with the West Texans on marketing shelled pecans, grown in the Monahans sandhills.
"When Johnny introduced pecan trees there, many people said it couldn't be done," commented Dr. Earl Knebel, Agricultural Education Department head and Harrison's graduate degree committee chairman.

"We think a lot of Johnny," Knebel said. "He's a real fine county agent, and a very fine student."
Those sentiments were echoed by others. Dr. Bobby Johnson of A&M's Student Aid Office worked for Harrison at Madisonville, and calls him a "go-getter."
"Without the encouragement and guidance of Johnny, the shrimp project wouldn't go," said James T.

Davis, fisheries specialist at Texas A&M who aided in the project. "He has a genuine concern for the West Texas agricultural producers' problems. He works closely with them day by day. We can't do that from College Station."
Davis said marketing of West Texas grown shrimp is two or three years away.
Technical expertise was furnished by Dr. Jack Palmer, mariculture specialist, and Dr. Wallace Klussman, wildlife and fisheries project leader. Horticulturist Blueford Hancock backed the pilot pecan grove with data and advice.

Reported in the July "Texas Agricultural Progress" and other publications, the five-year-old shrimp project uses gravel pits under which salt water lies eight to 10 feet deep. They soon become salt water lakes. In spite of problems, shrimp stocked in them grow at rates comparable to those in Gulf Coast ponds. The growth was obtained on natural food organisms young shrimp need when they are too small to feed on prepared food.
The experiment was Harrison's idea, and he's pushing it toward a landlocked maritime industry.
He arranged a 6 a.m. tour of the

shrimp ponds last year for agricultural business. Three hundred out.
"The master's degree is a thing I made up my mind to do," explained Harrison, who grew up on a farm in Ward County south of Fort Worth. "I can't stand still. The world is moving away from you."
He credits others however as the West Texans "who are studying to me, like Dr. John Hutto (recently retired director of Texas Agricultural Extension Service)." U.S. Department of Agriculture and Texas Superior Service award winner, Harrison said he has a look at a West Texas gravel pit see a shrimp farm has in this ground, in a remark by a graduate chemistry professor M.K. Thornton, emeritus of chemistry.

"Prof Thornton once told me to call anything waste," he said.
"It's just lying there waiting we get smart enough to use it."

Four professors attend Tennessee Conference

Several Texas A&M University faculty plan to attend the International Conference of Professors of Agricultural Administration meetings its 15-20 in Knoxville, Tennessee, announced Dr. John Hoyle, extension president and Texas A&M associate professor.
Hoyle, a Texas A&M graduate only the second Texas A&M 2,000-member group's secretary to serve as chief executive will coordinate the annual meeting expected to draw hundreds of University of Tennessee faculty.
Dr. Harold Hawkins, Texas Educational Administration Department head, will attend the daily newsletter at the conference and Dr. Phil West will lead a paper on community college leadership.
Also attending will be Dr. Hensarling who is retiring from A&M faculty Aug. 31 after 31 years of service in education.

COFFEE PERK
Our Reg. 17.97 **\$9⁹⁷**
Completely immersible. 9-cup percolator removable cord.

PLASTIC WARE
Our Reg. 53c **33[¢]**
Assortment of plastic knives, forks, and spoons.

12-PC. DINNERWARE SET
Our Reg. 5.67 **\$3⁹⁷**
Choose from a variety of designs on easy care plates.

DENIM JACKETS
Our Reg. 6.97 **\$3⁹⁷**
Boys jackets of 34% indigo denim. 100% cotton.

FREEZER CONTAINERS
Our Reg. 1.57 **88[¢]**
Plastic containers with lids—seals in freshness.

Kmart

... gives satisfaction always

DOOR BUSTERS

OPEN DAILY 9:30-9:30; CLOSED SUNDAY WEDNESDAY—THURSDAY—FRIDAY—SATURDAY

WESTERN SHIRTS
Our Reg. 4.97 **\$3⁴⁷**
Poly-cotton blend. Long sleeve w/ yoke. Ass't. of solids and fancies.

AQUARIUM KIT
Our Reg. 14.57 **\$10²⁷**
10 gal. kit includes pump, filter, *Stand, Our 14.97..... 9.88

TROPICAL FISH
3 for \$1
Choose from a new selection of platys, catfish, swordtails.

FREEZER STICKS
Our Reg. 78c **58[¢]**
18 bars in 6 different flavors. 22.5 oz. per pack.

CASSETTE RECORDER
Our Reg. 48.96 **\$43⁸⁸**
Includes Condenser Mike, fast forward, eject, erase plug, storage, volume & tone controls, pause control, digital counter, record/battery light, and 3-way power. #3-5121

5 GAL. PLANTS
Our Reg. 19.97 **\$13⁸⁸**
Some up to 4 ft. tall. Selloums, rubber trees, palms, Norfolk pines, etc.

HEATH CANDY
Our Reg. 1.73 **\$1⁵³**
Choose from toffee crunch or chocolate mint.

3-PACK UNDERWEAR
Mens Briefs, and T-Shirts Our Reg. 3.28-3.48 **2⁸⁸**
Boys Briefs and T-Shirts Our Reg. 2.48-2.58 **2¹⁸**
Easy-care 100% cotton in classic white. Pkg. of 3.

INSTANT TEA
Our Reg. 1.24 **\$1⁰⁹**
3 oz. jar of K-Mart brand tea mix.

POTTING SOIL
Reg. 2.43 **2/³**
20 qt. K-Mart brand soil is odorless, sterile and ready to use.

COLOR ENLARGEMENT SALE
Photo Finishing Special
5x7" **88[¢]**
3 DAYS ONLY
Bigger is better. If it's your favorite snapshot. Borderless silk enlargements made from any Focal or Kodachrome negative, or any color slide.
K-MART SATISFACTION ALWAYS
You must like your prints or K-Mart returns your full print price.

COOKIE PAN SET
Our Reg. 1.47 **88[¢]**
3 pc. set is ideal for fixing your favorite recipe.

SPAGHETTI COOKER
Our Reg. 6.63 **\$4⁴⁷**
7 qt. spaghetti cooker is ideal for cooking where draining is needed.

PARAKEETS
Our Reg. 7.27 **\$6⁴⁴**
Colorful birds make excellent pets
*Bird Cage Our 6.47..... 4.97

7 P.C. COOKWARE SET
Our Reg. 25.97 **\$17⁸⁸**
Porcelain enamel, 2 qt. covered saucepans, 5 qt. Dutch oven, frypan.
