Shuttle buses serve off-campus students

a.m. Aug. 30, predict university

iders will have access to 16 buses year, two more than in the past, rvice expands southward to the 2818 bypass, eastward to Scar-O'Hara Drive and northward to ntry Club Drive.

ividual, 10-ride booklets are available from the cashier in the e Building for \$1.50 per student

tudents and staff at Texas A&M purchase semester passes for service at the University Police artment. Costs are \$15 per stu-, \$22.50 per student and spouse \$20 per staff member.

2 per staff member Il shuttle routes begin service at

ity students are expected to use of-line departures every 10 minutes until 5:30. After that time, buses leave every 30 minutes on the hour and half-hour from campus stops. Last bus leaves campus at 9:30 p.m.

> One change has been made in the shuttle service maps made available to subscribers, say officials. On the northern route, the jaunt

> from S. College Ave. onto North St., Cavitt, Villa Maria Rd. and back to S. College has been abolished until establishment of a traffic signal at S. College and Villa Maria.

Instead, the buses on that route continue on S. College, turn left onto Country Club Dr., proceed around Lakeview and Lynn streets and turn back onto S. College toward

campus.

Northern route service stops at

and Pleasant, Lakeview and Ehlinger, Fairway Apts., Tri-State Sporting Goods, Triangle Bowling Lanes, 4212 Apts., Country Place, Casa Blanca and College Main before stopping on campus at the Reed McDonald Building. Eastern routes halt between Plan-

tation Oaks and Briarwood on O'Hara Drive, after 9 a.m. at Butler and Highway 30, Travis House, Barcelona and Sausolido. Buses stop on campus between Teague Center and the golf course.

Southern buses stop at University Terrace, Monaco I & II, Scandia I & II, Seville, Glade East and Holick Square, Doux Chene, Oak Forest, Parkway and Bee Creek, Southwest

Village, West Knoll and Willowick. Two buses simultaneously serve

7 a.m., note organizers, with endof-line departures every 10 minutes
until 5:30 After that time, buses

Mastadon remains found

By TERRY WEIDE

HIDDEN TIMBER, S.D. (AP) am of four Rapid City men has arthed the remains of a giant astodan that probably roamed the rth 70 million years ago.

"What's so exciting about this find he condition of the skull, and the sks, too," said Peter Larson, 24, a

"I don't think we will have to rene in the skull.

Remains of the mastodon were gout of a hill near Hidden Timber the Rosebud Indian Reservation south-central South Dakota early

The mastodon is an ancestor to the ephant and roamed semi-tropical ests just before the Ice Age.

The team found most of the skeleintact and well preserved. One ear leg, the tail, some foot bones

bones missing.

The excavation team included Jim Honert of Rapid City who, with Lar-

Also digging were Larson's younger brother, Neal Larson, Jr., who is a senior geology student, and Robert Tate, 13, son of a local

'We went out there, not really exemore than 1 or 2 per cent of the pecting anything, and started digging. But then we found vertebrae, then a femur, then some ribs. By now the dirt was really flying," said Pete Larson.

The skull measured seven feet one inch, from the tip of the tusks to the back of the skull. The tusks had been worn down during the mammal's lifetime, but were intact and mea-sured 47 inches. The skull was estimated to weigh a ton.

"I don't know how many complete

and an upper leg were the only skulls have been found, but there are not very many," Larson said.

Examination of the molars indi-Honert of Rapid City who, with Larson, operates a business specializing in minerals and fossils.

cated the beast was at least 60 years old when it died, he said. It probably stood 10 feet tall at the shoulder.

The skull and other remains were dabbed with a preservative mixture of water and glue to guard against the deteriorating effects of sunlight and oxygen. The skull was also cast in

Although fossil fragments of a saber-toothed tiger and a rhinoceros were found by the diggers, Larson said he does not believe the elephant died of violence.

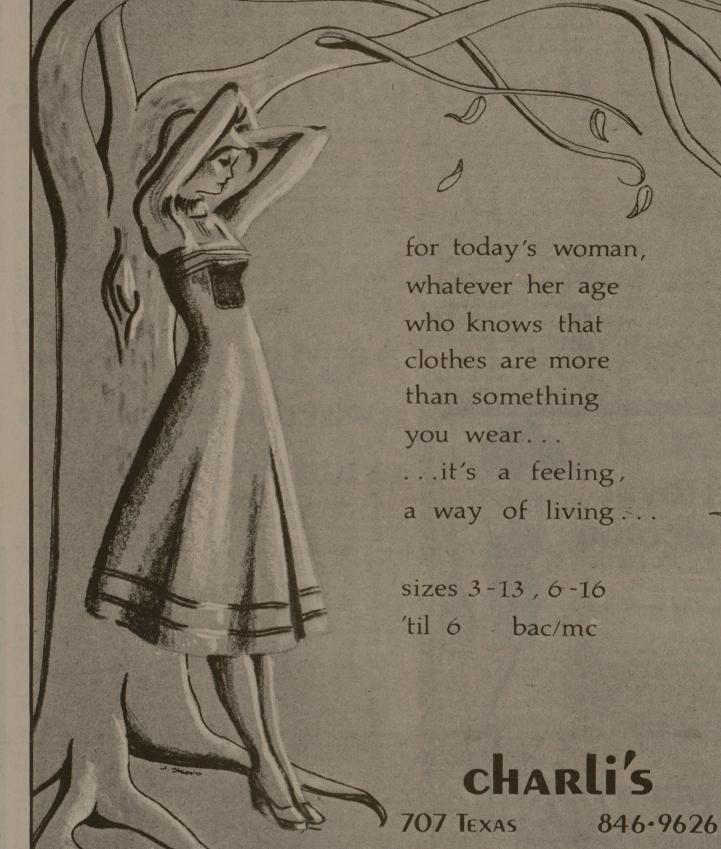

He theorizes that the mastodon died of old age in a quick-sand pit or a stream bed at the discovery site.

Commercial collectors have been known to pay thousands of dollars for assembled mastodons, but Larson declined to set any value on the specimen he helped find. "It's just impossible to place a

value on it as far as human enjoy-ment goes," said Larson, a graduate student at South Dakota School of Mines and Technology. Larson said e would like to see it given to the

The skeleton belongs to the Tribal Council of the federal government, though the council voted to allow the excavators to crate the bones to send to Rapid City, he said.

Ahead of Larson are plans to write a paper on the discovery and, he hopes, at least help with the as-sembling of the skeleton for display, which could take two years.
