

MEETINGS SCHEDULED

TUESDAY
Traffic Appeals, MSC 216 T, 4 p.m.

WEDNESDAY
Aggie Cinema meeting, MSC 228, 7:30 p.m.
Social Dance Club, MSC 212, 224, 7:30 p.m., For information call 5-6841.

THURSDAY
Campus Crusade for Christ, Rudder Tower 510, 8 p.m.
Traffic Appeals, MSC 216 T, 4 p.m.
Aggie Cinema "The Return of the Pink Panther," 8 & 10 p.m., "Nashville," 12 midnight, Rudder Theater.

New leash law on Aggie pets

Free-roaming pets on the Texas A&M campus will be a thing of the past if a new university pet leash regulation is enforced.

The regulation requires that pets on-campus be kept on a leash at all times, Dr. John Koldus, vice-president for student services, said yesterday.

The new regulation also forbids tying leashed dogs and other pets to building and stairway railings, he said.

Koldus said no change had been made in the old pet regulation barring any animals except seeing-eye dogs and the University mascot from residence halls, University food service areas and University-owned apartments.

SOHIO's Plum is appointed to Accounting staff

Charles W. Plum, vice president for accounting and management systems with the Standard Oil Co. of Ohio (SOHIO) has been appointed visiting lecturer and business executive-in-residence at Texas A&M University.

His appointment to the Accounting Department faculty was announced by Dean of Business Administration John E. Pearson and SOHIO officials in Cleveland.

The M.B.A. graduate of Case Western Reserve University (Ohio) officially began duties Monday with the start of fall classes at Texas A&M.

He currently serves on the standards committee of the American Assembly of Collegiate Schools of Business. In the past, he has served on the national committee on corporate reporting for the Financial Executives Institute of America and the American Institute of Certified Public Accountants advisory committee for accounting research on financial reporting in the extractive industries.

Sophomore class treasurer election

A run-off election will be held September 14 for the class of '79 treasurer according to Susan Price, executive director of Student Government.

The election is due to an error on the first ballot in last spring's campus elections. The run-off is between Michelle Marti and Scott Persons. Price said that there will be only

Continuing education offered by university

More than a dozen liberal arts courses — including history, literature, psychology, philosophy, political science and anthropology — will be offered on a continuing education basis to all interested persons this fall by Texas A&M University.

Registration for the 90-minute classes is Sept. 7 and 9 on the second floor of Rudder Tower, according to coordinator Henry Pope.

Under continuing education guidelines, participants do not need to be formally admitted to Texas A&M to take the courses and the only requirements are a \$30 fee and a desire for knowledge, said Pope.

Continuing education classes do not apply towards a degree, but a certificate and continuing education "units" or points (CEUs) are granted on completion of work.

Enrollment will be limited to 15-30 persons per class.

Classes offered on Mondays include Creative Writing, 6:30-9 p.m., Sept. 20-Oct. 25; Understanding Europe and Europeans, 7-8:30 p.m., Sept. 13-Nov. 15; and Social Problems of Adolescence, 7:30-9

p.m., Sept. 13-Nov. 15.

On Tuesdays, courses will be taught on Archeology of Texas, 7-8:30, Sept. 14-Nov. 16; Creative Communications: Written and Oral, 7-8:30, Sept. 14-Nov. 16; and Aspects of Revolutionary Europe (1770-1871), 7-8:30, Sept. 14-Nov. 16.

Other Tuesday evening classes offered are History of the Republic of Texas, 7-8:30, Sept. 21-Oct. 23; The Revolutionary Generation (1763-1783), 7:30-9, Sept. 14-Nov. 16; Man and Time, 7:30-9, Sept. 14-Nov. 16; and Legislative Process in Texas, 6:30-8, Sept. 14-Nov. 16.

Rounding out the Tuesday offerings are Psychology of Alcohol Abuse, 5-6:30, Sept. 21-Nov. 23; Psychology and You: Special Topics in Behavior, 6-7:30, Sept. 14-Nov. 16; and Human Aging: An Orientation, 6:30-8, Sept. 14-Nov. 16.

Thursdays, the program offers a course on The American Novel: 200 Years, which is taught 7:30-9 p.m., Sept. 16-Nov. 18.

All classes will be held in the Academic Building at Texas A&M.

Good clean fun?

... This University employe apparently does not so. He had to clear the fountain in front of the Chemistry Building of soap suds yesterday.

Cinema enjoys sell-out crowd

Aggie Cinema sold out Rudder Auditorium Saturday night for "Monty Python and the Holy Grail."

"This is the first time in the history of Aggie Cinema that the auditorium has been sold out," said Mark Penny, a vice chairman of Aggie Cinema. Penny cited the attendance at 2,301. The students arrived at the movie from other activities that night, such as freshman open house and welcome back street dance. The

theater actually holds 2,300, said, but people don't sit in the aisles and so Aggie Cinema only sells tickets for a full house.

This weekend, the cinema is bringing "Return of the Panther" at 8 p.m. on Friday and 11 p.m. on Saturday. "The Tonto" is the Friday movie. Advance tickets are bought in the Rudder box office week, and tickets are available minutes prior to the movie.

Century Singers begin auditions

Texas A&M students began trying to win places Monday in the Century Singers, mixed choral group that represents the University on and off-campus.

Interested students may sign up for auditions at the vocal music office in the Memorial Student Center.

Hewlett-Packard wrote the book on advanced pocket calculators.

And it's yours free!

Hewlett-Packard built the world's first advanced pocket calculator back in 1972. And led the way ever since.

If you're about to invest in your first pocket calculator — one that will serve you through college and beyond — you'll need all the information you can get to make a wise decision. That's why Hewlett-Packard's put together an objective, informative 24-page guide entitled, "What To Look For Before You Buy An Advanced Calculator." And it's yours — Free!

In it you will find such helpful information as: A survey of types of calculators available; Programming; Logic systems; Applications; Functions; Features; Construction; Accessories; Memory; Service and much, much more.

Get your free copy of "What To Look For Before You Buy An Advanced Calculator," at your campus bookstore or telephone 800-538-7922 (in Calif. 800-662-9862) toll-free for the name of your nearest dealer.

HEWLETT-PACKARD PRESENTS THE FIRST FAMILY OF ADVANCED CALCULATORS.

HP-21 Scientific. New low price. \$80.00*

The HP-21 makes short work of the technical calculations even so-called "non-technical" courses require. If you need a calculator for more than simple arithmetic — this is it — especially at its new low price.

- 32 built-in functions and operations.
- Addressable memory.

- Performs all standard log and trig functions (in radians or degrees).
- Performs rectangular/polar conversion, register arithmetic and more.
- Two selectable display modes: Fixed point and scientific.
- Lowest-priced HP Scientific calculator.

HP-22 Business Management \$165.00*

The HP-22 easily handles the kinds of calculations you face in business courses today, in management tomorrow. Breeze through business math calculations. Build existing statistical data into reliable forecasts. If you're going into business administration, this is the calculator for you.

- Combines financial, mathematical and statistical capabilities.
- Performs complex time-value-of-money computations including interest rates.
- Performs rates of return and discounted cash flows for investment analysis.
- Performs extended percent calculations, accumulated interest, amortization, etc.
- Ten addressable memories.
- Full decimal display control.

HP-25C Scientific Programmable with Continuous Memory. \$200.00*

The HP-25C is our keystroke programmable. It can solve automatically the repetitive problems every science and engineering

student faces. What's more, its Continuous Memory capability lets you retain programs and data even when it's turned off.

- Continuous memory capability.
- 72 built-in functions and operations.
- Keystroke programmability.
- Branching, conditional test and full editing capability.
- Eight addressable memories.
- We also offer the HP-25, (without the Continuous Memory feature) for \$145.00*

HP-27 Scientific/Plus \$200.00*

The HP-27 is for the science or engineering student — whose course work extends into business administration. The reason: It features every pre-programmed scientific function we've ever offered, plus comprehensive stat and financial functions. That's why we've dubbed it our Scientific/Plus.

- 28 pre-programmed exponential, log and trig functions, 15 statistical functions, 10 financial functions — 53 in all.
- 10 addressable memories — 20 memories in all.
- 6 selective clearing options give you flexible use of memories.
- Fixed decimal, scientific or engineering display formats.

What to look for before you buy an advanced calculator.
