## By The Associated Press Archbishop defies Pope with Mass

BESANCON, France — Roman Catholic Archbishop Marcel Lefebvre, already suspended by Pope Paul VI, says he will celebrate another Mass in Latin on Sunday in defiance of the Pope.  
Msgr. Lefebvre said Tuesday that during the Mass this Sunday he will ordain a priest in accordance with the Latin rites banned by the Pope.

Msgr. Lefebvre ignored appeals from the Pope and celebrated Mass in Latin for some 7,000 Roman Catholic traditionalists in the northern French city of Lille on Aug. 29. His Mass this Sunday will be celebrated in the Besancon indoor sports stadium.

The Roman Catholic church has for several years required that Mass be celebrated in the language of the congregation.

## CIA plots change Rusk's statement

WILLIAMSBURG, Va. — Had he been aware of Central Intelligence Agency plots to kill foreign

leaders, former Secretary of State Dean Rusk says he would not have told the Warren Commission it was doubtful any foreign government had a motive to assassinate President John F. Kennedy.

Nonetheless, Rusk said, the investigation into Kennedy's death should not be reopened "if fresh information is not available."

The Warren Commission concluded that Kennedy was slain in Dallas in November 1963 by one man, Lee Harvey Oswald.

## 'Family' members reunited in prison

SAN DIEGO — Charles Manson "family" members Susan Murphy and Lynette "Squeaky" Fromme are practically roommates again.

Miss Murphy, 34, and fellow inmate Diane Ellis, 33, captured in Oregon last week after escaping from Terminal Island federal prison in Los Angeles, have been imprisoned in the Metropolitan Correctional Center, a year-old prison that is considered escape-proof.

Miss Fromme, 27, is serving a life sentence here for attempting to assassinate President Ford last year.

Miss Fromme and Miss Murphy were roommates in Sacramento, Calif., at the time of Miss Fromme's arrest.

Miss Murphy had been held in Los Angeles for conspiracy to send threatening letters to businessmen she accused of polluting the environment. Miss Ellis was jailed on a parole violation after being convicted of bank robbery.

CHICAGO (AP) — The incidence of tornado activity in the Chicago area is greatest between the hours of 3 and 7 p.m., during the months of April, May and June, according to a study done by University of Chicago meteorologists.

The final outcome of the project is a map that traces the paths of all tornadoes in the area for the past 100 years. University meteorologist Theodore Fujita researched the subject through historical records and the records of the Chicago office of the National Weather Service.

Each tornado is indicated by a red line, and the time and date of occurrence, as well as the intensity of every storm, is included.
