**Today in history:  
Huey Long died at Baton Rouge**

**Associated Press**  
Today is Wednesday, September 8, the 252nd day of 1976. There are 114 days left in the year.  
On this date in 1935, Senator Huey Long of Louisiana was shot at Baton Rouge. He died two days later.  
On this date:  
In 1565, a Spanish expedition landed at what is now St. Augustine, Fla., and founded the first permanent European settlement in North America.  
In 1664, Peter Stuyvesant surrendered New Amsterdam to the British.  
In 1760, Wisconsin came under British control after being French territory.  
In 1855, the Crimean War ended.  
In 1883, construction of the Northern Pacific Railroad was completed with the driving of the last spike near Garrison, Mont.  
In 1934, 134 persons lost their lives in a fire aboard the luxury liner Morro Castle off the New Jersey coast.  
Ten years ago: A high court in Rhodesia ruled that Prime Minister Ian Smith's rebel regime was illegal. But it said it was the only regime and must be obeyed.  
Five years ago: The John F. Kennedy Performing Arts Center, which cost \$70 million, was officially opened in Washington, D.C.  
One year ago: Police in Boston arrested more than 100 persons as federal marshals, backed by national guardsmen, protected students riding buses in a court-ordered integration plan.  
Today's birthday: Comedian Sid Caesar is 54. Songwriter Howard Dietz is 80.  
Thought for today: Men seldom make passes at girls who wear glasses—writer Dorothy Parker 1893-1967.  
Bicentennial footnote: Two hundred years ago, in a long communication to Congress, General Washington presented a detailed resume of the various conditions and considerations for withdrawing from New York City or attempting to defend it.

**Development program receives new director**

Dr. Richard A. Geyer, head of the Oceanography Department for 10 years, was named director of geosciences development programs for Texas A&M and will be succeeded by Dr. Worth D. Nowlin Jr. in an announcement by Dr. Earl Cook, Texas A&M's dean of geosciences.  
"Under Dr. Geyer's leadership, Texas A&M's oceanography program has been brought to a position of national and international prominence," Dean Cook noted. "In this new position, Dr. Geyer has the opportunity to develop new programs for the entire College of Geosciences and, thereby, to increase the potential of this college for outstanding service to Texas and to the nation."  
The dean pointed out that Dr. Nowlin has worked closely with Dr. Geyer in recent years and served as assistant department head from 1969 until 1971, when he took a one-year leave of absence to serve as deputy head of the Office for International Decade of Ocean Exploration for the National Science Foundation.  
"Dr. Nowlin is eminently well qualified for this new assignment," Dean Cook observed, "and we are confident he will do an exceptional job of building on the fine programs initiated by Dr. Geyer."  
Dr. Geyer will work closely with the university's development office in implementing programs to support and expand the research, teaching and continuing education functions of the geosciences faculty and staff, Dr. Cook explained. In conjunction with his development activities, Dr. Geyer will continue his teaching and research activities in oceanography.  
Dr. Geyer came to Texas A&M in 1966 from Texas Instruments where he was technical director of oceanography. His 22-year career in the Dallas-based firm followed service with Humble Oil and Refining Co. and instructional appointments at Princeton, Woods Hole Oceanographic Institution and the University of Houston. He holds B.S. and M.S. degrees from New York University and M.S. and Ph.D. degrees from Princeton.  
Dr. Nowlin joined Texas A&M oceanography faculty in 1963 as an assistant professor. He accepted an oceanographic position with the Office of Naval Research in Washington in 1967 but returned to Texas A&M two years later as assistant department head. He was promoted to associate professor in 1971 and to professor in 1974.  
Nowlin holds three degrees from Texas A&M and also studied at Southern Methodist University and Georg-August University in Germany.
