## Drill Team almost ready for march-in, contests

By STAN KNOWLES  
The Texas A&M Cadet Drill Team, composed of freshman ROTC student volunteers, will be in shape for competition around the end of November, said Senior Drill Team Advisor Don Nicholas.

The "Fish" Drill Team will be part of the traditional Corps march-in at the Oct. 23 football game against Rice University at A&M's Kyle Field. Drill Team Association President Steve Pelham said.

"So far the team is shaping up fairly well," Pelham said, "and after a few more weeks of basic drill we'll get into fancy competition drills."

The team will send the 35-member A Platoon to its first drill competition on Dec. 4 in Houston against units from the University of Houston, the University of Texas,

Texas A&I, the University of Texas at Arlington and the University of Texas at El Paso.

"Of the 95 freshmen who came to our first meeting, we now have 68 working out," Nicholas said. "They dropped out mainly because of schedule conflicts and the long hours required for practice. Our membership will probably go down depending on mid-term grades," he said.

In practice the team uses modified, nonoperational 1903-A3 Springfield rifles with plastic stocks. The same model rifles with wooden stocks and chromed metal are used in performances.

Officers heading the organization include the senior advisor, two junior advisors and five sophomore advisors.

## Princess Anne given 730-acre estate by Queen

LONDON (AP)—Princess Anne and her husband Capt. Mark Phillips aren't expected to move to Gatcombe Park, a gift from her mother Queen Elizabeth, before the new year.

The couple has formally taken possession of the 730-acre estate and manor house. It has been reported that the queen bought the estate for \$680,000.

"The house still needs an awful lot doing to it," said a spokesman for Buckingham Palace.
