

EDS

Do you want to work for a large company, or a large, growing company? The answer can make a big difference in your future.

EDS is large enough to be termed successful, yet still small enough to offer major opportunities to outstanding young people beginning their careers.

Our business is the design, implementation and operation of large scale information processing systems. Our specialty is the very large, complex, integrated, long-term, operational environment.

Our industry will double in size by 1980. EDS is one of the most respected firms in the computer services industry, with an excellent record of growth, profitability, and a strong financial position.

At EDS advancement is based solely on performance without regard to artificial barriers such as sex, race, national origin, or seniority. At EDS, your growth will be limited only by your capabilities.

EDS needs highly motivated people with a strong commitment to succeed in the business world.

If you have the personal characteristics we are looking for, don't be discouraged because you have not taken computer courses in college. We have trained most of our people through one of our development programs, and we anticipate training you.

Majors include liberal arts, science, education, engineering, and business.
