**NAVY NUCLEAR PROPULSION. THE FASTEST WAY UP IN NUCLEAR ENGINEERING.**

If you want to get into nuclear engineering, start by getting into the Nuclear Navy.  
The Navy operates more than half the reactors in America. So our nuclear training is the most comprehensive you can get. You start by earning your commission as a Navy Officer. Then we give you a year of advanced nuclear technology, training that would cost you thousands if you could get it in graduate school. During your career, you'll get practical, hands-on experience with our nuclear powered fleet. Maybe you'll work on a nuclear submarine, maybe a nuclear cruiser. But wherever you work, you'll really get to prove your worth—as a young Nuclear Propulsion Officer entrusted with the most advanced technical equipment known to man.  
If that sounds like the kind of responsibility you're looking for, speak to your Navy recruiter. He can tell you if you qualify as a Nuclear Propulsion Officer Candidate. Or call toll free 800-841-8000. (In Georgia, 800-342-5855.)  
Navy Nuclear Propulsion Officer. Some men wait for the future. He lives it now.

**NAVY OFFICER. IT'S NOT JUST A JOB, IT'S AN ADVENTURE.**
