COLLEGE OF SCIENCE ENGLISH PROFICIENCY EXAMINATION
ALL JUNIORS and SENIORS in curricula of the College of Science must take the English Proficiency Examination on **WEDNESDAY, MARCH 23, 1977**, at 7:30 p.m.
BIOLOGY Department Curricula — Room 113 BSBE
CHEMISTRY Department Curricula — Room 100 CHEM
MATH Department Curricula — Room 204 ACAD
PHYSIC Department Curricula — Room 301

For information and guidelines on the nature of the examination, check with the department secretary.
In order to qualify as a candidate for a degree in the College of Science, each student must demonstrate an ability to express himself (or herself) in acceptable English. This requirement may be satisfied by (1) passing an examination in English composition (EPE) taken not later than the spring semester of the junior year, or (2) completing English 301 with a minimum grade of C.

Any student who fails the written examination (EPE) must satisfy the English proficiency requirement by taking English 301 and earning a minimum grade of C.

SENIOR RING ORDERING PROCEDURE

OFFICE OF THE DEAN OF ADMISSIONS AND RECORDS
To be eligible to order the Texas A&M ring, an undergraduate student must have at least one year in residence, credit for at least ninety-two (92) semester hours and be in good standing with the University. A year in residence may consist of the Fall and Spring semesters or one of the above and a full summer session (both the first and second terms). The hours passed at the preliminary grade report period on March 23rd may be used in satisfying this ninety-two hour requirement. Students qualifying under this regulation should leave their names with the ring clerk, Room Seven, Richard Coke Building. This should be done prior to March 23rd in order for all records to be checked to determine ring eligibility. (Any student having completed ninety-two (92) hours at the end of the Fall '76 semester may order at any time. There is never a dead-line once the hours have been completed, with the exception of a monthly mailing date.) Graduate students are eligible to order with proof (receipt) that they have filed for graduation. Orders for mid-semester will be taken by the ring clerk starting March 23, 1977, and will continue until April 26, 1977. Students who do not place their order during this period may order after final grades are posted. All rings must be paid for in full when the order is placed. Please bring mid-semester grade reports along when ready to order. Anyone having failed to leave their names in advance and fail to bring grade report will be asked to return later to allow time for records to be checked. The rings should arrive at the Registrar's Office on June 28, 1977. All rings ordered, regardless of whether on March 23rd or April 26th will arrive at the same time.
The ring clerk is on duty from 9 a.m. to 12 noon and 1 p.m. to 5 p.m. of each week, Monday through Friday. However, in order for records to be checked, orders must be placed prior to 11:30 a.m. and 4 p.m.
We hope this information will be helpful and extend our congratulations.
Edwin H. Cooper, Dean Admissions and Records
Carolyn Wells, Ring Clerk

Demonstration provides no sale for insurance man

United Press International
RALEIGH, N.C. — Insurance salesman Robert A. Greer's impromptu demonstration was graphic.
"This is a good example of why

you need this accident policy," he shouted from the bottom of farmer Roy Bass' 20-foot well. "This could have happened to you instead of me."
The laconic Bass was unimpressed.
"I told him it looked like he needed an accident policy himself," he said.

Jobs may help careers Co-op program started for liberal arts

A cooperative education program has been started in the College of Liberal Arts at Texas A&M University.
Its main purpose is to help the liberal arts student get job experience before he graduates, said Dr. H.D. Pope, co-ordinator of special projects in the college.
To be eligible for this program a student must have a 2.5 grade point average and a junior classification.
Working in the coop is valuable from several standpoints, Pope said. The job experience a student acquires can help him get a job after he finishes school. It can also tell him whether he wants to do that sort of job for the rest of his life.
The jobs being cultivated are jobs that are fairly well supervised, Pope said. The student will not be just a runner or a "gopher." Most jobs, he said, would pay above the minimum wage.
One possible drawback to the program is that most jobs are located out of town, which could pose a problem for the student finding housing when he returns to school.
Working on the co-op program might not get a student any credit hours, Pope said. It would be on the type of job a student has if it applied to his major.
The co-op program will give jobs and get students in touch with employers. The employer monitors the students while they work and evaluate them. Some have left. Pope said.
Students must be able to handle the fall and spring as well as the summer. This may postpone graduation for a year unless the student takes summer school.
—Cherie Hester
