Insurance board keeps accused attorney on staff

United Press International
AUSTIN — The State Insurance Board voted unanimously Saturday to keep on the job an attorney accused of trying to intimidate a member of the Travis County Grand Jury.

"It's a serious matter and we're being very deliberate," Board Chairman Joe Christie said.

The three-man board deliberated for nearly two hours and met briefly with the accused attorney, Jasper Clarence Thomas, before deciding to take no action.

Christie said the board considered everything from a reprimand to firing Thomas but decided no action should be taken until the legal case is decided.

"Until that matter is resolved it would be premature for us to take any action," Christie said.

Thomas, 52, is free on \$1,000 personal bond. He has been a hear-

ings officer with the state agency since June 1, 1973.

District Attorney Ronnie Earle filed charges against Thomas late Friday accusing him of threatening a board secretary, Kathie Cisneros, who is serving as a member of the Travis County Grand Jury.

The Austin Citizen, in a copy-righted story Friday said Thomas was overheard telling the secretary she would lose her job if the State Insurance Board chairman was indicted.

Ironically, Miss Cisneros, 35, is not serving on the special grand jury investigating the insurance agency but another panel considering routine cases.

Thomas' attorney, Frank Maloney, said the remark to the secretary was made in jest and Miss Cisneros took it the wrong way.

"Thomas, 52, is free on \$1,000 personal bond. He has been a hear-

MICROPROCESSOR SEMINAR-WORKSHOP

Electronics Training Division
Texas Engineering Extension Service

Five days of intensive classroom and laboratory experiments designed for research engineers, scientists, design engineers, instrumentation specialists, and computer personnel desiring in-depth knowledge of microprocessors.

- Participants will:**
- review basic digital electronics.
 - develop hands-on experience with the fundamentals of microprocessors.
 - develop microprocessor software.
 - develop an understanding of interface techniques for a microprocessor.
 - investigate the features of a specific microprocessor system.
