isien is in his second season as Aggies' starting left offensive de = a job he worked hard for his sophomore season last

As a freshman, it was a big step usting to college football. At first I trealize how much there was to n. I had to get a lot stronger and rol my body. I'd always had the and knew that I could be a probut that it would just be a ter of time. I worked real hard g weights and preparing myself

1976, Risien was moved from ttackle to left where he became a ter and earned his first varsity r. Of all the models he learned Risien singles out Glenn Bujth (two-time all-SWC tackle for M in '74 and '75) as the player influenced him the most.

Glenn and I were built somewhat me and I felt a great responsifollowing in his footsteps. I ched how he played the position adapted my style to his to a cer-

Risien

Offensive line coach Dan La-Grasta says Risien has made remarkable strides toward improvement

since his freshman year.
"Cody plays football at one-hundred percent all the time whether it's practice or a game. He's always looking forward to each day and becoming a better player. Since his first year, he has improved in almost every area — strength, agility, quickness — and never stops

Risien played his high school football at Cypress-Fairbanks where he earned three letters and was named all-District. Having come from a family that was already "all-Aggie" (his father and several cousins attended A&M), the choice of college wasn't too difficult. His younger brother Flint, a senior at Cy-Fair this year, is also an outstanding tackle and according to his big brother, will probably attend Texas A&M. Before the 1977 season, much of

the optimism around the Aggie camp vas concerned with the offense. With the entire starting backfield returning, along with a very outstand-ing front line, it was a small wonder that enthusiasm would run high. Risien sees no reason for that to

change.

"I'm pleased with our performance so far this season. We had a let-down against Michigan but that's over and we'll keep improving throughout the remainder of the season. We're always putting in some son. We're always putting in some new things and if people haven't noticed our potential before, they

One of the rare situations that the Aggie offense faces is that their fullback, George Woodard, outweighs anyone on the offensive line by more than 20 pounds. Does Risien ever worry about big George running over him?

"It never ceases to amaze me how agile that guy is. He can fit through holes I never would have thought anyone his size could. George is a great athlete and it's a relief to know le's back there. I know he makes our ob up front a lot easier.

During the season, there are very ew occasions when Risien can con-ider his job "easy. With classes and ootball, there isn't much time left to

"It takes a lot of self-discipline and sometimes you have to make sac-rifices. There are times when you eel the pace take its toll and you have to work a little harder to get prepared for a game—both physi-cally and mentally."

Every player hopes to make all-SWC or even all-America, but when Saturday finally rolls around after a week of preparation, Cody Risien has one goal in mind: to be the best player he can for four quarters of
