

# Seal dedication set for Saturday

A replica of the seal of the university set in tile in the rotunda of the Academic building will be dedicated at 10 a.m. Saturday as the Class of 1978's official gift to the university. The ceremony will take place in the Academic building.

The seal is 14 feet in diameter and made up of thousands of individual tiles in 26 different colors. Each of the tiles, imported from Mexico, was originally 3/4 of an inch in diameter, but each has been specially cut to fit into the pattern.

The artist who designed and constructed the seal is Joseph Hutchinson, a member of the Department of Environmental Design. He has been working on the project throughout the semester, assembling it piece by piece at an off-campus location, to be moved to the Academic building. The project is now complete.

The concept of the Class of '78's gift to the university originated in the spring semester of 1976, during the class's sophomore year. The Senior Class Council appointed Kerstin Archer chairman of the class committee to research ideas. Several ideas were submitted for consideration by the council, which

consisted of all interested class members. Among these ideas were a Texas A&M endowed scholarship, a statue of Gov. Richard Coke, renovation of the All Faiths Chapel, and the seal of A&M to be placed in a building on campus. For various reasons, the first three ideas were rejected and the council voted during the fall semester of 1976 to install the seal in the Academic building.

Three bids and sets of plans for the seal were submitted to the gift committee. The project was awarded to Hutchinson on the basis of price and because he was associated with Texas A&M. Total cost of the project was about \$5,100 which was taken from money raised by the class during the previous three years.

The dedication ceremony Saturday will include a reading of the history of the seal given by Miss Kerstin Archer.

Class President Andy Duffie will present the seal to Texas A&M President Jarvis Miller. The program will conclude with the singing of "The Spirit of Aggieland" by the Singing Cadets.

## Do you want to fly?

Face it . . . you've always wanted to fly! Most of us remember that feeling . . . and for a lot of us it has never gone away.

You're in luck. Air Force ROTC can set you winging. Our Flight Instruction Program (FIP) is designed to teach you the basics of flight and includes flying lessons in light aircraft at a civilian-operated flying school.

The program is an EXTRA given to cadets who can become Air Force pilots through Air Force ROTC. Taken during the senior year in college, it is the first step up for the cadet who is going on to Air Force jet pilot training after graduation.

Air Force ROTC also has a scholarship program to pay for books, fees, and full tuition, along with \$100 a month. This is all reserved for the cadet who wants to get his life off the ground . . . with Air Force flying.
