Brig. Gen. Easson to make final review

Air University Commandant Brig. Gen. David B. Easson will review the Corps of Cadets at its last Kyle Field entry of 1977.

The Saturday march-in precedes the Texas A&M-Houston football game, which has a 3:05 p.m. kickoff.

Easson heads Air Force Reserve Officers Training Corps programs and activities at Maxwell AFB, Ala.

The 34-year military veteran was a professor of aerospace studies at Drake University in 1969-71.

Student to tour U.S. with musical group

Hamp Keahey, a sophomore in Animal Science at Texas A&M University, has been accepted as a member of the "Up With People" cast for 1978. "Up With People" is a world famous musical group that tours the United States.

Keahey will be taking a year off from his studies to make the

tour. He is also a member of the Century Singers, the mixed choral group at Texas A&M.

Cadets Boggs, Frost get Johnson award

Ed B. Johnson Memorial Scholarships were presented Saturday to Texas A&M cadets Thomas H. Boggs of Pasadena and Terrence M. Frost of Universal City.

A 1976 Texas A&M graduate commissioned in the U.S. Navy, Ensign Johnson set up the award last spring while serving here.

Johnson's parents extended the scholarship after he died in a naval aviation training flight in California shortly after leaving A&M.

Boggs and Frost received the \$250 fall semester awards from Lt. Gen. (Ret.) Ormond R. Simpson, assistant vice president for student services.

Boggs, a junior industrial distribution major is a drills and ceremonies student in the Corps.

Frost is a sophomore in civil

engineering and is in the Naval ROTC program.

Lab building to be named for Heldenfels

Texas A&M University's new science classroom and laboratory building will be formally named Saturday in honor of H.C. Heldenfels, Sr., of Corpus Christi.

Heldenfels, a 1935 Texas A&M graduate, served on the Texas A&M University System Board of Regents from 1961 until 1974 and was chairman of the board in 1965-66. Additionally, he is a past president of the Aggie Club, the organization which raises scholarships for student athletes.

Dedication and naming ceremonies are set for 11 a.m. in room 100 of the building to be known as "H.C. Heldenfels Hall."

Clyde H. Wells, chairman of the Texas A&M University System Board of Regents, officially will name the building and present it to Texas A&M President Jarvis E. Miller. Wells will also unveil a portrait of Heldenfels.

If you are being commissioned You may want to join the Bank of A&M's World-Wide program.

When you go on active duty, your banking requirements will change dramatically. You're going to move around the world. Your need for credit and for cash will be quite different from your classmates who return to their hometown to work and live. And the penalties for record keeping errors are more severe for military officers than most (if not all) other professions.

The World-Wide Department of the Bank of A&M was conceived to meet the needs of A&M officers on active duty. The department is staffed by Aggies with first hand experience of TDY, overseas movement, car financing in a foreign city, check-cashing problems at a military installation, allotments, telephone transfers, etc.

The World-Wide program includes all the features of the so-called "military banks": direct paycheck deposit, telephone loan service, write your own loan program, overseas car financing, automatic transfers from checking to savings (and visa versa), credit cards, overdraft protection . . . plus personal service by senior bank officers with career military experience and Aggie know-how.

Visit the Bank of A&M today (or some day of convenience) before your commissioning date to learn how the Bank of A&M's World-Wide Department can be of service to you.

The Bank of A&M

Varied speakers to talk

Presentations by an Arab leader, the Texas Supreme Court chief justice and a Cuban anti-Castro movement spokesman are planned this week at Texas A&M University by Political Forum.

The Memorial Student Center committee has programs featuring speakers Wednesday and Thursday. All events are free and open to the public.

Dr. Clovis Masquod leads the state of speakers. Ambassador for the League of Arab Nations, Masquod will be presented Wednesday 8 p.m. in room 601 of the Rudder Tower. He also edits Al-Nahar, a Lebanese newspaper. He will present an Arab perspective on Middle East peace possibilities.

Chief Justice Joe R. Greenhill speaks at 12:30 p.m. Thursday in MSC. His topic is "The Third Branch — A Case of Controversy." Reception for Chief Justice Greenhill is planned afterwards in MSC.

Dr. Jorge Mas Canosa, on "Castro and Communism in Cuba — A People Betrayal," will be jointly sponsored with the Texas A&M

Europe Club. The presentation, in 601 Rudder Tower, starts at 8 p.m. Mas Canosa led early opposition to the communization of Cuba and heads an exile group numbering

Pygmy whale autopsy produces no answers

What killed a 10-foot, 1,000-pound pygmy sperm whale found beached in Galveston may not be known until next week, said a Texas A&M University scientist who assisted in the initial autopsy Saturday.

Dr. Kenneth R. Pierce, professor of veterinary pathology, said Monday that the autopsy produced no major findings and that the next step would be microscopic tissue studies which will begin later this week. The advanced state of decay of the whale's remains is hampering diagnosis, he said.

over 80,000. His anti-Castro efforts have taken him before the Organization of American States and U.S. Senate. He edits a monthly publication, "Rece," of news about Cuba.

The mammal, named "Pilgrim" by rescuers from Galveston Sea-Arama Marine World, was found washed ashore and critically ill on Galveston Island Thanksgiving Day. It died late the next day.

Pierce said the weekend autopsy on the whale was performed by veterinary pathology graduate student Gayman Helman of Bryan. Helman is currently conducting field research near San Angelo and was not immediately available for comment.

Pierce said the immediate goal in the investigation is to gather more information before any diagnosis can be given.

EARN OVER \$600 A MONTH FOR THE REST OF YOUR SENIOR YEAR

If you are interested in engineering, math or physics, the NAVY has a program you should know about.

It's called the NUPOC-Collegiate Program (NUPOC is short for Nuclear Propulsion Officer Candidate), and if you can qualify it can pay you as much as \$611 a month for the remainder of your senior year. Then after 16 weeks of Officer Candidate School, you will receive an additional year of advanced technical training. An education that would cost thousands in a civilian school, but in the NAVY, we pay you! In fact, when you complete the year of advanced training, we will give you a \$3000 cash bonus.

It isn't easy. Only one of every six applicants will be selected, and there are fewer than 300 openings. But those who make it find themselves in one of the most elite engineering training programs anywhere. With unequalled hands-on responsibility, a \$24,000 salary in four years, plus travel, medical benefits and education opportunities.

For more details on this program, ask your placement officer when a Navy representative will be on campus, or call the Officer Programs Office listed below; or send your resume to Navy Nuclear Officer Program, Code 40A, 1121 Walker Street, Houston, Texas 77002. The NUPOC-Collegiate Program. It can do more than help you finish college; it can lead to an exciting opportunity.

**STOP BY AND TALK TO THE NAVY INFORMATION TEAM
AT THE STUDENT CENTER — NOVEMBER 29 — 2 DECEMBER
BETWEEN 9 A.M. AND 4 P.M.**
