

A&M sponsors women's science career workshop

Visitors to Texas A&M University next week will range from science-oriented co-eds to collegiate photographers and veterinarians. Speeches will cover topics from genetic engineering to safety of nuclear energy.

Texas A&M, with support from the National Science Foundation, is sponsoring a science career workshop for freshmen and sophomore women Tuesday through March 4, with more than 200 Texas co-eds expected to arrive. Candid information about career opportunities will be provided by prominent women scientists in the fields of biochemistry, genetics, educational psychology, planetary sciences, geosciences and medical sciences.

MSC. Castillo was the Houston controller before joining the Immigration and Naturalization Service.

Collegiate photographers will get a chance to show off their work in Salon '78. The annual event has a Wednesday entry deadline. Judging will be Saturday with the winning entries on exhibit here March 5-25. Awards will include Best of Show plaques and \$50 each in color and black and white categories.

Entries will be accepted in candid and formal portrait categories, photojournalism, sports, nature, still life, human interest, commercial, architecture, landscape and experimental. Information and entry forms are available from the Camera Committee, MSC.

"Impact of Genetic Engineering on Science and Society" is the topic of a lecture Tuesday when Dr. Frank Young, who has served as consultant and spokesman before Congress on recombinant DNA research, visits the campus. Young, chairman of microbiology at the University of Rochester, N.Y., will speak at noon in 226 Sterling C. Evans Library.

Young is the second of two internationally known microbiologists with talks sponsored by the College of Medicine. The other, Dr. Fred Rapp, director of the Specialized Cancer Research Center in Pennsylvania, will speak at noon Monday in 206 Oceanography-Meteorology Building on tumor-causing properties of human cytomegalovirus, types of virus that result in cellular enlargement.

The Southwest Council on Latin

American Studies will meet here Monday and Tuesday, with 150 people expected for the session in 601 Rudder Tower.

Financial analysis, psychology, and continuing education seminars all will begin Monday of next week. The financial analysis seminar will run through Friday, while the psychology and continuing education seminars are one-day events.

The College of Engineering has two speeches scheduled Thursday. The mechanical engineering department is sponsoring a speech by Harry J. Sweet of Harry J. Sweet & Assoc. Inc. He will speak on "The Role of Analysis in Design: Case Histories," in 203 Zachry Center at

10 a.m. The ocean engineering department is hosting David H. Shumway, senior research engineer with Exxon Production Research, for a talk entitled "Ocean Test Structure" in 342 Zachry Center at 3:30 p.m.

A seminar for the South Central Society for 18th Century Studies will meet Thursday through Saturday at 301 Rudder Tower.

Closing out the week, veterinarians will be examining some new techniques during workshops Saturday and Sunday. Topics include "Anesthesia for the Critical Veterinary Patient," "Clinical Pathology for Animal Technicians," and "General Ophthalmology Update."

Olga Turner Personnel/Consultants is Interviewing in College Station for a Marketing Position in Houston Marine Company

Registration is free and applications still are being accepted. Interested persons should contact Karen Switzer in the Office of Student Affairs.

The Great Issues Committee of the MSC will have two programs. Dr. Bernard Cohen and Larry Tye will discuss the pros and cons of "The Safety of Nuclear Energy" at 8 p.m. Tuesday in Rudder Theater. Dr. Cohen is a physics professor at the University of Pittsburgh and chemical and petroleum engineering director of Scaife Nuclear Laboratories. Larry Tye is an energy researcher and lobbyist in the newly opened Washington, D.C. office of the Union of Concerned Scientists.

Leonel J. Castillo, commissioner of the Immigration and Naturalization Service, will speak Thursday on "The Economic Impact of Illegal Aliens," at 8 p.m., in 208 of the

Your Savings account won't earn more interest than BB&L pays...

(but it might earn less someplace else.)

BB&L

A Savings Institution

BB&L pays the maximum interest permitted by law. Your savings won't earn more at any financial institution anywhere. In addition to maximum return on your savings, BB&L pays interest from the day of deposit (even on deposits made after the 10th of the month), offers you the most convenience of branch offices and Savemobile service and \$40,000 insurance on accounts by an agency of the government.

Look at the rates listed below. If your savings account isn't earning this much, you need to consider joining the thousands of families who trust BB&L with their savings.

For more than 50 years, BB&L has been the place to save for the future.

2800 Texas Avenue/Bryan • 779-2800

All rates are governed by Federal regulation. A substantial interest penalty is required for early withdrawal.
