

CAMPUS ACTIVITIES

Monday
Microbiology, Dr. Fred Rapp on "On-cogenic Properties of Human Cytomegalovirus," 12 noon, 206 Oceanography-Meteorology
Women's Leadership Workshop, 6:30 to 8 p.m., 230 MSC
Dance Arts Society, ballet, 7:30 p.m., 266 G. Rolie White Coliseum
MSC Arts Film, "Shoot the Piano Player," 8 p.m., Rudder Theater

Tuesday
Science Career Workshop, sign up by calling 845-1741
Microbiology, Dr. Frank Young on "Impact of Genetic Engineering on Science and Society," 12 noon, 226 Evans Library
Baseball, St. Mary's vs. Texas A&M, 1 p.m., Travis Park
Mathematics, graduate lecture by Dr. Harold Diamond, 2 p.m., 216 Milner Hall
Great Issues, debate on nuclear energy by Dr. Bernard Cohen and Cong. Larry Tye, 8 p.m., Rudder Forum

Wednesday
Marshall-Harrison County Hometown Club, 7:30 p.m., 147 Rudder Tower
Bridge Club, 7:15 p.m., MSC
Pentagon Area Hometown Club, 8 p.m., 301 Rudder
Aggie Players, "A Streetcar Named Desire," 8 p.m., Rudder Forum
Aggie Cinema, "Long Days Journey

Thursday
CAMAC, Leonel Castillo, director of U.S. Immigration & Naturalization, 7:30 p.m., 206 MSC
Snow Ski Club, 7:30 p.m., 701 Rudder
Dance Arts Society, modern jazz, 7:30 p.m., 266 G. Rolie
Modern Languages, "Baroque Concert," 8 p.m., Rudder Theater
Aggie Players, "A Streetcar Named Desire," 8 p.m., Rudder Forum

Friday
Baseball, Houston vs. Texas A&M, 3 p.m., Travis Park
Aggie Players, "A Streetcar Named Desire," 8 p.m., Rudder Forum
Aggie Cinema, "7 Percent Solution," 8 p.m., Rudder Theater and "Slapshot," 12 midnight, Rudder Auditorium

Saturday
Baseball, Houston vs. Texas A&M, 1 p.m., Travis Park
Aggie Players, "A Streetcar Named Desire," 8 p.m., Rudder Forum
Military Ball, 8 p.m., Exhibit Hall
Aggie Cinema, "7 Percent Solution," 8 p.m., Rudder Auditorium

Sunday
Aggie Cinema, Comedy Orgy, 2 p.m., Rudder Theater

Education today

The search for joy in the world of work

United Press International
You've heard it: a job is a job; work is work.
Not necessarily so, according to William Tenney, Director of Secondary Curriculum and Instruction, Akron Public Schools in Ohio.
There's also satisfaction and joy in the world of work — if a person knows how to aim for a fulfilling career, Tenney reports in "Phi Delta Kappan," journal of the professional fraternity in education, Phi Delta Kappa.
Akron's showcase career exploration program encourages students to sample fields in which they might find "joy" during a lifetime of work, Tenney reports.
The model program in Akron, put together with financial aid from federal and state sources, involves cooperation from the University of Akron, many businesses in the community, and lots of creative planning.

"If there is a key," Tenney says, "it is strong cooperation of school and community."
The career exploratory program at Akron's Central-Hower High School includes six clusters.
"The program actually offers graduates two exits," Tenney says. "One is to work with a skill learned in high school or to enter college better informed and prepared to pursue studies in careers of their choice."
"It affirms the belief that youth should be offered choices in the search for a lifestyle that will include fulfillment and joy in the world of work."
The career clusters are Business Administration and Management; Communication Arts; Engineering and Mathematics; Medicine and Health; Performing Arts; Social Sciences.

Advisory committees from the community help to guide each cluster. On each are from five to 10 persons who represent a range of occupations within each cluster.
They meet several times a year with students and teachers to answer career questions, assist in curriculum development, work out ways of placing students in practical field experiences.

A highlight of the career exploratory program is a partnership with the University of Akron. Students are given a chance to work with university personnel experts in their fields of interest.
Samplings of what goes on in the career cluster:
COMMUNICATIONS
Art: Knowledge is enhanced by practical experience with professionals as well as by field trips to advertising agencies, film production centers, newspaper publishing plants, photography studios and television and radio stations.

MEDICINE
HEALTH: Opportunities include those in medicine, optometry, dentistry, veterinary medicine, pharmacy, nutrition, dietetics, and medical technology. Through volunteer work, students sharpen their awareness of special careers.
PERFORMING ARTS
Field experiences include working behind the scenes as well as before an audience. Students may work in little theater or other performance groups. Experiences include scenery design, costuming, lighting, set construction.

BUSINESS ADMINISTRATION AND MANAGEMENT
Field experiences may include working in accounting offices, financial institutions, insurance agencies, personnel offices, stores, corporations.
SOCIAL STUDIES
Students volunteer to work in churches, hospitals, schools, libraries, social agencies. Or with Akron City Council and the mayor's office.
ENGINEERING AND MATHEMATICS: Through contact with professionals, students learn about different kinds of engineering and technology — computers, example.

— Eleventh and twelfth year programs for each career cluster in each year span three consecutive periods of the school day. During the remaining five periods each student takes additional required and elective courses to meet graduation requirements.
— During the three periods for the career cluster, students study two subjects relevant to the cluster and take part in career-related activities — including orientation and some hands-on experience to get the feel of the work.
Students also interview persons employed in careers of interest. The persons are asked to tell why and how they find satisfaction or joy in their work.

Here's how it works:
— Tenth grade students are

McDONALD'S INTRAMURAL HIGHLIGHTS

Can You Canoe?

By MARY HARTZEL
Students, faculty, and staff wishing to try their oars at canoe racing should enter at the Intramural Office by Tuesday, March 7. The race will be a 5-mile course down the Brazos River, to be held on Saturday, March 25.
This year there will be two separate races scheduled. The men's and women's divisions will begin at 10:00 a.m.; the co-rec division will start at 2:00 p.m. The rest period will allow entrants to participate in both races. A team consists of two members. There will be both aluminum and fiberglass

classes in all three divisions. Beginning at 8:30 a.m. entrants can choose to attend a brief clinic on racing techniques, as well as register and receive instructions.
Participants must furnish their own canoe, paddles, and life vest; you must make arrangements for transportation to the starting point and from the finish line. Bugge's Canoe Sales and Rentals and Canoe LTD can assist in providing and transporting canoes.
For a map of the course and further information, come by the Intramural Office at DeWare Fieldhouse or call 845-7826.

Same Song, Another Verse

If you want to play water polo, but want to play it in the co-rec division, have no fear — innertube water polo is here. You read it right folks — innertube water polo.
What is it? You ask. Well, it's water polo where all players are paddling around in innertubes. No one can touch the ball or tackle another player unless he is inside his innertube. There are seven players to a team; three females and four males. To start play, each team must have at least four persons — two males and two females. There are 20 minutes of actual play, consisting of four five-minute periods. Teams

change at the end of every quarter and at every overtime period. There are two minutes allotted between quarters and five minutes between halves.
Only two outs per game may be called. Scoring is one point for a goal scored by a male type person and two points for a goal scored by a female type person. One point is scored for each penalty throw made.
Now, doesn't all that sound like great fun? For more information and to sign your team up, the IM Office at DeWare Fieldhouse is the place to go. Entries open today and end March 7. Grab your buddies and get a team up. It will be more fun than a barrel of dolphins.

Something for Springtime

Here is one of those main events you have all been waiting for — track. Entries are opening today and will close March 7. Events are broken down into men's, women's, and co-rec divisions.
Men's events will include the 120 yard low hurdles, 440 yard relay, 440 yard dash, 880 yard run,

220 yard dash, 100 yard dash, mile run, mile relay, shot put, high jump, softball throw, and long jump. Women's events are the 50 yard dash, 440 yard relay, 100 yard dash, 220 yard dash, 440 yard dash, 880 yard relay, shot put, long jump, high jump, and softball throw. The 440 yard relay and the

SOFTBALL IN FULL SWING

Softball goes into its third week with a record number of 620 teams competing at various skill levels. Shown here is part of a practice game between Utay and L-2.

IM Picks

Basketball playoffs begin tomorrow and the wise man of IM sports is going off on a limb once more. Here's how he sees it on the roundballer's courts for Class A play:

Men's Dorm
Aston Lone Stars
Puryear Playboys
Leggett #2
Puryear Ragnauts
Davis-Gary Farmers
Corps
Squadron 8
F-1 Finest First
Squadron 9
Squadron 2 #2
L-1
Women's Dorm
Moshier Pistol Peters

Krueger White
Spence Sparklers
Fowler Jockes
Krueger Maroon
Co-Rec
Lone Star Trotters
Bad Company
Goodtime Gang
Men's Independent
TSBMF
High Chicago
Roaches
Chicken Monsters
The Butchers
Fish
S-2
B Company Band
Squadron 5
Squadron 11
L-1
Women's Independent
BSU #1
Tang Gang #2
EPU
PoGo Sticks
JBAH

880 yard relay will also be co-rec events. A master's mile will be held for individuals over 35 years old.
Team managers should check the heat schedules in the IM Office. Preliminaries will be held for two days, then divisionals and finals will be held.

IM SPORT SHORTS

Play Begins: Wrestling Feb. 27
Playoffs: Basketball Feb. 28

Entries Open: Canoe Race Feb. 27-March 7
Water Polo Feb. 27-March 7
Innertube Water Polo Feb. 27-March 7
Entries Closing: Fast Pitch Softball Feb. 28
Frisbee Feb. 28
Racquetball Singles Feb. 28
Horseshoe players make great choir members, they always sing on pitch.
Seymour Ringers

Laurel Wreaths and Roses

After ten weeks of play last semester and a month of bad weather and playoffs this semester, soccer season is completed. As we put the ball to rest and post the results, a comment must be made about that wise guy of the IM picks. What can we say but try harder and stay away from the Corps because they might laugh you right off campus.
And the winners are:

ALL-UNIVERSITY CHAMPS
Men's Class A - E-1
Men's Class B - Moses
Men's Class C - Metatarsals
Women's - Tang Gang
Co-Rec - All in the Family

DIVISIONAL CHAMPS
Men's Dorm Class A - Dunn
Men's Independent
Class A - Central America
Corps Class B - S-2
Men's Dorm Class B - Leggett
Men's Independent
Class B - Mexico

ACKNOWLEDGMENT
This ad is sponsored by McDonald's on University Drive and Manor East Mall and under the direction of the IM Office with stories by Michelle Wolstein and photos by Corey Gaskill.

"I SPY'S" PARTICIPANT OF THE WEEK

(Come to the Intramural Office to claim your Free "Guest" Card for free food at McDonald's) Norman Linkerhoger congratulates his pitch while his opponent, John Larson, watches. Norman represents B-1 and John SQ-2 in Class B of men's horseshoes.

Lethal rare blood disease hearing resumes today

United Press International
DALLAS — A hearing to determine temporary custody of a 16-month-old boy suffering from a rare and lethal blood disease resumes Monday in juvenile court.
Dr. Mary Sawyer, physician to the infant, Tony Olivo, testified he is jeopardized by the care he receives at home.
Tony suffers from a blood disease which makes him susceptible to infection and prone to shuttling bleeding problems. He has spent most of his life hospitalized in sterile environments, mainly Parkland Hospital.
Dr. Sawyer testified before Juvenile Court Judge Pat McClung that lack of proper care was evident.
The hearing was to continue Monday. Meanwhile the child remains in the custody of foster parents under an emergency protective custody order issued Feb. 16. McClung at the request of well officials.
