LISTEN TO YOUR BODY.

If something's going wrong, it'll tell you.
1. Change in bowel or bladder habits.
2. A sore that does not heal.
3. Unusual bleeding or discharge.
4. Thickening or lump in breast or elsewhere.
5. Indigestion or difficulty in swallowing.
6. Obvious change in weight or mole.
7. Nagging cough or hoarseness.

If you have a warning signal, see your doctor. If it's a false alarm, he'll tell you. If it isn't, you can give him time to help. Don't be afraid. It's what you don't know that can hurt you.
