**Drink up and help save an old train depot**

United Press International  
FARBER, Mo. — A 104-year-old train depot will be converted into a museum as soon as townspeople can collect 1 million beer and soda cans.

The 470 citizens of Farber, hoping to preserve the past, have completed about 20 percent of a massive recycling project. Mayor Don Crow says the goal of 1 million aluminum cans will bring in \$7,000 to aid in the depot's restoration.

The campaign began nearly a year ago and the town has collected and crushed 200,000 cans.

"I'm very optimistic about the project," Crow said. "I'm not a person that likes to wait. We'll reach our goal, I just can't say when."

In 1972, the Illinois Central Gulf Railroad sold the depot to Farber for \$1, but the railroad refused to take the dollar. In return, the town moved the depot from the railroad's right-of-way to a city park 60 feet away.

For six years, city fathers tried to find ways to raise the money for the restoration project. But none of the previous projects earned enough money. Crow is confident the can collection will do it.

Farber already has spent \$5,000 on the depot. Money from donations and a federal grant of \$3,750 was used to move the depot and replace its roof.

Restaurants, taverns, stores, service stations and truck stops in the area are storing their empty aluminum cans for recycling. A nearby drive-in theater became interested in the plan and provided an area where movie-goers could toss their cans.

Waldo Roberts, a longtime Farber resident, considers the aluminum can collection a wonderful idea and said, "At home we have a separate trash can for any aluminum we can find."

"We're not picky about what form the aluminum comes in," Crow said. "The women have been saving pie pans and foil. Every little bit helps. We've had people from as far away as California send us donations."

Crushed cans are stuffed into trash bags and piled high in the garage of the city maintenance building. In June, Reynolds Aluminum Recycling Co. sent a truck to pick up some of the cans.

Charles W. Rayfield, regional manager of Reynolds Aluminum Recycling, said of the collection project, "We thought it was a neat idea. The money Farber will get isn't a lot, but it's a start in the right direction."

**what's up**

Thursday

**WATER SKI CLUB:** There will be a water ski club meeting tonight at 7:00 in room 224 of the Memorial Student Center. New members are urged to attend.

**OPA RUSH:** A&M's service sorority, OPA, invites all prospective pledges to come and find out what OPA has to offer at 6:30 p.m. in room 145 of the Memorial Student Center.

**ART PRINTS:** Students will be able to check out art prints from the Sterling C. Evans Library between 10:00 a.m. and 1:00 p.m. today. The art prints, available only to students for one semester should be returned by December 1.

**MOVIE:** "First Men in the Moon," a story of an English expedition to the moon more than 60 years ago will be aired at 8:00 and 10:30 p.m. in room 601, Rudder Tower. Price is 50 cents.

**A&M CYCLING TEAM:** All bikies interested in bicycle racing, urged to attend the meeting at 7:30 p.m. in room 704A Rudder tower.

**YELL PRACTICE:** There will be a yell practice tonight at the Gym at 7:00 p.m.

**DANCE ARTS SOCIETY:** The Dance Arts Society is now offering Men's Movement Class for guys interested in limbering up and learning the basic moves of dance. The class begins September 11 and will be held on Monday nights from 8 to 8:30. The registration meeting will be held today in Room 267 of G. Rollie White Coliseum at 7:30 p.m.

Friday

**DEADLINE:** The deadline for applying for graduate and undergraduate degrees to be awarded in December is today.

**DEADLINE:** Today is the last day to audition for Singing Century Singers, and Reveliers.

**WATER POLO TOURNAMENT:** Begins at 3:30 p.m., in P.L. Downs Natatorium.

**MOVIE:** "Smokey and the Bandit," with Burt Reynolds, Sally Field and Jackie Gleason about two truck drivers who accept a bet to make a beer run from Atlanta to Texarkana and back in 28 hours, will be shown at 8 and 10 p.m. in Rudder Auditorium.

**MIDNIGHT MOVIE:** "The Longest Yard," about a football game between the guards and the inmates of a Southern prison is the subject of this violent comedy, will be shown in Rudder Auditorium.

Saturday

**MOVIE:** "Smokey and the Bandit" will be shown again at 8 p.m. in Rudder Auditorium.

**MIDNIGHT MOVIE:** "Deliverance," about an unexpected canoe trip into a total terror and desperation for four city men, will be shown in Rudder Auditorium.

**WATER POLO TOURNAMENT:** Begins at 8 a.m. with finals at 5 p.m. in P.L. Downs Natatorium.

**Garland energy use  
topic of A&M study**

Predicting the future isn't easy, even when you've got a computer for a crystal ball.

Dick Moore, an environmental design professor at Texas A&M University, is using a computer to map future energy needs and conservation measures for the 140 residents of Garland. It is a plan could put energy dollars back in the pockets of citizens over the few years.

"I'm looking at the city as if it were a living organism," explains Moore. "The data I've been using will be punched into a computer to tell where its major energy problems lie so they can be alleviated and, hopefully, avoided the future."

Moore will develop three scenarios for Garland: how the city is currently using its energy to meet consumer demand, how the city could conserve more energy, and how their energy needs might meet with a solar-based plan.

"We know urban systems like ours are going to change," Moore says. "The question I'm interested in answering is how?"

Residents of the North Texas town near Dallas see Moore's energy research in another light, however.

"What we hope this study will help the ol' pocketbook," says Denny Wheat, energy conservation coordinator for Garland. "We hope this won't be an immediate expense but later on down the line the money that's collected could save the land homeowner some money."

"In any case we'll be better prepared to meet future energy needs when and if they occur."
