12 picked for band bugle rank

Twelve seniors have been selected to the bugle rank of the 1978-79 Texas Aggie Band. They will lead the Aggie Band at nine of 11 Texas A&M football games and in reviews, parades and other events. Right guide, by military practice, will be the Commanding Officer of the Combined Band. This year the post is held by William C. McKeerall of New Braunfels. Other bugle rank members, right to left, are Douglas Coats, Artillery Band executive officer of Andrews; Dennis Hallaron, "B" Battery commander, Katy; Robert Fields, "A" Company commander, Humble; Steve Smith, Kirbyville; Mark Rayfield, Robins Air Force Base, Ga. Also, Paul Shannon, combined band operations officer, Maxwell; Lee Shockley, Infantry Band commander, Houston; Gregory Slack, Infantry Band executive officer, Refugio; Mike Jechow, Uvalde; Ronald Greenwade, "A" Battery commander, Refugio; and Joe Ramirez, "B" Company commander, Houston. The 1978-79 Aggie Band drum majors are Larry Haag and Michael McCartney of New Braunfels and Connie Williford of Seagraves. The band's first fall appearance will be at the Sept. 30 Memphis State game in Kyle Field. Later trips will be to Houston, Dallas, Little Rock and Austin. The front row of seniors of the famed military band carry silver bugles and have major responsibility for leading precision maneuvers in football halftime drills. Selection to the bugle rank by Lt. Col. Joe T. Haney, director, and Maj. Joe McMullen, associate director, is based on marching ability, military bearing and other criteria.

Greyhound Rx. The cure for college blahs.

It's a feeling that slowly descends upon you. The exams, the pop tests, the required reading, the hours at the library, the thesis—they won't go away. But you can. This weekend, take off, say hello to your friends, see the sights, have a great time. You'll arrive with money in your pocket because your Greyhound trip doesn't take that much out of it. If you're feeling tired, depressed and exhausted, grab a Greyhound and split. It's a sure cure for the blahs.

Greyhound Service

New state law requires voters to register again after moving

By DOUGLAS ERCK
Battalion Reporter

An estimated 12,800 Brazos County voters are no longer eligible to vote after a 1977 state senate bill removed their names from county registration lists in March 1978. Senate Bill 850 created a "strike" system to eliminate the names of voters who had moved from their previous addresses. Striking these names off the list served to clear and update the voter files. Anyone whose name was removed from the lists was able to vote through June 29. Now, they would have to re-register. The first list printed after the

strike off left us with only 24,238 voters, a decline of 12,221, said Buddy Winn, Brazos County Tax Assessor-Collector. Since then we have taken over 2,000 more names from the lists. "Approximately 3,200 people have re-registered and we now show 27,489 voters," said Winn. Anyone who has moved within Brazos County and has not re-registered must do so within 30 days of any upcoming elections in order to vote. Registration takes seven to ten days if the application is mailed in. Any new residents of the county, including Texas A&M students, who wish to vote in Brazos County and

USDA discovers bad milk in time

United Press International

DALLAS — Cottonseed meal which had been contaminated with cancer-causing aflatoxin was bought by a West Texas cottonseed broker and later was successfully isolated. Milk from the livestock who ate the feed was destroyed. A spokesman for the U.S. Department of Agriculture in Dallas said Wednesday a cottonseed broker in Bovina, Texas, had purchased 2,000 tons of the contaminated product from the Paloma Ranch in Arizona. Cottonseed meal is used as a feed for livestock and dairy cattle. James Anderson, a USDA inspector, said the contaminated cottonseed had been isolated and that all milk produced from it had been destroyed. None of the contaminated milk was sold. A state investigation in Arizona traced large amounts of aflatoxin to the Paloma Ranch and ordered use of the cottonseed to cease. Scientist differ regarding how much aflatoxin is dangerous, but it has been proven to cause cancer in laboratory mice.

ALWAYS WELCOME AGS.
