Cult members return to U.S.

United Press International
GEORGETOWN, Guyana — Elderly members of the People's Temple who missed the mass suicide ceremony where 909 fellow cultists drank a cyanide-laced potion, are returning to the United States to tell their story to the FBI and the world.

They were scheduled to board Pan American Flight 228, leaving Georgetown for New York, where it was due to arrive Wednesday evening.

Behind them, they were leaving a jungle settlement turned-ghost town and the Guyanese government apparently was having trouble deciding what to do with the 3,000-acre, multimillion-dollar commune where the Rev. Jim Jones ordered the suicide communion 10 days ago.

The cabinet met all day Tuesday and when Guyanese Prime Minister Forbes Burnham emerged from the session, he would say only, "The Cabinet discussed the future of Jonestown and a statement will be issued shortly. Teams have already begun an inventory of Jones' assets."

Government sources said the cabinet was expected to commission the military to exploit the commune as an agricultural station and to invest the crops of beans, bananas, pineapples, oranges, other tropical fruit hanging from the trees.

After they get to New York, elderly followers of Jones reportedly have agreed to go to Charleston, S.C., for depositions. FBI agents investigating the case of Rep. Leo J. Ryan, D-Calif., Temple fanatic.

Only one of them — all are 60 years of age — was present in Jonestown at the time of the suicide. Hyacinth Thrush, 73, while her fellow cultists poisoned themselves with a purple brew, she slept peacefully in her bin.

The others to be repatriated have been staying at the state Lamaha Garden headquarters in Georgetown.

They were Raymond Goldman, 62; Madeline Brooks, 73; Young, 78; Alberay Saterwhite and Marion Campbell, 61. All their hometowns were unavailable.

Miguel de Peana, 84, has returned to the United States too slept through the massacre.

U.S. officials accounted for survivors of the sect in Georgetown.

—Forty-six are under house arrest at Lamaha Gardens as potential material witnesses in the trial of Steven Beikman, accused slitting the throats of sect members Sharon Amos and her three children.

—Beikman and Larry Layton were under arrest. Layton was charged with five counts of murder in the deaths of Ryan, three men and a cult defector.

—De Peana was already in the United States.

—Monica Bagby and Tom Bogue were still hospitalized with gunshot wounds sustained in the Ryan incident.

—The remaining 29, the presumed survivors of the suicide, were in Georgetown hotel.

Police also were keeping guard on three young men described as dangerous Jones loyalists: Tim and Mike Carter, 28 and 32, and Mike Prokes, 32.

They claimed the commune's surer — Maria Katsaris, who also Jones' mistress — sent them through the jungle with a full of currency destined for the Soviet Embassy.

The money was confiscated by Guyanese police who said it amounted to \$500,000.

Tim Carter said he estimated \$3 million.

A Soviet Embassy spokesman said Tuesday, "The Soviet Union has nothing to do with the People's Temple, a purely American organization. The first contact we had when they were invited to a show earlier this year."

The United States by 22,000 to the crisis.

Police said at least 5,000 women and children from a group of more than 30 boats have managed to slip past patrol boats and land in recent weeks, hundreds of them Tuesday. They denied their boats to avoid being pushed back out to sea, they said.

Authorities said pocketed stranded refugees were waiting in the states of Kelantan, Terengganu, Pahang and Johore to be taken to the camps.

Shafie said Tuesday night the flux of Vietnamese was "well below the level of tolerance" for the United States and hinted that unless the States stepped in their government would have to crack down.
